Eclipses.

In the year 1850, there will be only two Eclipses, both of the Sun:

I.—An Annular Eclipse of the Sun, February 11, 1850, not visible in any part of the American continent:
confined to the Indian Ocean and adjacent parts of Africa, Asia and Australia.

II.—A Total Eclipse of the Sun, August 7, 1850, not visible in any part of British North America: confined to the Pacific Ocean, California, Texas, and a small part of South America.

Law Terms.

Hilary—February 4. Easter—June 3.

Trinity-August 26. Michaelmas-Nov. 18.

University Terms.

Michaelmas—begins Oct. 4, ends December 20th. Hilary—begins January 7, ends March 23rd. Easter—begins April 7, ends July 19th.

Saturn's Ring.

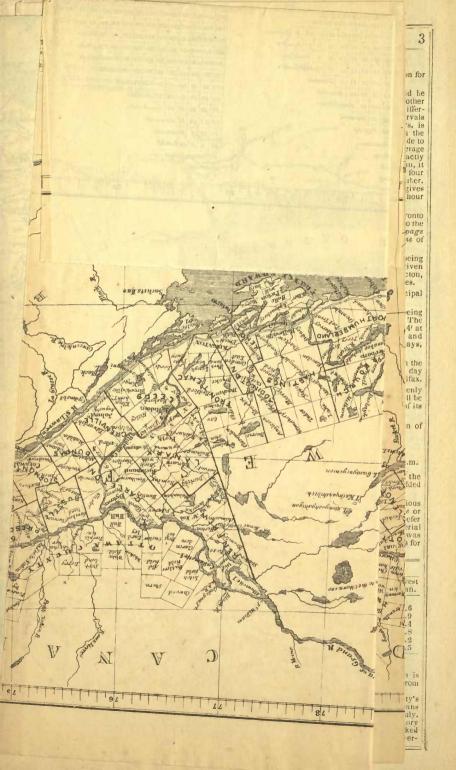

To render Saturn's Ring visible to the Earth, it is necessary that the Sun and the Earth be elevated on the same side of it, which is the case during the whole of 1850. It will attain its greatest apparent diameter in August.

Sun in Sun in Sun in

Explanation of the Articles in the Calendar.

THE SUN'S DECLINATION is given for mean noon at Toronto, for every day: the difference for mean noon for any other place in the British Provinces, will rarely amount to one minute.

any other place in the British Provinces, will rarely amount to one minute.

Apparent Noon, Shewing the Equation of Time.—This column contains the hour which should be shewn by a clock or watch at Toronto, when a Sun-dial marks twelve o'clock. Its error at any other place in the British Provinces will tarely amount to one second. The Equation of Time is the difference in time between the real place of the Sun, and its supposed or mean place. The actual intervals between the successive arrivals of the Sun on the meridian, or the length of successive solar days, is variable, owing to the difference in the rapidity of the Earth in different parts of its orbit, and in the inclination of the successive parts of the ecliptic to the equator. But, as time-keepers cannot be made to measure an interval which varies every day, a clock or watch is made to mark twenty-four hours in the average of all the days. In other words, it is made to keep pace with an imaginary or mean Sun, having a motion exactly could be average motion of the real or annarent Sun. Hence, when it is twelve o'clock by the real Sun, it equal to the average motion of the real or apparent Sun. Hence, when it is twelve o'clock by the real Sun, it may be before or after twelve by the mean Sun. The true Sun and the mean or imaginary Sun coincide four thing in each year, viz., about the 15th of March, the 15th June, the 1st of September, and the 24th of December. The difference between their, or the Equation of Time, is never more than sixteen minutes. A Sun-dial gives apparent time, and the equation of time must be given before setting a watch by it, whatever be the hour of the day.

Son Rising and Setting.—The mean time of the Sun rising and setting is given for every day for Toronto and Montreal, and will be found given for every tenth day at Quebec, Ilalifax, and Fredericton, by referring to the Table at page 4. If the time is wanted for any intermediate day, enter the table of Semi-diurnal Arcs (page 1) with the Sun's declination for that day, the value given, subtracted from, or added to, the mean time of pparent noon, will give the hour of rising or setting.

'nz Moun's Rising or Setting is given for every day at Montreal and Toronto: the time of rising being ven when she sets during daylight; and the time of setting, when she rises during daylight. The time given for Montreal will never be more than four minutes in error for Halifax, three minutes in error for Fredericton, and five minutes in error for Quebec; and it is, therefore, near enough for ordinary reference at those places.

THE PLANETS .- The hour of meridian passage, right ascension and declination of each of the principal Planets, is given for the 1st and 15th of each month. (in signifies morning.)

The Pole Star .- The time when the Pole Star is on the meridian, is given for the 15th of each month, being The Pole Star.—The time when the role star is on the meridian, is given for the 15th of each month, being the hour when it is due north. U. signifies Upper Culmination—L. signifies Lower Culmination. The greatest elongation of the Pole Star from the meridian, varies with the latitude of the place: it is about 2° 4′ at Toronto, 2° 8′.5 at Montreal, increasing at the rate of about 1′.5 for every degree of latitude between 40° and 2°. To find the hour when it is on the meridian at any other date, multiply 3m 55′′ 8 by the interval in days, -- add the product, if for a date before the 15th; subtract it, if for a date after the 15th.

Twilliam begins in the morning, when the Sun is about eighteen degrees below the horizon, and ends in the evening, when it is eighteen degrees beyond it. The mean time of beginning and ending for every tenth day will be found at page 4, together with the time of the Sun's rising and setting at Quebec, Fredericton and Halifax.

SEMI-DIGRNAL Arcs.-This table is useful for determining the times of rising and setting of the heavenly bodies. Enter the table with the declination of the object: under the proper column for the locality will be found half the time which the object remains above the horizon, which is to be subtracted from the time of its meridian passage, if the time of rising is required, or added, for the time of setting.

Example .- Required the time of rising for the Planet Jupiter, at Montreal, June 16th, 1850, Declination of Jupiter 70.

Corresponding to which we find the semi-diurnal are..... h. m. 28.5 Jupiter on meridian..... Jupiter rises......

METEOROLOGICAL.—On the first page of each month is given the approximate mean values of each of the principal Meteorological elements for Toronto, Upper Canada, and Greenwich, England. To which are added certain values for Montreal, Lower Canada.

The first Meteorological Observations that were published in Upper Canada were made "by an ingenious gentleman of this city" (York, now Toronto,) in 1801, and are to be found in the Upper Canada Gazette or American Oracle for that and the following year. Although extremely imperfect, it may be interesting to refer to them, for the purpose of discovering, whether, so far as a single year is any criterion, they shew any material change to have taken place in the climate in the space of nearly half a century. The thermometer was observed at survise, noon, and sunset, taking the means and reducing them approximately to the true means for 24 hours. The following are the results:

Month.	1501.	1840—1847.				1301.	1840—1847.		
	Mean.	Mean.		Mean.		Mean.	Mean.	Highest Mean.	Lowest Mean.
January. February. March. April. May. June.	27.8a 38.5b 46.0 56.4	24.3 24.0 30.7 42.3 52.2 60.4	0 28.8 28.3 36.3 48.1 55.8 66.0	48.3	July August September October November December	63.1 60.3 48.8 32.8	66.0 65.2 57.7 43.8 35.7 27.4	68.2 68.4 63.4 47.3 40.8 39.8	64.6 63.9 54.4 41.8 33.2 21.5

(a) a Southern exposure. (b) Northern exposure in March and following months.

Omitting January and February, in which months the Thermometer had a Southern exposure, the mean is still 20.4 higher than that given by the recent observations, but no safe conclusions can be drawn from

still 20.4 higher than that given by the recent observations, but no safe conclusions can be drawn from observations in which the precautions essential to accuracy were probably neither known or regarded.

The data for Toronto given in the Almanac for each month are derived from the Records of Her Majesty's Magnetical Observatory, for nine years, 1840-1848 inclusive, by permission of the Director, and are the means by observations made every two hours, from 1st January, 1840 to 31st December, 1847. The data for Greenwich, are derived from the Records of the Royal Observatory for seven years, 1841 to 1847, and are the means by observations made every two hours. It should be remarked that the quantity of rain which falls at Greenwich, appears to be less than the average for all England. The average

age at sixteen stations in 1845, was 31.6 inches; at Toronto the average is about 34 inches. The mean temperature for Montreal is derived from the Registers published monthly in the British American Journal of Medical and Physical Science, for four years, 1845-1848; but as the means there given, are derived from observations at 7 A. M., and 6 P.M., only, they are higher than true means, to an amount which is different for every mouth of the year; the appropriate correction for this difference has

been here applied.
We would gladly extend the interest of the Meteorological Table, by adding the particulars for Nova Scotia, New Brunswick, and the Island of Newfoundland, if in possession of authentic materials.

Variation of the Compass. From the Records of H. M. Magnetic

Observatory.
The mean variation at Toronto, for the year 1848, was 10 34 west (nearly); it increases at an average, about 2, every year. The variation undergoes a daily change, being least from 7 to 8 A.M., and greatest from 1 to 2 P. M .. The difference between the values at 8 a. m., and 2 P. m. in the several months, by the average of eight years (1840 to 1847), is as follows :-

January	5.4
February	5.8
March	
April	
Mav	
June	
July	
August	
September	
October	
November	
Theombox	

The variation is least liable to fluctuations in the afternoon; it is nearer its mean value at 10 A. M., and 6 to 7 P. M.

Inclination or Dip of the Needle at Toronto, 1848... 750 18/ 3 N Horizontal intensity in absolute measure, 1848 3.5945.

PROVINCE CANADA. OF

His Excellency the Right Honorable James, Earl of Elgin and Kincardine, Baron Elgin, K. T., Governor General of British North America, and Captain General and Governor-in-Chief in and over the Provinces of Canada, Nova Scotia, New Brunswick, and the Island of Prince Edward, and Vice-Admiral of the same,

Kee. &c. &c. &c.
Major T. E. Campbell, Governar's Secretary; Lieut. Colonel the Hon. R. Bruce, Military Secretary; Lieut. Colonel Edmund W. R. Antrobus, Provincial Aide-de-Camp; Lieut. Colonel Alphonse De Salaberry, Extra do.

The usual lists of Executive, Judicial and other officers, are given in a Supplement at the end of the Alma-ic. The lists were not received in time or insertion here.

Tariffs of Customs.

Subjoined is the Tariff of the Province of Canada, Alphabetically arranged. The Tariffs of the other Provinces of British North America, are given in subsequent parts of the work, under the separate heads of the respective Provinces. They will be found useful for comparison; and as regards the Tariffs of Great Britain and the United States, reference may be made to Scobie & Balfour's Canadian Amanac, for 1849. Since then the Sugar Duties have been altered by the Imperial Parliament, to the following, viz:—Brown or White Candy, Refined Sugar, or Sugar equal thereto, per cut.—Foreign, 26s. 8d., Colonial, 17s. 4d.; White Clayed, or equal thereto, not being refined, per cut.—Foreign, 21s., Colonial, 15s. 2d.; Brown Clayed, ditto, per cut.—Foreign, 21s., Colonial, 13s.; Muscovado, per cut.—Foreign, 18s. 6d., Colonial, 13s.; Mosses, per cut.—Foreign, 6s. 11d., Colonial, 1s. 10d. The rates on Colonial Sugar are to be reduced annually, on 5th July, 151, when they become, for Candy or Refined Sugar, 13s. 4d., White Clayed 11s. 8d. Muscovado, or any other, not equal in quality to White Clayed, 10s., and for Molusses, 3s. 6d. per cwt. The rates on Foreign Sugar are also to be reduced annually, on 5th July, until 5th July, 1851, when they become in all respects the same as those on Colonial Sugar. of British North America, are given in subsequent parts of the work, under the separate heads of the respective

Canada Tariff.

Duties payable in Currency, at £1 4s. 4d. to the Pound Sterling; \$4 to the Pound Currency, and \$4.84 to the Pound Sterling.

Agricultural Societies, Seeds, Farming Utensils and Implements of Husbandry, imported by, for the encouragement of Agriculture, Alabaster Busts and Casts, All Goods, Wares and Merchandise, not otherwise charged with duty, and not declared to be exampt from duty, American, British North Provinces, Free Trade with See and of list). ABSTRACTS OF LATE PROVINCIAL ACTS.

Public Schools, Upper Canada.

Act 12, vic. cap. 83, comes in force on 1st January. 1850, and repeals all former Common School Acts. The office of Superintendent of Schools for Upper Canada is continued, that of District Superintendents abolished, and Township, Town, and City Superintendents substituted, who are to be appointed by the several local councils. The present District Superintendents shall commune in the exercise of their powers. and the performance of their duties until March 1, 1850, when they shall deriver over to their successors all school papers and moneys in their possession, under penalty of twice the amount which may be involved in be appointed Superintendent over different Townships, by the several Municipal Councils, to each of whom he must give security for the due performance of his duties. The present School Sections shall continue, until altered by the local municipalities. The present Trustees shall also continue, until successors are appointed. The Trustees for each Section-three in number-shall be a corporation, under the name of The School Trustees of Section number Township, Town, or City of , in , in the County At the first meeting in any new School Section, the resident landholders and householders present. shall elect three Trustees, who shall continue in office till the second Tuesday in January following. One of the Trustees shall retire annually, and on the second Tuesday of January in each year, a meeting shall be held in each School Section, when a Trustee shall be chosen by the landholders and householders present, in place of the one who retires. A retiring Trustee. if willing, may be re-elected, but no Trustee shall be re-elected, except by his own consent, during the four years next after his going out of office. A penalty of £5 is imposed on any Trustee for refusing to serve or to do his duty. In the case of a new School Section, the meeting for the election of Trustees, shall be called by persons to be appointed for the purpose, by the Council of the Municipality, who shall, within twenty days of their appointment, give notice, describing the Section, and appointing the time and place for the meeting. The notices to be posted in at least three public places in the Section, at least six days before the time of holding the meeting. The yearly meetings for the choice of Trustees, on the second Tuesday in Jan., shall be held at such place in each School Section as the majority of the Trustees shall appoint, who shall post notices of the same, in at least three places in the Section, at least six days before the time of meeting. A penalty of £2 for neglecting to give notice of meet-Vacancies are to be filled up at a special meeting, to be called by the surviving Trustees-should there be none surviving, then the Council is to fill up the vacancies. Each Corporation of Trustees shall appoint one of themselves, to be Secretary-Treasurer. The details of the duties devolving on Councils, Superintendents, Trustees, Teachers, Boards of Education, &c., are too voluminous to be inserted here.

Municipal Corporations, U. C.

An Act was passed last Session of Parliament, (12 ded by the Municipality. Vic., cap. 81.) to provide by one general law, for the erection of Municipal Corporations, and the establishment of Regulations of Police, in and for the several Counties, Cities, Towns, Townships and Villages in Upper Canada. The former Municipal Acts are repealed. The new Act is very voluminous.

1. TOWNSHIP MUNICIPALITIES, U.C.

PREPARATORY ARRANGEMENTS BY DISTRICT COUNCILS,

(§ 2.) The inhabitants of each Township, in Upper Canada, having 100 or more resident Freeholders or Householders on the Collector's Roll shall be a Body Corporate, with the usual powers to be exercised in name of municipality.

(§ 3.) Townships having less than 100 freeholders and householders on such roll, shall be attached to some other adjacent Township in the same country, and be known as the junior township of the union thus formed, and the other as the senior Township. The united townships shall be represented in one ununcipality.

Unions may consist of two or more tswiships, as convenience may require, and shall be called "the United Townships of ——." The duty of attaching junior townships to others, devolves on the Municipal Council for each District, at a special meeting on the 2nd October, IS-19, to be continued by adjournment, if necessary, till 2nd November. (§ 4) Empowers the District Council to divide each township and union of townships into rural wards, [§ 15, five in each], for the election of Township Councilors. The ward divisions to be as nearly as practicable, equal, with respect to numbers, regard being also paid to convenience and compactness. (§ 5.) The District Council also to appoint in each ward, a convenient place for holding the election and a fit and proper person to hold the first. (§ 6.) By-Laws when passed by District Councils, for the foregoing objects, to be published at least twice in the Official Gazette, and four times in some newspaper in the county. Copies, moreover, to be posted up in the four most public places in each township in the county. (§ 7.) A copy to be also furnished each Returning Officer, a month prior to the election. Any Returning Officer, a month prior to the election. Any Returning Officer appointed, and failing to hold the election, shall be liable to a penalty of not more than £10.

ARRANGEMENTS BY TOWNSHIP MUNICIPALITIES.

(§ 8.) Township municipality may afterwards rearrange and divide the township anew, into wards, by a vote of four-fitths of the members. (§ 9.) It may also anew, appoint aft and convenient place in each ward, for holding elections. (§ 10.) Also appoint aumually, fit and proper persons to be Returning Officers for the several wards.

JUNIOR TOWNSHIPS, HOW SEPARATED.

(§ 11.) Whenever the number of resident freeholders and 100-sehold rs in any junior township shall, according to the Collector's Roll, reach 100, the Municipal Council of the county, may, within the first nine months of the following year, divide such township into rural wards, fix the place for holding the first election of Councillors therein, and appoint Returning Olicers for the same. (§ 12.) Such junior township, from 1st January in the year next but one, after the requisite increase appears on the Roll, shall be incorporated by itself.

AS TO SENIOR OR REMAINING TOWNSHIPS.

(§ 13.) In case of such increase, the municipality of the Union to which such junior township belongs, may within the first nine months of the following year, divide the senior or remaining township or townships, maw, into rural wards, fix the place for the first election of Councillors in each of them, after the dissolution of such union, and appoint Returning Officers for holding the same.

for holding the same.
(§ 11.) Should the Township Municipality fail to comply with these requirements, and the Senior or remaining Township or Townships after the dissolution of the Union, be thus left without the requisite number of wards, then the election of Councillors shall be made by general vote of the qualified Freeholders and Householders of the whole of such Senior Township, in general meeting, and not by rural wards, until redivided by the Municipality.

JUNIOR TOWNSHIPS, -WHEN INCORPORATED.

(§ 16.) *A Junior Township having fifty resident Freeholders and Householders on the Collector's Roll, shall, for the year following the making up such roll, and thenceforth, be incorporated by itself.

INCORPORATED CITIES, TOWNS, AND VILLAGES.

(§ 17.) No part of any Incorporated City or liberties. Town, or Village, although lying within the boundaries of a Township, shall, for the purposes of this act, form part of such Township; and no election of Township Councillors shall be held within their limits.

AS TO PRESENT OFFICERS.

(§ 18.) Existing officers in Townships, to continue in office, without exception, until the fourth Monday in January, 1850, and until their successors shall be elected and sworn.

^{*} This clause is at variance with sec. 111 & 12.

WHEN TOWNSHIP NOT DIVIDED INTO WARDS.

(§ 19.) Failing the division of any Township into Wards, by the District Conneil, then, and until it is so divided by the Township Municipality, the election of Councillors shall be by the votes of the electors of the whole Township, in general meeting, at the place where the last Annual Township Meeting was held; provided it was not within the limits or therties of any City, Town, or Incorporated Village, in which case the District Council, at its special meeting, must appoint some other place for holding it. (§ 20.) In all such cases the Township Clerk shall be the Returning Officer.

ELECTION OF COUNCILLORS, -WHEN HELD.

(§ 21.) Commencing in 1850, an Election shall be held, on the first Monday in January in each year, either by general Township Meeting, or by Wards, for Township Councillors, for each Township in Upper Canada.

QUALIFICATION OF VOTERS AND COUNCILLORS.*

(§ 22.) The Township Collector shall produce, at the opening of such Township or Ward Election, a fair copy of his Roll, duly verified, so far as it contains the names of the Freeholders and Householders of the Township or Wards respectively, and the amount of the assessed value of real property, for which they are severally assessed. Those whose names are upon the copy of the Roll, and who are then resident in the Township or Ward, as the case may be, shall be cutited to vote at the election. The holder or occupier of any separate portion of a house, having a distinct communication with a road or street, hy an outer door, and assessed therefor, shall be deemed a householder. No person shall be qualified to be elected as a Township Councillor, unless assessed on the Roll for rateable real property, held in his own right, or that of his wife, as proprietor or tenant, to the value of £100 currency.

NUMBER OF COUNCILLORS.

(§ 23.) Five Councillors shall be elected for each Township.—if by Wards, one for each of the five Wards. They shall hold office until the third Monday in January, of the following year.

MEETING OF THE MUNICIPALITY.

(§ 21.) The first meeting of the Municipality shall be held on the second Monday, next after the election, at a place to be appointed by the Township Clerk, or, in case of there heing no Clerk, by any one of the Councillors elect. Should the meeting not be then held, it shall take place on some subsequent day. The Clerk or Councillor shall netify the members of the Municipality of it. The Councillors, so assembled, shall elect from amongst themselves, a Townreeve, and in Townships which shall have 500 resident Freeholders and Householders on the Collector's Roll, a Deputy Townreeve, for the year.

ADJOURNMENT .- PLACE .- PRESIDING OFFICER.

(§ 25.) Empowers the Municipalities to adjourn their meetings from time to time, at pleasure: and authorises the Townreeve, or in case of his death or absence, the Deputy-Townreeve, at any time, to summon a special meeting. (§ 26.) Requires the meetings to he held at such place in the Township, as the Municipality shall from time to time appoint. (§ 27.) At all meetings the Townreeve shall preside, or in his absence the Deputy-Townreeve when there is one, except only when there shall be no Townreeve or Deputy, in which case, some other member, to be appointed for the purpose, shall preside.

ASSESSORS AND COLLECTORS.

(§ 22.) Requires each Municipality, to appoint three Assessors and one Collector for the Township, who shall severally hold office ustil the third Monday in January following, and until successors are appointed to them respectively. Any vacancy in either office, by death or removal of residence from the Township, to be filled up by the Municipality.

AUDITING ACCOUNTS.

(5.29.) Requires the Municipality, on the report of the Auditors, finally to andit and allow all accounts, chargeable against the Township. They shall also audit and allow the accounts of the Township Treasurer and Collector, except so far as respects any County Rate collected.

BOUNDARIES OF TOWNSHIPS.

(§ 30.) Provides for the permanent establishment of houndaries of Townships, under the authority of the Act 38 Geo. 3, or of any other Act to be passed for that purpose, upon the application of the Municipality of each Township, or as such other Act may direct, and not upon that of the Guarter Sessions.

MAKING BY LAWS.

(§ 31.) Each Township Municipality is empowered to make By Laws for the following purposes, viz. : To purchase necessary property in the Township tor other buildings: to purchase necessary property for Common School purposes, for building Common School Houses, and providing for the establishment and support of Common Schools: to establish public Pounds, and settle the fees to be taken by Pound Keepers: to appoint Pound Keepers, Fence Viewers, Overseers of Highways, Road Surveyors, and such other officers as may be necessary for carrying the laws into effect: to regulate the duties of Township officers, and the penalties for default in their performance: to settle their remuneration when not settled by Act of Parliament, and provide for their payment : to regulate the securities of Township officers-to inflict reasonable penalties for refusing to serve, and for the infringement of By-Laws: 10 construct drains and water courses; also highways-but so as not to encroach on any dwelling, farm, or out-house, or any orchard, garden, yard or pleasure ground, without the consent in writing of the owner: to provide for cutting the timber for a space of twenty-five feet, on each side of any highway passing through a wood, by the proprietor, or failing him by the proper officer of the Municipality,—but not to cut down any Orchard or Shrubbery, or trees planted for ornament or shelter: to protect timber, stone, sand or gravel on the public roads; to regulate driving over bridges: to regulate inns, taverns, and all places for the reception and entertainment of the public, to arrange as to their number, and when no other lawful provision exists for licensing them, to provide therefor at proper rates—the proceeds, when not otherwise appropriated by law, to form part of the public funds appropriated by law, to form part of the public luths of the Townskip; to regulate pits, precipices and deep waters, or other places daugerous to travellers; to grant money to the Municipal Council of the County, or adjoining County, for improving roads, &c., lying between the Township and any other Township or within the Township, assumed as a County work: to grant permission to Joint Stock Companies to proceed with Roads, &c. : to take stock in, or lend money to, such Companies: to restrain and regulate the running at large of horses, cattle, swine and other animals, also poultry, and to provide for impounding them &c.: to tax dogs, to regulate or prevent their running at large, and to destroy them when found at large contrary to law : to destroy or suppress the growth of weeds detrimental to good husbandry: to prevent, restrain, or regulate public Exhibitions of Wild Animals, Puppet Shows, Circusses, &c., &c., to tax them not exceeding £10 for each, and to impose a fine for exhibiting without payment: to appraise the damages to be paid by the owners of horses and other animals trespassing ; to cause animals impounded to le sold, if not claimed within a reasonable time, or the damages, fines, and expenses paid: to settle the height and description of lawful fences: to establish the boundaries of the Township, and provide for the periodical inspection and preservation of the monuments for evidencing them: to empower landholders to compound for Statute labour: to enforce the performance of Statute labour, or payment of commutation: to impose and enforce limitedfines and penalties for breach of Bye-Laws: to horrow moneys necessary for the excution of any Township public work: to raise, levy, collect, and appropriate such moneys as may be required, for all or any of the above purposes, either by way of tolls to be paid on any Township Bridge, Road, or other Township work, to defray the expense of making, repairing, or maintaining the same, or by means of a rate or rates, to be assessed equally on the whole rateable property of such Township, liable to assessment, according to any law which shall be in force in Upper Canada concerning rates and assessments: to make such other lecal regulations, not contrary to law, as the good of the inhabitants of the Township may in their

^{*} See clause at the and of Act.

opinion require: and to repeal, alter, or amend, from time to time, all or any of their By-Laws, and make others in licu of them, as to them may seem expedient, for the good of the inhabitants of the Township.

II. COUNTY MUNICIPALITIES, U.C.

COMPOSITION OF COUNTY COUNCILS.

(§ 32.) Incorporates each County in Upper Canada, with the usual powers, to be exercised in name of the Municipal Council of such County. (§ 33.) The Councils to consist of the Townreeves and Deputy-Townreeves, of the several Townships, Villages, and Towns in each County.

MEETINGS OF COUNTY COUNCILS.

(§ 34.) The Council shall meet at the Shire Hall, if there he one, or otherwise at the County Court House annually, on the fourth Monday in January, or if not then, on some day thereafter. They may adjourn from time to time, to any place within the County, at pleasure, and hold special meetings to be summoned by the County Warden, at the place where the then last meeting was held.

ELECTION OF COUNTY WARDEN.

(§ 35.) At their first meeting in each year, the Council shall choose from amongst themselves a County Warden, who shall preside at all their meetings.

REPAIRING COUNTY BUILDINGS.

(§ 36.) Charges the County Council with keeping and repairing the Shire Hall, Court House, and Gaol, and any House of Correction that may be erected and established by them: the necessary funds for these and all other lawful purposes, to be raised by Rate upon the County.

AS TO IIIOHWAYS, ETC.

(§ 37.) When a Council shall, by a lly-Law, assume any Road or Bridge as a county work, they are required, with as little delay as reasonably may be, at the expense of the county, to cause such road to be planked, graveled, or macadamized, or such Bridge to be built in a good and substantial manner. While such By-law is in force, the powers of the Township Municipalities shall cease, as to the works comprized in it. But the mere laying out of county money, on a road running between different Townships, or the exercise of the other powers conferred on the County Council, with respect to such roads, shall not be regarded as an assumption of them as county works, or render it obliga-tory on the county to plank, gravel, or macadamize them. (§38.) All Roads and Bridges between different Townships, in the same county, shall be exclusively under the control of the County Council. (\$39.) Those in different Counties, or between a County and a City lying within the boundaries of such county, or on the bounds of a Town or Incorporated Village within it, shall be under the control of the Municipal Councils of both such counties, or of such County and City, or Town and Village; and no By-Law to be passed by any of them, with respect to any such Road or Bridge, shall have force, until the passing of a similar By-Law by the others interested.

APPITING ACCOUNTS.

(§ 40.) The Council upon the report of the Auditors, shall finally audit and allow all accounts chargeable against the County: also the accounts of the County Treasurer, and of the Collectors of the several Townships, so far as they relate to county purposes.

MAKING BY-LAWS.

(§ 41.) Empowers the Municipal Council of each county to make By-Laws for the following purposes, viz.:—to purchase accessary property for county purposes: to creet a Shire Hall, Court House, Gaol, House of Correction, House of Industry, and all other accessary buildings: to purchase accessary property for County Grammar School purposes, to erect Grammar School Houses within their respective limits, as the wants of the peeple most require, and to make such provision in aid of such Grammar School, as they may deem expedient for the advancement of education in the same; to provide, permanently, for defraying the expense of attendance at the University of Toronto, Upper Canada College, and Royal Grammar School there, of as many pupils of the public Grammar School sof such county, as shall be desirous of, and, in the opinion of the Masters, competent for, entering into cannectition, for any of the Scholarshipse, Exhibitions,

or other Prizes, but who from want of means, might otherwise be precluded from such competition: otherwise be precluded from such competition: to condow as many Fellowships, Scholarships, Exhibitions, and other Prizes, in the University of Toronto, or in Upper Canada College, and Royal Grammar Schools there, for competition amongst the pupils of the public Grammar Schools of such county, as they shall deem expedient, for the encouragement of learning amongst her youth; to appoint Inspectors of the County House of Industry, and as many officers as may be necessary for carrying the laws into effect resident in its costile the remuneration. laws into effect respecting it; to settle the remuneration of all County Officers, where not settled by Act of Par-liament, and to provide for their payment; to regulate Perries within the county, and establish the rates of terriage-but no by-law for such purpose, shall have force, until assented to by the Governor in Conneil; to settle and pay the remoneration to Townreeves and Deputy-Townreeves, for their attendance at the County Council-but no by-law to be passed for this purpose, after the year 1850, shall be valid, unless expressly limited to take effect, two whole years at least from its passing; to construct such drains and water courses. as in the opinion of the Council, the interests of the inhabitants shall require to be done, at the expense of the county; to construct and repair such roads, lying within one or more townships, or between two or more townships of the county, or between the county and any adjoining county or city, or on the bounds of any town or incorporated village, lying within the boundaries of such county, as in the opinion of the Council the interests of the inhabitants at large, shall require to be done, at the expense of the county; and to enter into and perform agreements, with the other Councils interested, for the execution of such works, at the joint expense and for the joint benefit; and to widen, alter, change, or divert such highways, provided that no enconachment he made upon any dwelling-house, harn, stable, or outhouse, or any orchard, garden, yard or pleasure ground, without the consent in writing of the owner; to protect and preserve any timber, stone, sand or gravel, on county roads; to regulate driving over county bridges; to prevent immoderate riding or drwing of horses or cattle in any of the public highways, whether they be township or county roads; to regulate pits, precipices, and deep waters, or other places dan-gerous to travellers in the immediate neighbourhood of any county road or bridge; to grant moneys, by loan or otherwise, to any town, township, or village in the county, in aid of other moneys raised by the Municipal Corporation of such town, township or village, or by voluntary subscription, for making any new road or bridge, in cases where the County Council shall deem such work of sufficient importance to justify the advance, although they may not feel justified in assuming the same as a county work; to attach new townships, not having a sufficient population, for a separate municipal organization, to such of the older townships of the county, as they shall deem mest convenient, and thus form them into a union of townships for such municipal organization; to regulate the manner of granting licences to Road and Bridge Companies, to proceed with works, within the jurisdiction of the Council: to take stock in, or lend money to such Companies; to impose fines, to a limited amount, for the breach of by-laws; to lorrow money for the execution of any county work ; to raise levy, collect and appropriate such moneys as may be required, for all or any of the purposes aforesaid, either by way of rolls, to be paid on any county bridge, read, or other public work, to defray the expense of making, repairing or maintaining the same, or by means of a rate or rates, to be assessed equally on the whole rateable property of such county liable to assessment, according to any law which shall be in force in Upper Canada, concerning rates and assessment; to repeal, alter, or amend from time to time, all, or any such by-laws, and make others in lieu of them, as to them may seem expedient for the good of the inhabitants of the county. III. POLICE VILLAGES.

HOW SET APART.

(§ 42.) Empowers the County Council upon petition of any number of inhabitants, of any unincorporated village or hamlet in any county, to define by by-law, the limits within which there is a resident youtlation sufficient to apply to it the provisions of this Act, for

the regulation and Police of incorporated villages. Where the village is situnted partly in different comties, the same authority is reposed in the Municipal
Council of each. The place where the first election of
Police Trustees shall be held, the person who shall
preside, and the hour of opening the meeting shall be
fixed by such by-law.

ELECTION OF POLICE TRUSTEES.

(§ 43.) After the lapse of three calendar months, from the passing of such hy-law, the resident freeholders and householders shall, on the second Monday in January, in each year, elect from among themselves, three Police Trustees, for such village, who, or any two of them, shall, by a memorandum in writing under their hands, to be filed with the Township Clerk, appoint one of their number to be the Inspecting Trustee. Should the village be partly situated in different townships, the memorandum to be filed with the Clerk of some one of them.

QUALIFICATION OF VOTERS AND TRUSTEES.*

(§ 44.) Enjoins collectors to deliver at elections, copies of their rolls, duly verified, as far as they relate to each village, in the same way as is provided with respect to township elections, by clause 22: and the qualification of voters as well as Police Trustees is the same as by that clause, is provided with respect to voters at township elections, and also to Township Councillors, except that the qualification of Trustees may be composed of "rateable property," and not necessarily "rateable real property," as in the case of Councillors.

SUBSEQUENT ELECTIONS.

(§ 45.) The Police Trustees to appoint the person to preside at each election after the first, and the hour of commencement, due notice of which, to be put up in at least three of the most public places in the village.

at least three of the most public places in the village. (5.46.) Should the person appointed not be in attendance within one hour after the time, then the resident freeholders and inhabitants of the village, may choose a chairman and elect trustees for the year.

VACANCIES HOW FILLED.

(§ 47.) In cases of vacancy, by death or otherwise, amongst Police Trustees, the remaining Trustee or Trustees, may appoint others, for the remainder of the year, and file a written memorandum of the fact, with the Township Clerk.

PENALTIES.

(§ 43.) Any Inspecting or other Trustee, who shall wilfully neglect or omit to fulfil any of his duties, shall, on conviction, incur a penalty of 20s. (§ 49.) Penalties shall be sued for within ten days after the offence, and not afterwards. (§ 50.) Penalties incurred under the regulations of police, shall be sued for and recovered in a summary manner, and applied to village improvements.

POLICE REGULATIONS.

(§ 51.) The Police Trustees are required to execute and enforce the regulations of Police prescribed by this These relate to proprietors providing ladders for the roofs of their houses, and householders providing buckets, to guard against fires; also, to the regulation of the height of chimneys on bakeries, potteries, breweries, asheries, &c.; to the safe placing of stove pipes in houses; to preventing parties from carelessly entering mills, barns &c., with candles, except in lanterns; from lighting fires in wooden houses, except in chimneys of brick or stone; or carrying fire outside, except in metal vessels; or putting hay or straw into dwellings; or carelessly keeping gunpowder in stores, or selling it at night; or depositing ashes except in secure vessels, or unslacked lime in daugerous situations; or lighting fires in the streets; or creeting charcoal fornaces; or throwing fifth or rubbish into any of the streets or public places, within the limits of such vil-Penalties are imposed for the violation of each and all of these regulations.

IV. INCORPORATED VILLAGES.

VILLAGES NAMED.

(§ 52.) The inhabitants of the following villages, respectively, viz: Chippawa, Galt, Oshawa, Paris, Richmond (in the County of Carleton,) and Thorold, and those of such others in Upper Canada, as shall be reafter be proclaimed under the great seal, shall be

body corporate, apart from the townships in which they shall severally be situated, with the usual powers, to be exercised in name of the municipality of such village.

ELECTION OF VILLAGE COUNCILLORS.

(§ 53.) On the first Monday in January in each year, an election of five Councillors shall take place, for each such village, who shall afterwards elect a Townreve from amongst themselves, as in the case of township nunnicipalities. In villages becaufter to be proclaimed, the first election shall take place on the first Monday in January, after the lapse of three calendar months from the teste of such proclaimation.

RETURNING OFFICERS, AND PLACES OF ELECTION.

(§ 54.) In villages heretofore incorporated, the Clerk of the Board of Police, or Town Clerk, or the Inspecting Trustee, as the case may be, shall be the Reurring Officer for the first election, and at each succeeding election, the then Village Clerk. (§ 55.) In case of there being no Clerk of Police, or Town Clerk, or Inspecting Trustee, or previous Incorporation, the Governor of the Province may appoint a Returning Officer to appoint the place of election, and to give at least ten days previous notice of it, in at least three public places in the village.

QUALIFICATION OF VOTERS AND VILLAGE COUNCILLORS.*

(§ 57.) The Returning Other shall procure a correct copy of the Collector's Roll, duly verified, so far as it exhibits the names of the freeholders and householders, rated within the limits of such village, with the amounts for which they are respectively assessed. No person shall be qualified to be elected as a Village Councillor, who shall not be possessed to his own use, of real estate held by him in fee or freehold, or for a term of 21 years or upwards, of which at least 7 years remain unexpired, situated within such village, of the assessed value of £250, or unless he shall be a tenant from year to year, or for a term of years, of all property within such village, at a bona fide rental of £20 per annum or upwards; or shall be in receipt of £20 or upwards, of yearly rent or profit, accruing from or out of real property therein. And the male inhabitants being either freeholders or householders upon such roll, and resident at the time of the election, and who shall appear in the said roll to have been assessed either as proprietor or tenant, for a house or houses, or for land, or for both, to the value of £12 10s., within the limits of such village, and none other, shall be entitled to vote at such election.

FUTURE VILLAGE INCORPORATIONS.

(\$53.) Provides for the incorporation as villages by proclamation of the Governor, in pursuance of a petition from the Police Trustees, or if there be no such Trustees, then from 100 and upwards of the resident freeholders or householders, of such places as may have acquired a population of over 1000 inhabitants.—(See section 52.)

DUTIES AND LIABILITIES OF VILLAGE MUNICIPALITIES.

(\$ 59.) The municipality of every village shall be similarly formed, and shall have similar powers, duties and liabilities, and the Townreeve and other village officers, shall have like powers, duties and liabilities, within, and in respect of such village, as obtain with respect township municipalities and their officers. The Townreeve of the village shall be a member of the Municipal Council of the county within which it is situated.

BY-LAWS.

(\$ 60.) The village municipality is, moreover, empowered to make by-laws for constructing roads, streets, bridges, wharves, swers, &c., and where necessary and proper, to co-operate with the county municipality, for such purposes; for prevesting the enembering, injuring or foulting such highways, &c.; removing projections or obstructions therefrom, determining their boundaries, granting or lending money to counties in aid of other money to be raised by them, or by voluntary subscriptions, towards making any new road or bridge in such village; regulating markets, preventing forestalling or monopoly; remaining weights and measures, seizing and destroying unwholesone meats, regulating harbours, harbour dues, bencons, wharves, &c.; the assize of bread, preventing the use of delections substances in making it, and seizing any made contary thereto; enforcing the observance of the Sabbath,

^{*} See clause at the end of Act.

Head of Corporation to be sworn before the highest court of law or equity, sitting in the place at the time, or by a Judge in Chambers, failing which, by the Recorder or Police Magistrate, or other Justice of Pence of the place, and failing which, then before the Clerk of the Council, and in their presence. Any Police Trustee, Councillor, Townreeve, Alderman, Mayor, Assessor or Collector, refusing office, or neglecting to take oath or affirmation, within twenty days of his being notified of his election or appointment, and any authorized person refusing to administer the same, when reasonably demanded, shall forfeit, upon conviction, before a competent court, not more No person than £20, nor less than £2, with costs. having served in any office shall be obliged to serve. or be sworn into the same, or any other office the following year. Persons over sixty years of age, members of either house of parliament, officers and others in the service of the Crown either civil or military, on full pav: Judges, Sheriffs, Coroners, Gaolers, and Keepers of Houses of Correction; persons in Priest's orders. Clergymen and Ministers of the Gospel of any denomination; members of the law society of Upper Canada. whether Students or Barristers; Attorneys and Solicitors in actual practice of their professions; officers of Courts of Justice; members of the Medical Profession, whether Physicians or Surgeons; Professors, Masters, Teachers and other members of any University, College or School in Upper Canada, and officers and servants thereof; Millers, and Firemen belonging to any regular fire company, are exempted from being elected or appointed to any corporate office whatsoever No Judge of any court of civil jurisdiction, or Naval or Military efficer on full pay, or person receiving any allowance from the township, county, village, town or city, (except in the capacity of Councillor or in capacities incident thereto); and no person having by himself or partner, any interest or share, in any contract with, or on behalf of the Corporation in which

man or Councilman for the same. No Alderman or Councilman to be appointed Assessor. Assessor to possess the same property qualification as Councillor, and may be appointed for more than one ward of a city or town. Heads of Corporations, Recorders, and Police Magistrates are exempted from the provisions of a former act, relating to the qualification of Justices of the Peace. One or more Coroners may be appointed for each city and town. Police Trustees and members of Corporations to be Health Officers, and these may, by by-law, delegate their powers as such, to others. Existing markets continued, and the property vested in the respective Corporations. Town or city Corporations may purchase property beyond their limits, for industrial farm, which shall then become within their jurisdiction. Mayor and Magistrates may commit to hard labour on such industrial farm. Village, town or city Corporations, may also purchase property for cemeteries; also for powder magazines. Two Auditors shall be appointed by each Municipal Corporation, at their first meeting in each year next after the head shall have been elected and sworn into office, one to be appointed on the nomination of the head of the Corporation and the other in the same manner as other municipal officers, but no member, Clerk or Treasurer, for the past or present year, or any person interested in any contract or employment of such Corporation, shall be appointed Auditor. Auditors to be sworn to exandne all accounts concerning the Corporation, to publish statements of receipts and expenditure in two nearest newspapers, and file report with Clerk; Governor in Council to regulate ferries, not within the control of Corporations. Controverted elections to be tried by writ of summons, from the Court of Queen's Beuch. Should the proper officer be absent at the time appointed for any election, the persons appointed shall, after the lapse of at least one hour after the hour appointed for commencement, appoint a Returning Officer from amongst themselves. Town Clerks are required to furnish parties with copies of hy-laws. &c., on reasonable payment. Court of Queen's Bench authorized to quash any by-law that may be illegal. All existing by-laws of former Corporations to continue in force, until otherwise provided by the respective Corporations under this act, and the validity of any of them may be tried, as if they had been passed under this act; but this shall not be construed to render valid any by-law which would otherwise have been juvalid. Returning Officers to be conservators of the peace during elections, and constables and others present are required to assist them. Parties refusing to be sworn in as special constables to be fined. Elections to commence at 11 a.m., and may be held until 4 p.m. of the same day; and may then be adjourned till 10 a.m. of the following day, and continued until 4 p.m. thereof, unless all intending voters have had a fair opportunity of being polled, and an hour has elapsed without a qualified voter having tendered his vote, in which case, the election may be closed at 4 p.m. of the first day, or at any time before that hour on the second day. Returning Officer to keep a poll book; he shall not vote, but in case of equality between two candidates, he shall give a casting vote. He shall return the poll book, duly attested, to the clerk of the municipality. Should the person elected refuse to act, a warrant shall issue for a new election, from the head of the Corporation. Vacancies occurring in Municipal Council, by death or otherwise, to be filled up by a new election. All such special elections shall be held upon at least four days special elections shall be held upon at least four days public notice by the Returning Officer, posted in at least four of the most public places in the township, village or ward. Should it so happen that in any year, there shall be no election held in any township, village. town or ward, on the appointed day, or that a requisite number of candidates shall not have been elected, or that there shall not be in the poll book the names of sufficient number of candidates to supply any defi-ciency, arising from refusal of office, &c., then the members of the Municipal Corporation in which the default shall occur, or if none be elected, then the members of such Municipal Corporation, for the next preceding year, shall supply the deficiency, from amongst the qualified freeholders and householders, who shall be bound to accept, under a like penalty, as if elected. Vacancies in the office of Warden, Mayor, or Townreeve, by death or removal of residence, to be filled up

office until their successors are elected or appointed, and sworn into office, and the new Corporation completed. A majority of the whole of any Municipal Corporation to be a quorum for the transaction of business; and in absence of the presiding officer, a temporary chairman shall be appointed. All questions shall be decided by the majority of votes present, other than the person presiding, who, in case of equality, shall have a casting vote. Each Corporation shall appoint a Clerk, also a Treasurer, except in cities, where a Cham-barlain shall be appointed. They shall give security. These officers, as well as all others, with regard to whose period of service no other provision is made, shall hold their offices until removed by the Corporation for the time being. The books, papers, moneys and securities of the present District Treasurers, and those in the possession of any person or officer employed by any Corporation, by virtue of his office, shall be deemed chattles belonging to such Corporation. Any officer embezzling, or refusing to deliver the same to the proper parties, to be indicted and punished, and to be further liable to prosecution for recovery, against himself and sureties. Corporations created under this Act, to be substituted for those previously existing; and suits commenced by former to be continued by new Corporations, and vice versa. Corporations to take charge of debts due by localities, under their jurisdiction, and provide for their payment. A sufficient sum to be levied by assessment, every year, for payment of all debts incurred, and interest. By laws creating or authorizing any debt or loan, not to he valid unless sufficient provision he therein made, for levying moneys for the payment thereof, within twenty years; such by-laws not to be subject to repeal, until the whole debt and interest are fully discharged. Any temporary sum of such assessment, at any time on hand, to be invested in government securities, until it can be applied towards the payment of the particular debt, for which it may have been raised. Any by-law, by which it shall be attempted to diminish the assessment, for the payment of any such loan and interest, before they are fully paid, to be void. Any officer neglecting or refus-to carry into effect a by-law for levying the necessary moneys, to redeem such debt, shall be punishable by fine and imprisonment, Sheriffs are empowered to levy under execution, against Corporations, by rate upon the inhabitants. Each Corporation, to submit an account of debts annually, to the Governor. The Governor in Council, upon the petition of one-third of the members of any Corporation, on sufficient cause shown, may appoint commissions to investigate the affairs of such Corporation. The expense to be provided for by the Corporation. As to debts due by Municipal Corporations, prior to 1st January 1849, a by-law may be passed, with the approval of the Governor in Council, within one year from 1st January, 1850, providing for their liquidation, whereupon, none of the provisions of this Act, granting increased facilities for the recovery of debts, shall be applicable to such debts, until after default, under the by-law so passed and approved. As regards notes or debentures heretofore issued, to pass as money, and still in circulation, Corporations may provide some mode for their gradual extinction, by redeeming a certain amount yearly, and issuing others in the place of those unredeemed, when the holders are willing to receive them in exchange. This is not to imling to receive them in exchange. This pair the present remedies of creditors. Corporations are not to act as Bankers, or to issue bonds or notes to pass as money, or to give honds in payment of debts for a less amount than £25 each; and should any such he issued, they shall be void; but this is not to affect the permission granted by the provisions immediately preceding. Any person issuing bonds or notes, contrary to the above provision, or tendering such in payment, to be gullty of a misdemeanor. Parties offending against by-laws of Corporation, punishable summarily before a Justice of Peace, in all cases, where no special provision is made by this Act. Township or County Corporations not to stop up any original allowance for roads. When any other road, not an original allow-ance, is altered, the Corporation may sell the old site, the first offer to be made to the party next whose land it runs. Parties in possession of any concession or side line, who may have laid out streets, in any city, town or consistent with this act are repealed.

as often as they occur, by the Council choosing a quali-fied person from amongst themselves. Corporations in office, on the day of general annual election, to held feet, or he less than 40 feet in breadth. This is not to feet, or he less than 40 feet in breadth. This is not to affect roads already established, or others that may be substituted for them. Powers of Justices in Quarter Sessions, with respect to highways, vested in County Corporations. Any Corporation may authorize persons to make roads, &c., and when completed, grant them the tolls for ten years. Corporation not to stop any road, short of one month's notice; nor shall they in any way interfere with the provincial roads, which are subject to the orders of the Governor in which are subject to the orders of the Governor in Council; or with the alignment &c., of roads laid out by the Ordnance, or run roads through Ordnance property, except by consent. In case of roads passing through private property, the damages to be ascertained by arbitration, and paid to the party by the Corporation. Remedy at law given to such party, in case of Corporation failing to appoint arbitrator. &c. In estimating damages, length to be desirated. trator, &c. In estimating damages, benefit to be derived from the road, to be taken into account. Corporations of cities or towns, using county gads, &c., to pay the Corporations of counties therefor—the amount to be settled by arbitration, in case of disagreement. Governor to appoint arbitrators in default of Corporations, and after five years, may, upon the application of either Corporation, on reasonable grounds, order a new agreement to be made. Existing agreements, when this act comes in force, to continue. All Corporations existing immediately previous to 1st January, 1850, their members, officers and servants, shall continue until the fourth Monday of the same month, notwithstanding this Act.

> OLD QUALIFICATION OF VOTERS AND COUNCILLORS CON-TINUED AT PRESENT.

> (§ 208.) That no provision in the foregoing enactments of this Act which requires that any person be possessed of any property qualification, or be assessed for any particular amount, in order to his having a right to vote, or to be elected at any election to be held under the authority of this act, shall have any force or effect, unless or until some Act be passed by the parliament of this province in the present or some future session thereof, to provide for the regulation of assessments, and the levying and collecting of local taxes in Upper Canada, and to repeal the general provisions of the acts heretofore in force for that purpose, but all such per sous as have heretofore had the right to vote or to be elected at the annual elections of parish and township officers, for the several Towships in Upper Canada, shall have the right of voting and being elected for the Township and Village Councillors to be elected under this act, and such persons as have heretofore had a right to vote or be elected at the municipal elections of any city, town or village heretofore incorporated, or, having a Board of Police established by law for the same shall have the right of voting and being elected for the city, town or village, aldermen and councillors to be elected under this act for such city, town or village respectively; and the persons entitled to vote or be elected at the municipal elections of every town and village not incorporated as aforcsaid, before the passing of this act, shall be the resident male inhabitants, being either householders or freeholders of such town or vilage, of the age of twenty-one years or upwards, being subjects of Her Majesty by birth or naturalization, and who shall have resided in such town or village for six calendar months next previous to the holding of the said election, and who shall have been rated on the as-sessment roll of the said town or village as householders or freeholders for the year previous to such elec-Provided also, that where the system of the tion. registration of votes exists at the passing of this act in any city or town, the same shall continue under the act or acts providing such registration, until altered by any act as aforesaid: and provided also, that whether any such new act for regulating assessments in Upper Canada, shall or shall not be passed prior to this act coming into force, the persons hereinbefore described as entitled to elect, and be elected under this act (until such new assessment law shall have passed as aforcsaid) shall be those entitled to elect and be elected respectively, at the first elections to be held under this act.

All acts, and parts of acts and provisions of law in-

County Divisions, U. C.

By an Act passed in 1849, known as the "County Division Substitution Act," and by another Act then passed, to divide the District of Huron, the old territorial division of Upper Canada, into Districts, is abolished, and that of Counties substituted, for judicial, municipal, and all other purposes. They provide for temporary unions of certain counties, for all purposes, except Representation in Parliament, and the Registration of Titles; and they also provide for the future disso. lution of such Unions as the increase of wealth and population, may from time to time require. These Acts come into operation on 1st January, 1850.

COUNTY COURTS, &C.

§ 3. The Courts, Court-Houses, and Gaols, Grammar Schools, and all offices and officers, heretofore appertaining to Districts, shall henceforward be denominated as appertaining to the several Counties; and all laws applicable to Districts, shall in future apply to Counties.

WHERE HELD.

§ 4. The Courts of Assize, and Nisi Prius, and Oyer and Terminer, Gaol Delivery, Sessions of the Peace, and District Courts, shall henceforth be held in and for the Counties, as they have been heretofore held for the several Districts, and the name "County" shall be used in designating them, and also in all legal proceed-ings, where "District" was formerly used.

UNIONS OF COUNTIES.

- § 5. For Judicial, Municipal, and all other purposes, except representation in the Provincial Parliament, and Registration of Titles, the following Counties are formed into Unious, under the name of the United Counties of-
 - 1. Essex and Kent.
 - 2. Frontenac, Lenox and Addington.
 3. Lanark and Renfrew.

 - 4. Leeds and Grenville.
 - 5. Lincoln, Haldimand and Welland.
 - 6. Northumberland and Durham.
 - Prescott and Russell.
 - Stormont, Dundas and Glengary.
- 9. Wentworth and Halton.

10. Huron, Perth and Bruce.

These Counties, so long as they shall continue united, shall have all Courts, Offices and Institutions, formerly pertaining to Districts, in common between them, with the exception of Representation and Registration.

HALDIMAND COUNTY.

There are, moreover, these further temporary exceptions to be noted, viz.—(§. 25 and 26.) that for judicial purposes only, the Townships of Oneida and Sencea, in the County of Haldimand, shall remain attached to. and form part of the County of Wentworth; and the Townships of Rainham and Walpole, in the County of Haldimand, shall remain attached to, and form part of the County of Norfolk, so long as the County of Haldi-mand shall remain united to the County of Lincoln, and no longer.

PERTH AND WATERLOO.

In the general act the township of Mornington is set down as part of Waterloo County, and in the act to divide Huron, it is set down as part of the county of Perth. It is difficult to determine to which of them it shall in the meantime belong.

COUNTY PROPERTY.

§ 6. The county property of such united counties, while the union lasts, shall be the common property of such union.

THE VENUE.

§ 7. In judicial proceedings, with respect to united counties, the venue shall be laid in the particular county to which it shall specially apply, describing it as one of the united counties of and . (inserting them); and for the trial of the cause, the jury shall be summoned from the body of the united counties, as if the same were one county.

LAWS APPLICABLE TO UNIONS.

§ 8. All laws applicable to Districts or Counties, shall apply to every union of counties, as if such union formed but one county, except as regards representation and registration.

SENIOR AND JUNIOR COUNTIES.

§ 9. In all unions, the county within the limits of which, the Court-House and Gaol are situated, shall be deemed the senior county, and the other county or counties, the junior county or counties of such union.

MODE OF SEPARATION.

& 10. So soon as it shall appear by the census, that any junior county contains a population of 15,000 souls, the Governor, by an order in Council, upon the petition of two-thirds of the townreeves, for the time being, of such junior county, if he shall deem the circumstances such, as to call for a separate establishment of Courts, and other County Institutions, may issue a proclamation setting forth the same, naming a place for a County Town, within such junior county, and erecting the Townreeves thereof into a provisional Municipal Council therefor, until the dissolution of such union of counties. It is expressly provided, that no such petition shall be presented or acted upon, unless adopted and signed, by such two-thirds, in the mouth of Febtuary after their election or appointment, nor until a resolution declaratory of the expediency of presenting such petition, shall have been adopted by a majority of such Townreeves, for the time being, present at two several meetings, to be called by a like majority, for that purpose, the one to be held in February, in the year next but one preceding that in which such petition shall have been so adopted and signed, and the other in February in the year next preceding such last mentioned year. Also, that every such provisional Muni-cipal Council, shall, from time to time, and at all times during its continuance as such, consist of the Townreeves for the several townships, villages and towns in such junior county.

KENT, HALDIMAND, WELLAND AND PERTH.

The county of Kent being already provided, by a former act of the Legislature, to be set apart as a separate District, and the public buildings therein being in the course of erection, at Chatham, the County Town, it does not therefore come within the operation of the foregoing clause; and by a subsequent provision of this Act, (See Sec. 30 and 31), the Townreeves of this county form a Provisional Council, for the performance of the necessary duties, preparatory to the separation of Kent from Essex. Special provision is also made in this Act. (See Sec. Special provision is also made in this Act,—(See Sec. 33 and 34), exempting the counties of Haldimand and Welland, from the operation of the foregoing clause. The Townreeves of these counties respectively, are constituted a provisional Municipal Council, for each such county, with authority to proceed at once to determine the place for the county town, in their respective counties, to purchase the necessary property there, and to erect the necessary public buildings, preparatory to a separation of the united counties of Lincoln, Haldinand and Welland.

The county of Perth is also specially exempted, by the Huron Division Act, from the operation of the fore-going clause. Stratford is declared the County Town, and the Townreeves of the several townships, &c., are at once constituted a Provisional Council, for the county of Perth, to exercise all the powers vested in them by law, until the dissolution of the union of Perth with Huron and Bruce.

ERECTING GAOL AND COURT-HOUSE.

§ 11. Provisional Councils may purchase property, and raise money by assessment, for the erection of Court-Houses and Gaols, and for remunerating Provisional Officers. This shall in no way interfere with the powers of the Municipal Council of the union, but all monies to be raised by the Provisional Council, shall be independent of, and in addition to, any monies that may be directed to be raised, by the Municipal Council of such union.

PROVISIONAL OFFICERS.

& 12. Provisional Council may appoint provisional Warden, Treasurer, and such other provisional officers as they may deem necessary, for performing the requisite duties.

CORPORATE POWERS.

§ 13. Provisional Council to be a Corporation, for the sole purpose only, of carrying into effect the objects of their erection.

LEVYING MONIES.

§ 14. All monies to be levied by any By-law of the Provisional Council, shall be assessed, levied and collected, by the same persons, and in the same manner, as is done by the Municipal Council of the union to which the junior county shall belong, and shall be paid over by the Collector to the Provisional Treasurer. The Collector to deduct for his trouble and responsibility, 2½ per cent, on the sum paid.

MISCELLANEOUS.

The succeeding clauses provide among other things for the apportionment of the debt of the united counties, when a separation takes place; and for the appointment of Sheriff. Judge, and other officers, for the junior county, when set apart &c. When an union is dissolved the public property lying within the limits of the respective counties, shall belong to the particular county within which it is situated.

COUNTIES AND UNIONS OF COUNTIES.

Counties and unions of counties in Upper Canada, to which judicial and other proceedings of the late Districts are transferred respectively under this Act, and under the Act to divide the county of Ihron, specifying the several Counties and Unions of Counties, in the order in which they succeed to the late Districts, respectively; shewing also, the County Towns of the several Counties and Unions of Counties, and the Population, according to the Census of 1848:—

Road Companies, &c.

In Upper Canada, several roads and other works have been constructed by Joint Stock Companies, specially incorporated for the purpose. The advantage of the system was proved by experience, but the delay and expense incident to obtaining a special Act of Incorporation from the Legislature, for each separate Company, operated as a great discouragement to persons desirous of embarking capital in such undertakings. It was therefore deemed "expedient to encourage the construction of sawed, hewed or splitplank, Macadamized or gravelled roads, and also bridges, piers, wharves, slides and dams connected therewith, in Upper Canada, by Companies who may be disposed to subscribe the necessary capital for the completion thereof;" and, therefore, in 1849, an Act was passed by the Legislature, (which was introduced by the Hon. II. J. Boulton, M. P. P. for Norfolk,) to authorise the formation of Joint Stock Companies for these purposes. The mode of procedure, as laid down in the Act, is easy and convenient, as the following synopsis will show:-

HOW TO FORM COMPANY.

Any number of persons, not less than five, may form themselves into a Company. When they shall subscribe stock adequate, in their judgment, to the construction of the work to be undertaken by them, and execute an

instrument of the following tenor, and pay to their Treasurer six per cent. on their stock, and register the instrument and a receipt from the Treasurer for the instalment of six per cent. instalment of six per cent. paid, with the Register of the County, they shall thenceforth become a Chartered and Incorporated Company, with the usual privileges.

THE INSTRUMENT

The following is a copy of the requisite instrument:-Be it remembered, that on this —— day of ——, in the year of our Lord one thousand eight hundred and _____, we, the undersigned Stockholders, met at _____, in the County of _____, in the Province of Canada, and resolved to form ourselves into a Company, to be called (here insert the Corporate name intended to be taken by the Company.) according to the provisions of a certain Act of the Parliament of this Province, intituled, "An Act to authorize the for-mation of Joint Stock Companies for the construc-tion of roads and other works in Upper Canada," for the purpose of constructing a Plank Road for the purpose of constituting a Flank Road (or Macadamized or Gravelled Road, or both, as the case may be.) from (the commencement of the intended road) to (the termination thereof), or a Bridge, Blide, Wharf, Pier, (or other such work as oforesaid, describing the nature, extent and situation thereof.) and we do hereby declare that the Capital Stock of the said Company shall be ---- pounds, to be divided into -

shares, at the price or sum of five pounds each; and we, the undersigned Stockholders, do hereby agree to take and accept the number of shares set by us opposite to our respective signatures, and we do hereby agree to pay the calls thereon, according to the provisions of the sald in part recited Act, and of the Rules. Regula-tions, Resolutions and By-laws of the said Company, to be made or passed in that behalf; and we do hereby nominate (the names to be here inserted) to be the first Directors of the said Company.

Name.	No. of Shares.	Amount.

OPPOSITION TO COMPANY.

Any twelve freeholders, resident within a mile of any line of road proposed to be made, may oppose its construction, by giving notice to the President or Chairman of any Company, or meeting convened to form such Company, of their intended opposition to the work; and no further action shall be had towards its prosecution, until after the next sitting of the Municipal Council of the locality; provided such notice shall be given before the work is commenced. The Municipal Council is empowered to hear and decide upon such opposition, by probibiting, varying or altering the intended line of road. The Municipality is also empowered, when any new road shall be opened, or the line of an old road changed, to direct or permit the old road to be closed up, and embraced within the enclosure of the party from whom the ground shall have been taken for the new road; provided it shall not exclude any person residing in or near the old road from a convenient access to the new one.

MANAGEMENT OF COMPANY,

The affairs of each Company shall be managed by five Directors, to be annually chosen by the Stockholders, each Stockholder having a vote for each share he holds,-the share to be five pounds. A majority of Directors to be a quorum for the transaction of business. One of their number to be elected President. They shall appoint officers and servants, at their discretion, for performing necessary duties.

MAY INCREASE CAPITAL.

Should the Directors be of opinion, at any time after the formation of the Company, that the original capital will not be sufficient to complete the work, they may borrow a sufficient sum, upon the security of the Company, or they may increase the number of shares in the Company, to make up the deficiency. The Municipal body of the locality may lend money to such Companies.

RESTRICTIONS ON COMPANIES.

The length of road to be undertaken by any Company must not be less than two miles; and no road shall be made of a higher grade than one foot elevation to twenty feet along the road, without the sanction of the Chief Engineer superintending public works in the neighbor-Companies are prevented from bringing roads through private property, or property of the Crown, without permission, except as provided by the Act. They are also restrained from going within the limits of any city, or incorporated town or village, except by permission of the authorities; and a special prohibition is enacted against the formation of any Company to interfere with Companies already chartered; provided the stock is subscribed by such Companies, and the work is in course of being completed hy them, within a year from the passing of this Act. As regards private property, the owner shall supersede a Company, should be commence the work within a year, and complete it within two years, from the time year, and complete it within two years, from the time he shall be notified, that a Company has been formed for constructing it on his property. The sanction of the Governor in Council is required to permit the appro-priation of Crown property to the purposes of any Company. No road or other work shall be made through any pleasure ground, garden, yard, or orchard, or ma-terials taken therefrom, nor shall any timber be taken from any enclosed lands, without the consent of the owner.

PRIVILEGES OF COMPANIES-ARBITRATION.

Companies are empowered to explore, and take lands and materials for their undertakings, making compensation to the owners. In case of difference as to the value, or the sum to be paid, arbitrators are to decide the matter. The Company is to name one, the owner of the property a second, and these two are to choose a third. Should the proprietor neglect to appoint an arbitrator, for twenty days after being notified by the Company, or should the two arbitrators not agree upon a third, within twenty days after the appointment of the second, then the Judge of the District Court, on the application of either party, shall nominate one of the Councillors, of one of the Townships next adjacent, to be the second or third arbitrator. Should the proprietor be absent, or unknown, or the title in dispute, or the lands mortgaged, &c., the District Judge is to appoint an arbitrator. In the case of lands belonging to the Indians, the chief officer of the Indian Department is to appoint an arbitrator, and otherwise act for them. The arbitrators, in computing damages, are to pay due attention to the benefits to accrue to the party requiring compensation, by the construction of the contemplated improvement. Eight days' notice of meeting must at least be given by the arbitrators. The encering must at least be given by the arbitrators. The concurrence of a majority of them in the award is sufficient. The award shall be final, and it must specify the sum to be paid, and the costs, and on whom the costs shall fall, according to this rule:-Should the Company, before the appointment of their arbitrator, have tendered an equal or greater sum than that awarded by the arbitrators, the costs shall then fall on the owner of the property; and otherwise on the Company. The award must be registered.

TOLLS.

The Act authorises the levying of tolls, at the discretion of the President and Directors, from all persons passing and repassing with borses, carts, carriages and other vehicles, and for cattle driven upon, over and along any road, or from all persons passing over any bridge, with or without any carriages or animals, or using any work constructed, made, and used by any Company, under and by virtue of the provisions of the Act. So soon as two or more miles of a road shall be completed, tolls may be taken therefor; but on no other work shall tolls be taken, until the same shall be completed. The tolls to be levied, for each time of passing, must not exceed an aggregate sum, calculated at the rate of 13d. per mile, from the gate required to be passed, to the last gate in the direction whence the person may have come, for any vehicle drawn by two horses or other cattle; and for any vehicle drawn by more than two cattle. 2d. per mile for every additional one; for every vehicle drawn by one horse, Id. per mile; for every score of sheep, or swine, or neat cattle, dd. per mile; for every horse and rider, or led horse, dd. per mile. No toll shall be exacted for merely crossing a road. Persons going to, or attending, or returning from funerals, or Divine service on the Lord's day, are not to be charged toll.

REPORT YEARLY TO THE MUNICIPALITY.

The Directors of the Company are required to report. in the month of January in each year, to the Muni-cipality, under the oath of their Treasurer, the cost of the work, the amount of all money expended, the amount of their capital stock, and how much paid in; the whole amount of tolls expended on such work, the amount received during the year for tolls, and from all other sources, stating each separately; the amount of dividends paid, and the amount expended for repairs, and the amount of debts expended by such Company, specifying the objects for which such debts respectively were incurred. Every Company must keep regular Books, to he at all times open to the inspection and examination of those who may be appointed for that purpose by the Municipality.

TO COMPLETE WORK IN TWO YEARS.

Companies formed under this Act shall be bound to complete every road, not more than five miles in length, and any other work undertaken by them, for the completion of which they shall have become incorporated, within two years from the date of their incorporation, in default of which they shall forfeit all their corporate and other powers and authority, which shall thence-forth cease and determine, unless further time be granted by a By-law of the Municipality.

MUNICIPALITIES MAY HOLD STOCK.

Municipalities may acquire stock in Companies formed under this Act, within their jurisdiction. They may also, after twenty-one years from the time of the completion of any road or other work, purchase the stock of the Companies, for the benefit of the locality.

MISCELLANEOUS.

The Act contains provisions for enforcing payment of instalments of stock, by suing, or by demand, under penalty of forfeiture, within ninery days after a personal application, or notice for six successive weeks in the nearest newspaper. Also, for investing the works and materials in Companies and their successors: for the erection of toll gates: for imposing penalties on persons injuring roads, &c.; and on persons turning out of road to evade toll, or assisting others to evade tolls: and for compelling Companies to keep the roads in proper repair, under pain of forfeiture, &c. The Legislature, moreover, reserves the right to make such additions or alterations to the Act as they may think proper, for affording just protection to the public or to individuals, in respect to property that may be affected by any of the powers given by the Act to any Company.

RECOMMENDATION TO FARMERS.

The advantages conferred by the Act are very obvious. We shall merely direct the attention of the inhabitants of the rural districts to the privileges it confers on them, by enabling them to form themselves into Companies, of not less than five persons in each, for the construction of roads in the vicinity of their residences, where they can not only perform the principal part of the work themselves, but also supply materials from their lands, which will be repaid them in stock and tolls. Stock in these Companies will form an excellent Savings Bank for the farmers to invest their spare money in. The sums so invested will confer upon them great benefits, by their being employed in the improvement of the roads in the vicinity of their residences, and hy producing a yearly return, in the shape of a handsome dividend arising from the tolls. This is surely far preferable to the money being allowed to lie idle and unproductive in the farmers' trunks. It will be observed that the Act is not confined to the improvement of the ordinary public highways, but that it contemplates the opening of new roads, wherever necessary, irrespective of the roads usually laid out by the authority of Government, and which are known as concessions, side lines, town lines, &c. The necessity for such new roads, in any direction, is to be decided by the inhabitants of the locality.

Inspection of Butter in Quebec and Montreal.

Dairy husbandry must increase with the growth of the country, and embrace no inconsiderable part of the profitable labor of the farm in Carada. A ready market for the produce of the dairy will have its effect in encouraging the extension of that branch of rural industry and economy; and proper care must be taken in the preparation of the article, so as to render it worthy the attention of dealers, for exportation as well as for local consumption. We shall therefore turnish a brief sketch of the requirements of the existing law, "To regulate the packing of Butter, and to provide for the inspection of the same at the Ports of Quebec and Montreal, such inspection being nevertheless optional with the parties interested." The Act from which we quote was passed by the Provincial Legislature in 1848, and it shall remain in force until 1st May, 1850, and thence until the end of the then next session of Parliament. The probability is that it will be then renewed. It provides for the appointment of sworn Inspectors of Butter, at Quebec and Montreal. It also establishes regulations for branding and packing, and prescribes the descriptions of casks to be used, as well as the mode of inspection, &c. The following are the clauses of the Act regulating these important points:

VI. And be it enacted, That upon, from, and after the first day of September, one thousand eight hundred and forty-eight, no Inspector of Butter shall brand, mark or certify any Butter as inspected, unless it be packed in the manner hereinafter required; but that upon, from, and after the said day, any Butter not so packed, whilch shall be submitted for inspection, shall, by the Inspector to whom it shall be submitted, be

repacked in the manuer hereby required, and the Inspector shall receive the actual cost of such new packages as may be required for such repacking, and the further sum of three pence for each firkin or keg of Butter so repacked, as compensation for his time and labor; and all Butter branded, marked or certified as inspected, shall be packed in firking or kegs, made of the best seasoned white ash timber, and each bound with at least twelve wooden hoops, and being of the following sizes and dimensions, that is to say: the firkin to contain as nearly as possible fifty-six pounds of Butter, the length of the staves from croe to croe, to be fourteen inches and a half, the diameter of the head to be eleven inches and a half, the thickness of the staves to be, as nearly as may be, three-quarters of an inch, and the thickness of the head, as near as may be, half an inch, the package to weigh as nearly as possible, but in no case to exceed ten pounds when dry; the keg to contain, as nearly as possible, eighty-four pounds of Butter, the length of the stave, from croe to croe, to be seventeen inches, the diameter of the head to be thirteen inches, the thickness of the staves to be, as nearly as may be, three-quarters of an inch, and of the head, as nearly as may be, half an inch, and the package to weigh, as nearly as possible, but in no case to exceed thirteen pounds when dry; and the weight of each package shall be branded on the outside of the firkin or keg, at the centre of the stave or bilge, with the name of the maker thereof, under a penalty of five shillings currency per package, upon any cooper who shall contravene the requirements of this Act, as aforesaid: Provided always, that nothing herein contained shall apply to any packages other than those containing Butter submitted for inspection.

VII. And be it enacted, That in inspecting Butter, the Inspector shall take out the head of each firkin or keg, and shall pass the taster through the Butter, from end to end, and shall empty out and throw aside all salt or pickle which, in his judgment, shall not be necessary to the preservation of the Butter, and after he shall have ascertained the quality of the Butter, he shall replace so much thereof as he may have taken out, and if there shall in his judgment he a deficiency of loose salt, so that he shall think the preservation and condition of the Butter would be promoted by an additional quantity of salt, he shall add such quantity: he shall then have the package securely headed and coopered, and shall scribe or brand on the head of the package the gross weight thereof in pounds avoirdupoise, excluding fractional parts of a pound, and the tare which shall include one pound weight for each firkin, and two pounds weight for each keg, for soakage over and above the cooper's tare; and he shall then brand on the head his own name, the month, year and place of inspection, and the quality of the Britier as "First," "Second," "Third" or "Fourth," or as "Grease," according to the quality of the Butter, and adopting the standard of quality and system of classification in use in that portion of the United Kingdom called Ireland; first, removing all such marks (the distinguishing mark of the owner of the Butter excepted) on the package as may interfere with the brands or

VIII. And be it enacted, That it shall be further the duty of each of the said Inspectors to provide himself with suitable and convenient premises for the storage and inspection of Butter, and to keep all packages of Butter delivered to him for inspection, while they remain in his possession, in some place safe from the injuries of the weather or of floods, and under a tight roof; and any Inspector contravening this provision, shall forfeit and pay to the owner the sum of five shillings, currency, for every package not stored as aforesaid, besides the actual damages that may be sustained by such owner.

IX. And be it enacted. That for all the services to be performed as aforesaid, including unheading, weighing, salting, heading, tightening hoops, marking and branding, and ten days' storage, each Inspector shall be entitled to receive six pence, currency, of this Province, for every package of Butter by him inspected as aforesaid—and if reinspected, four pence, together with the actual cost or charge of any package by him furnished, or for extra cooperage or repairs done to packages containing Butter by him inspected, and no more: the charge for which said extra cooperage and repairs shall not in any case exceed three pence per

marks of the Inspector.

package; and in consideration of which all packages! shall be delivered in good shipping order, and such charges shall be paid by the person or persons offering such Butter for inspection, or his or their Agents; and each Inspector shall further be entitled to receive one penny half-penny currency, per month, per firkin, and one penny per keg, per month, for the storage of each package of Butter, which shall remain stored with him as aforesaid more than ten days after the date of the Invoice, Weigh-Note or Inspection Bill, and such storage shall be paid by the person or persons receiving or shipping the said Butter, his or their Agent; but in no case shall any storage be paid or required when the Butter shall not have remained stored as aforesaid during ten days from the date of the Inspection Bill; and all the charges of inspection and storage shall be and all the charges of inspection and storage shall be payable before the Butter shall be re-delivered by the Inspector; and the Inspector shall furnish a Bill of Inspection signed by him, and specifying neadly and legibly the quantity and quality of the Butter, the charges thereon, and the owner's name.

XV. And be it enacted. That if any person or persons

shall counterfeit any of the aforesaid marks or brands of any Inspector of Butter, or shall impress or brand the same knowing the same to be counterfeit, on any package or packages of Butter, or any other mark or marks purporting to be the mark or marks of the Inspector or of any Manufacturer of Butter, either with the proper marking tools of such Inspector or Manufacturer, or with counterfeit representations thereof, or shall empty any package or packages of Butter marked or branded as aforesaid by an Inspector or Manufac-turer in order to put therein other Butter for sale or exportation, without first cutting out the said brandmarks, or shall fraudulently pack therein any other substance than the Butter packed in the same by the Inspector or Manufacturer, and if any person in the employ of any Inspector or Manufacturer of Butter, shall hire or loan out the marks of his employer to any person whatsoever, or shall connive at or be privy to any fraudulent evasion of the provisions of this Act, such person or persons shall for every such offence. incur a penalty of fifty pounds, current money of this Province.

Preserving Butter in Switzerland.

"The pastoral life of the Swiss peasantry forces itself strongly on the attention of the Alpine traveller, from the numerous herds of cattle which he meets with on every pasturage in the mountains, and from the frequent Dairy-Chalets or Senabutte, with their plentiful produce, which greet him in the loneliest spots. great staples of Swiss pastoral wealth are cows and the produce of the dairy. Sheep are comparatively rare; and even goats are seen in a proportion very in-ferior to that of cows.

" Although some of the great mountain dairies and herds that supply them, are the property of one or more individuals, by far the most common source of such establishments, is the union of smaller properties of any particular hamlet or parish into one, with the view of economising labour; a large portion of the Alps or mountain pasturages being common lands appertaining to the commune or parish. One or more cowherds is appointed and paid in common; and the dairy staff, proportioned to the extent of the flock, is constituted in like manner. All the milk is kept in common, as well as the butter and cheese produced from it; the apportioning of their share to the individual proprietors, being regulated by the award of the inspectors appointed by the body of proprietors or by the commune .-These inspectors attend the milkings occasionally, so as to ascertain the exact average produce of each dividual cow; and a division of the butter, proportioned to the number of cows and their respective amount of milk, is made at the end of the season.

of milk, is made at the end of the season.

"It is a singular fact, and one I could not bring myself to believe, until I had it confirmed to me by repeated testimony, that the whole of the butter produced in one of these Alpine pastures, is preserved sweet, or least, perfectly fit for use, through the whole season, without any admixture of salt. The following is the way in which it is treated:—A narrow deal board, not more than four or five inches wide, is fixed horizontally in an open place in the dairy of the chalet; wooden pins, from two three feet in length, are fixed in an upright

position into this, their whole length projecting above its surface. As the butter is made it is placed daily round these pins (one at a time), beginning at their lower end, and in a mass not exceeding at first the width of the board. Every day as more butter is made it is added to the previous portion around the pin, the diameter of the growing mass being gradually enlarged upwards, until the upper surface overhangs the base to a considerable extent, like an inverted bee-hive. one pin is filled, another is proceeded with in like manner, and so on. The exposed surface of these masses gets soon covered with a sort of hard film, which effectually excludes the access of the air; and this circumstance with two others, viz., the complete expression of milk from the butter, and the unobstructed circulation of a cool mountain air through the chalet-will go far to explain how the butter so treated can remain so long without being spoiled.

"I should like this experiment to be tried in some of our English dairies. The Swiss manipulators had no doubt of the trial succeeding, provided all the abovementioned requisites of complete expression of the milk, a low temperature, and a free circulation of air

were obtained.

"It is very probable, that if the butter thus preserved, from June or July to October, were then made use of as the supply of the daily breakfast, it might not be found exactly good, according to our acceptation of the term, as applied to so delicate an article of diet; yet there can be no doubt that butter so treated is preserved from all putrescency; and it is from it that the whole winter store of the inhabitants of Switzerland is obtained.

"The mode of preparing this winter store of butter seems to me much more important; and I will here describe it in detail, as I believe it is little known in England, and ought to be more so. I refer to what is England, and ought to be more so. called in the Vallais and in Piedmont boiled butter (beurre cuit), the form in which this article of diet is universally used, at least for all purposes of cookery.

"In looking at the horrid compound sold in England as salt butter, at least the cheaper sorts of it used by the poorer classes, I cannot but believe that its supercession by the boiled butter of Switzerland would be advantageous to the comfort and health of a large proportion of our countrymen. It can hardly be believed that such an offensive, briny, and semi-putrid mass as the cheaper sorts of our salt butter, can be without serious detriment to the health of the customers, any more than the salted meat formerly issued to cur seamen was so. The only difference in the two cases, is the comparative quantity consumed in each case; in itself, I parative quantity consumed in each case; in tasel, a and disposed to regard the rancid butter as the more unwholesome of the two. The holled butter, while infinitely more palatable, is neither saline nor rancid, and, consequently, is calculated to be more easily digested, and to produce a more wholesome material for absorption into the system.

"I give the receipt for the process of making the boiled butter in the words I took it down from the mouth of my guide, from the valley of Entremont, with the addition of some little variations in the process, as I obtained them from others learned in the same art.

"Formula-Into a clean copper pan, (better no doubt tinned), put any quantity of butter, say from twenty to forty pounds, and place it over a very gentle fire, so that it may melt slowly; and let the heat he so graduated, that the melted mass does not come to the boil in less than about two hours. During all this time the hutter must be frequently stirred, say once in five or ten minutes, so that the whole mass may be thoroughly intermixed, and the top and bottom change places from time to time. When the melted mass boils, the fire is to be so regulated as to keep the butter at a gentle boil for about two hours more, the stirring being still continued, but not so necessarily so frequently as before.
The vessel is then to be removed from the fire, and set aside to cool and settle, still gradually; this process of cooling being supposed also to require about two hours. The melted mass is then, while still quite liquid, to be carefully poured into the crock or jar in which it is to be kept.—In the process of cooling, there is deposited be kept.a whitish cheesy sediment proportioned to the quantity of the butter, which is to be carefully prevented from intermixture with the preserved butter. These caseous grounds are very palatable and nutrient, and are constantly used as food.

" As might be expected, there are some variations in

One very experienced man assured me that a much shorter time than two hours need elapse between the setting the vessel on the fire, and the period of bringing the butter to the boiling point. Another said that the time should bear some relation to the quantity of ma-terials used, an average period of ten minutes being allowed for every pound. The same party told me that if the butter employed was not quite sweet, the addition of a slice of bread and a slice of onion will remove this; and also that the appearance of the grounds rising up to the top when the mass is stirred, is itself a proof that the coction is sufficient. My guide at Chamoune told me that his wife usually added a small pertion of salt to the mass, in the early stage of the boiling. "Every one agreed in asserting that butter so preserved will last for years perfectly good, without any particular precautions being taken to keep it from the air, or without the slightest addition of salt. Indeed I-myself tasted more than once butter so prepared, full twelve months after preparation, and found it without the slightest taint. It wanted the flavor of fresh butter, but seeperd to me jeffulially more regularly then our but seemed to me infinitely more palatable than our coarse salt butter; this boiled butter, however, is not commonly used even in Switzerland as a condiment with bread, as fresh butter is, but merely as an article in cookery, for which purpose it is said to be even better than perfectly recent butter. I saw at the Hotel d' Angleterre, in Chamoune, the very jar out of which all the butter used in the kitchen was taken; and certain-

the process in the practice of different individuals.

[The foregoing is an extract, from a recent work published in England, by Dr. Forbes, formerly of Chichester, called "A Physician's Holiday, or a month in Switzerland." The Doctor's recommendation, to try the experiment in the English Dairies, we would extend to Canada, and for that reason, we have transferred the foregoing extract to the Canadian Almanac, trusting that it may be of service here.]

ly it would not be easy to find more delicate cookery

than we have met with."

Public Lands, Free Grants, Scrip, &c.

An Act of the Legislature of Canada, passed 30th May, 1849, contains important provisions relative to the management and disposal of the Public Lands.

LOCATION TICKETS.

§ 2 & 3.—The receipt to the purchaser of any land from the Crown, including Clergy Reserves, Crown Reserves, or School Lands, and also the Location Tickets, or Licences of occupation, shall hear date on the day on which they shall be respectively signed, and entitle the parties to take immediate possession, and maintain suits in law or equity, against any wrongful possessor or trespasser.

SCRIP.

§ 4. That all claims to scrip or land, whether of minors or others, and whether founded upon Orders in Council or other regulations, shall be established to the satisfaction of the Governor in Council, within one year after the passing of this Act, or in default thereof they shall be for ever forfeited; Provided always, that it shall be lawful for the Governor of this Province, by and with the advice of His Executive Council, to receive and satisfy the claims of such person or persons who being entitled to Lands were prevented from receiving Scrip for the same, by reason of such claims not having been presented to the Government prior to the first day of January one thousand eight hundred and forty-three, if such applications be made within nine months offer the same than the same th made within nine months after the passing of this Act : Provided also, that the Lands purchased from the Indians, and known as the "Huron Tract," shall not hereafter be granted to claimants nor sold for Scrip, but that the same shall be withheld from sale, until the provisions of the Act passed during the present session, appropriating one million of acres of land to Common School purposes, shall have been complied with so far as relates to the setting apart of the said million of acres.

PAST DUE PEES, OR SETTLEMENT DUTIES.

§ 5. That all lands upon the grant of which fees were payable, and which fees are now due, or unon which settlement duties remain to be performed or the performance of such settlement duties to be proved, shall

be forfeited at the end of two years from the passing of this Act, unless such fees shall be duly paid, and such settlement duties duly performed, and the performance thereof proved to the satisfaction of the Governor in Council within the said period: Provided always, that nothing in this Act contained shall be held to apply to free grants of fifty acres, made upon the lines of public roads, as provided by the twenty-sixth section of the Act hereby amended. [4 & 5 Vic., cap. 100, passed 1841.]

So. The Governor may appoint Local Agents, from time to time, for the sale of Public Lands, and make regulations for their guidance, and "such alterations in the Crown Lands Department, as may be deemed necessary and expedient, for the better and more efficient management thereof."

TO CORRECT ERRORS IN PATENTS.

§ 7. That whenever a Patent shall have been erroneously issued in consequence of any clerical error, incorrect return of an Agent, or wrong description of the land thereby granted or intended to be granted, it shall and may be lawful for the Governor in Council, upon the Report of the Commissioner of Crown Lands thereon (there being no adverse claim), to direct the defective Patent to be cancelled, and a correct one to be issued in its stead, which said corrected Patent shall relate back to the date of the one so cancelled, and be construed to have the same legal effect as it would have had, had it borne the same date as such cancelled Patent.

ASSIGNMENTS OF LOCATION TICKETS.

§ 8. Provides for the Registration of Assignments of Location Tickets, in the Crown Lands Department. which when registered, shall he valid against any of previous date, not registered, except in cases of express notice. All assignments shall be unconditional, and when produced to the Commissioner of Crown Lands, they shall be accompanied by an affidavit of their due execution, sworn before any Justice of the Peace, which shall duly express the time of their execution. Lower Canada, assignments executed before Notaries, or before one Notary and two witnesses, shall be sufficient: and in Upper Canada, Commissioners for taking affidavits in the Queen's Bench, shall have the same authority in administering oaths, in matters re-lating to the Crown, Clergy, and School Lands, as is now exercised by Justices of the Peace. In case of the decease or absence from the Province, of the subscribing witnesses to assignmen's, affidavit of the fact, and proof of their handwriting, shall be sufficient evidence to authorize the registration of the assignment by the Commissioner of Crown Lands. The Crown Patent Deeds for the Lands, shall be issued to the Assignces.

FORFEITURE OF LANDS FOR ARREARS.

§ 9. That it it shall be the duty of the Commissioner of Crown Lands, as soon after the passing of this Act as circumstances will permit or render expedient, to cause to be prepared lists of any of the Public Lands under his management already sold or leased, or which may hereafter be sold or leased, and upon which arreats of one or more instalments or of one or more years' rent have already or may hereafter accrue, and to direct sales to be made thereof on any specific day to be named, after a notice of not less than thirty days, and local or District newspaper, published in the County or District, then such lands shall be situated and when no newspaper shall be published in such County or District, then such publication shall be innade in a newspaper in the District or County next adjoining.

CONDITIONS OF SALE WHEN ARREARS HAVE ACCRUED.

§ 10. That it shall be the duty of the said Commissioner before publishing any such list, to submit the same for the consideration and approval of the Governor in Council, who shall establish the price and conditions upon which the said lands shall be offered; and lots which shall not meet with purchasers at the unset price on the first day of sale, shall thereafter become disposable by the local Agent, in the same manner as other advertised lands, subject to such modification of price and terms as may from time to time be deemed proper by the Governor in Council, to the first applicant who complies with the conditions required, the first locatee excepted, who shall in no case be allowed

1770, the only white set-

to re-purchase at private sale unless paying up the whole of the arrears due with interest up the date of such sale.

INDULGENCE TO LOCATEES TO STOP SALES.

§ 11. That no sale shall be made under the provisions of this Act, until after the expiration of six calendar months from the passing thereof: and provided further, that if the original locatee or purchaser of any lot so advertised for sale, shall at any time before the day of sale pay one of the instalments due on the said lot with interest accrued thereon, then it shall be the duty of the Commissioner of Crown Lands to withdraw the said lot from the intended sale; and the said original locatee or purchaser shall be held to comply with the conditions the Registrar.

of his purchase or lease so long as he continues to pay yearly one of the instalments due with interest, or three years' rent or interest for lots on lease or on quit rent, otherwise the lot shall again be liable to be sold as aforesaid, for the remaining instalments due.

FIELD NOTES OF TOWNSHIPS.

§ 12 & 13. The Commissioner of Crown Lands is required with all convenient speed, to deposit in the Register Office of each County in Canada, a copy of the Field Notes of the original surveys of each Township in such county; and a certified copy by the County Registrar shall be received in all Courts of the Province, as prima facie evidence, without the production of the originals, or of the copies deposited with

Remarks on the Census of 1848.

(By the Board of Registration and Statistics for Canada.)

The average number of inhabitants to a house corresponding so nearly with that of each family, shews a population in a happy and prosperous condition, and is indicative of the advantages enjoyed by a rural settlement over a population confined in towns and cities. Taking the heads of families in round numbers at 120,000, we find that one half are returned as proprietors of real estate, white 50,000 are returned as non-proprietors—this leaves 10,000 unaccounted for, a number which about covers those returned under the head of Labourers, and this correspondence justifies the belief that the census of last year, as far as persons are concerned, is not far from the truth.

The census of occupations was very imperfectly taken, so much so as to render it impossible to draw any conclusions therefrom; taking, however, the localities where the returns were perfect, we have the following results:

The gross population is . . . 646514
Heads of Families 100405
Employed in Professions . . . 1877

Employed in Professions . . . 1877 [craft. "Trade and Commerce... 19713 including handi-

** Agriculture 69417
** Labourers 11135
** In Factories 3866

And taking the same proportions for the unreturned Districts, we have as a conclusion that about 80 per cent of the whole population derive their subsistence.

The average number of inhabitants to a house corisponding so nearly with that of each family, shows oppolation in a happy and prosperous condition, and outside to 8000 souls in all.

> In 1942, the number of Boys under 14 years of age, was 115399, of whom 16495, or 14.23 per cent. attended schools.

In 1942, the number of Girls under 14 years of age was 108634, of whom 13476, or 11.67 per cent. attended schools.

In 1848, the number of Boys under 14 years of age was 167270, of whom 46371, or 27.07 per cent. attended Schools.

In 1848, the number of Girls under 14 yerrs of age was 158780, of whom 34090, or 21.47 per cent. attended schools.

This shows a very great increase in the Educational state of the country. This opinion is fully borne out by another analysis: the at endance at school is generally limited to children between the ages of 5 and 15, now the proportions so attending in 1842 did not exceed 22 per cent, while in 1848, we find it to be over 42 per cent.

The columns headed "Members of Families absent," and persons resident not members of the Family, were not given in the census of 1842; they cause no confusion in the general enumeration.

NATIONAL ORIGIN OF INHABITANTS.

Taking the two enumerations, we find the whole per centage of the population to be made up as follows:

reage of the population to be	1842.	1848.
England	8.85	8.99
Ireland	17.02	19.60
Scotland	8.65	8.03
Canada, French	3.05	2.85
Canada, British		53 36
Cominent of Europe	1.43	2.63
United States	7.14	4.54
	100,00	100.00

We find the greatest increase to have been amongst the Irish and German inhabitants, while the great decrease has been in those from the United States:

ie increase P ct	of English during 7	years, was	30.1
6.6	Irish,	66	70.0
86	Scotch,	66	37.0
.4	Canadians, F.	46	38.7
66	Canadians, B.	64	46.3
16	Other Countries	66	170.9
to decrease to et	of United States.	66	6.6

While taking the census by ages of 1848, it will be 51.40 Increase on whole population according to origin 47.68

The above comparisons show the equable rate of increase of the different nations, as regards the whole Population, and the varying increase with regard to the separate classes; the increase of Germans and Dutch has been very great, while the decrease in natives of the United States is rather singular, when it is known that large numbers come annually from the Union into Canada, the inference is that no influx of native Americans takes place.

RELIGIOUS CENSUS.

It is quite impossible to get anything like a correct Religious census of Upper Canada, because the numbers of various denominations are so many, and such sectional jealousies exist, that the exclusion of any class from the census rolls, causes dissatisfaction, and to inclade all would have the effect of swelling the rolls to an enormous extent; consequently in this census, a large deficiency must occur. In 1842, the deficiency amounted to \$0000 or one-sixth of the whole population, while in 1848, it is 25,000, or about 1-29th of the whole; in addition to the actual deficiency in 1848, we find no less than 60000 classed under the head of "No Creed or Denomination;" a circumstance which of itself is sufficient to render this branch of the census perfectly useless for any practical purpose, nor would it be attended with any beneficial result to institute a comparison between the denominations given in both

CENSOS BY AGES.

This branch of statistical information is looked upon in all countries as of primary importance; it indicates in a great degree the social character of a people, and with us it may form, after the lapse of a few periods, a satisfactory basis on which to rest a calculation as to the comparative increase by births within the Province and by immigration.

In 1842, we find the Males under 14 were 23.74 per cent

of the Popular	tion.			
tt of the topara	Females	66	22.34	6.6
In 1848, "	Males	66	23.04	6.6
111 10400	Females	44	21.87	4.6
The total number of	Males in	1842 were	259914	
THE total manisor of		1848	387631	
	1151155			Pet.
Increase			127717 or	49.14

Increase . . . Of the Males in 1342, 144525 were adults above the age of 14, and of these 79539 were married, being about 55 per cent; in 1848, the former were 220361, of whom 120523, or about 54.68 were married; the decrease has arisen from a falling off in the number of persons in proportion above the age of 60, and a very trifling decrease is observable in those married between the ages of 14 and 18

Of the Females in 1842, 117507 were above the age of 14, of whom 74767, or 63.62 per cent. were married, females above 30 per cent.

while in 1848 the total Female adults were 179468, of of whom 111034, or 62.04 per cent were married.

In 1842 the males were to the females as 100 to 88 nearly. In 1848 100 to 88 nearly.

We find that nearly 6-7ths of the male population between the ages of 30 and 60 are married.

The Board of Registration have been thus particular in establishing the above proportions in the full belief that they will be found useful in future comparisons as to the increase of population, and have followed herein the plan adopted both in England and the United States; in the former country, the most minute particulars are entered into, but here the means do not exist of following up the subject as connected with health and longevity.

BIRTHS AND DEATHS.

The census of 1848 was the first in which any attempt was made to collect information under these heads regarding the Upper Province, and it is of course deficient in some particulars; from two or three localities no returns were made, yet there is sufficient data for some comparisons.

The total number of Births we find to be 27688, or one

to every......Deaths Deaths " 11518 " 63

Difference " 16170 " 37 The general average of births and deaths in England is, of the former 1 in 33, and of the latter 1 in 54.

By the United States census taken in 1840, we find that the children under 5 years of age were about 15 per cent of the population, while in Canada they are very nearly 20—in England the proportion is much less. Now If we assume the number of births and deaths to be correct, we find that for every 100 males born, 42 die, and for every 100 females 41.

The marriages in Upper Canada, during the year previous to the census, were 5367—or about 1 to 12 of the adult single population.

Males. Females. Lunatics and Idiots 457 or 1 in 848 Deaf and Dumb... 234 " 1656 Blind...... 152 " 1550 311 or 1 in 1088 194 200

The United States census does not class the above as males and females-the proportions however were of

Blind 6916 or 1 in every 2192
Deaf and Dumb 7659 " 2228 Lunatics and idiots...17434 44 The total number afflicted as above, were

In Canada. . 1548 or 1 in every 472 inbabitants. In the States 32009 " 533" In the States 32009

SERVANTS.

In a country, a great proportion of whose population accrues by immigration, the number of persons usually classed as servants must naturally be small, particularly of male farm servants; and any increase at all approach-ing to a similar ratio to that of the population argues one of two positions. 1st. That there must have been a great increase in the number of those able to employ assistance: or 2ndly, a great increase in the wealth of our farmers and the extension of their labours. Now, in 1842, the male farm servants were 3184, and in 1848, 7514, far more than double. This shows a rapid increase and affords direct evidence of the increasing prosperity of the agricultural body of Western Canada.

DOMESTIC MALE SERVANTS.

In this class, no great increase can be expected for years among the rural inhabitants, being chiefly confined to towns and cities.

DOMESTIC FEMALE SERVANTS.

This class has increased very much, and is one of the items affording the best proof of prosperity. In 1842, the unmarried females between the ages of 14 and 45, to which class female servants may be said entirely to belong, were 36682, of whom 5181 or nearly 1-7th were servants. In 1848, the former amount to 66664, and the latter to 16781, about 1-6th in the first period, being one to every 7.12, and in the latter one to every 6.63.

COLOURED PERSONS. We have no means of knowing what portion of the increase of coloured persons was by immigration, and what by births, as the ages are classed separately of the males; taking one-fourth to be adults, the increase would be about 20 per cent. by immigration, and of

^{*} For the year 1838, the Assessment Rolls were very imperfectly taken, owing to the disturbed state of the country consequent on the outbreak.

Remarks on the foregoing Table.

(By the Board of Registration and Statistics for Canada.)

The Acts of Parliament which regulate the Local Taxation in Western Canada, declare the value which shall for that purpose be placed thereon, according to their classes. In all new Countries, particularly where, as in Canada, the value of the labour in erecting houses is so much greater than that of the material used, the dwellings of the earlier settlers are generally "Shanties," many of which are retained several years after the owner has become independent, and as such dwellings are not liable to any taxes, no account has been kept thereof; we have only therefore a table of those houses which fall under one or other of the following classes:—

1st-sq. logs, 2 sides, 1 story, 2 fire places, rated at.	£20	each
Additional fire places		6.6
2nd-sq. logs, 2 sides, 2 stories, 2 fire places "	30	6.6
Additional fire places	8	4.6
3rd-frmd. houses under 2 stories, 2 fire places "	35	4.6
Additional fire places	5	6.6
4th-Brick or stone. I story, 2 fire places "	40	44
Additional fire places	10	6.6
5th-frind. brick or stone 2 stor., 2 fire places, "	60	66
Additional fire places	10	66

It will be at once perceived that the above classification will give but a very distant idea of the actual progress of improvement, where the value of the house is fixed by the number of stories; however, as it is the only guide we have, we are compelled to adopt it, and we have the following results:—

CLASSES.	1827.	1832.	1837.	1842.	1847.
Ist Class "Ad. fire places 2nd Class "Ad. fire places 3rd Class "Ad. fire places 4th Class "Ad. fire places 5th Class "Ad. fire places	2714 145 221 33 5224 510 380 84 1348 820	3861 148 302 40 8029 844 486 184 1872 804	4641 146 386 48 12840 1207 610 286 2580 902	4572 215 423 73 20092 2095 2141 600 4410 3840	321 486 94 27107
Total flouses "Ad. fire places Value for assmt.£	9889 1592 352304	14550 2080 514667	22057 2591 751888	31638 6823	9218

The last period is exclusive of the Cities of Toronto and Kingston, and must at best be taken as a mere approximation.

In England, previous to the year 1834, when the house tax was repealed, the Parliamentary Returns showed us the increase on Houses divided into 2 Classes, viz.: 1st. those paying from £10 to £40 a year Rent, and 2nd, those paying above that sum; these may be taken as affording a sufficiently accurate datum of increase on which to found a comparison merely to show the improvement in Canada.

The gross increase in Great Britain of Houses of both Classes:

Between 1812 and 1921 was 20.54 P cent. 2.28 P annum. 2.17 1821 · 1831 · 21.69 1831 · 1833 · 1.82

In Canada the Increase:

Between 1827 & 1837 was 123.12 \$\psi\$ cent. 12.31 \$\psi\$ annum.

" 1837 " 1847 " 93.76 " 9.37 "

The latter, however, does not include Toronto.

The Census of 1842 gave for Upper Canada 74,000 houses inhabited to a Population of 486,055, or between 6 and 7 inhabitants to each house; in 1848 we have 112,595 houses to a population of 723,332, being a very nearly similar proportion; the number of inhabitants to each house in 1841, (the last Census), in England, was 5.44, Scotland 5.04, Ireland 6.51; and these numbers show pretty accurately the number of individuals constituting each family.

GRIST MILLS.

On reference to the foregoing Table, which being completed from the various Assessment Rolls, I adopt rather than the Census of 1842 or 1844, we have the following results, dividing into periods of 5 years:

1825	80	1830	the in.	was 41	or	17.68	₽ c.,	or 3.54	即	annun
1830	66	1835		79) 66	23.95	46	5.79		4.6
1835	66	1840	66	68	3 66	19.32	66	3.86		66
[4]0	66	1545	-66	58	3 66	14.00	66	2.80		4.6
1845	66	1847	66	45) 66	10.26	66	5.13		46

The most reliable index to improvements is found not in the number of Mills, but in the figures in the next column showing the additional run of stones employed ; this gives a great increase and indicates a rapidly increasing prosperity, by the erection of larger Mills, for in 1825, we find 71 additional runs to 231, or 1 Mill in 3 with 2 runs, whereas, in 1847 we have 475 to 527.

These Returns are below the truth, for in 1842 under the Census Act, there were returned 414 Mills, with 584 run of stones, and by the Census of 1848 we have 548 Mills with 1200 runs. This difference is easily accounted for by the manner in which they are assessed for taxes-each additional run of stones being charged at the value of £50; at the periods of the year too at which the Assessments are taken, many of the Mills are idle, and are consequently not given in.

MERCHANTS' SHOPS.

From this column little information can be gleaned, 1st, because it is generally most loosely taken, 2nd, because it is not generally known what is meant by the term "Merchants' Shops," and 3rd, it would be impossible to form even a distant idea of any relative valuethe shop of a chapman, when sales amount to £50 a year, being assessed at an equal value to that of the most extensive Merchant, both being £200.

CATTLE.

1. Horses .- This column includes only horses 3 years of age and upwards, and are valued by the Assessment Laws at £8 each. Every means at the command of this office were employed to arrive at a just

value, and the average was fully established at £12 10s. or even higher. One half of the horses in Upper Canada are valued above £15, and one-fourth above £20, and about one-half above £30, and a like number at

Increase between

Increase between 1825 & 1830, . 9,870 eql. to 41.29 \$\psi\$ cent, or 3.26 \$\psi\$ annum. 1830 \cdots 1835.12,290 \cdots 36.45 \cdots 7.29 \cdots

1835 " 1840. .3,257 7.07 1.41 1840 ** 1845.15,810 32,07 6.41 1845 " 1847. .6,890 66 10.82 5.26

This shows a singular fluctuation; allowing the tables to approach anything near the truth, in the 3rd period from 1837 to 1840, is embraced a time when the troubles in Upper Cana 'a materially affected the returns; but throwing this period out of question, we have a regularly descending ratio. To explain this, we must observe, that in the earlier settlement of the Country, most of the agricultural operations were carried on by means of oxen, which as the country improves gives place to horses.

The increase on which counterbalances the decrease in the others

3. Milch Cows—Valued at £3 each. As there is no animal more conducive to comfort, so none afford a more correct index to prosperity. In Upper Canada, the number may be taken as given, I to every 3 persons. 3. Milch Cows-Valued at £3 each. Increase between

1825 & 1830, 29,693 eql. to 57,80 \$\psi\$ cent, or 11.56 \$\psi\$ annum. 1830 " 1835, 28,696 " 35,46 " 7.09 " 1835 " 1840.35,295 6.44 39, 90 1840 " 1845.54,637 46 37.70 66 1845 " 1847.19,116 66 66 9.60 4.80

The seeming decrease in the ratio between 1845 and 1847 is easily accounted for by an inspection of the annual returns. The average annual increase for the first period being 5,940; for the second, 5,740; for the third, 7,060; for the fourth, 10,926, and for the fifth, 9,558. The whole increase in the 23 years being 167,437, or an average of about 7,280 a year.

Young Cattle-Valued at £1 each.

Increase between

1825 & 1830. .9,895 eql. to 42.15 P cent, or 8.43 P annum 1830 ·· 1835. .5,933 ·· 17.76 3.75 1835 ** 1840. .0,296 1840 ** 1845.30,040 66 66 23.63 4.75 12.36 61.80 1845 " 1847 Decrease.

For this decrease it is difficult to account, particularly as it is the generally received opinion that they had increased.

saw MILLS. Speak for themselves.

CARRIAGES.

Under this head a great and rapid increase is perceptible. No farming carriages are liable to assessment, and consequently many which are used for both purposes are not returned.

Remarks on the foregoing and two succeeding Tables.

By the Board of Registration and Statistics for Canada.

LANDS.

The number of Proprietors of Real Estate liable to assessment in Upper Canada, was about 60,600 say 65,600, and the number of acres occupied 8,613,591 or about 133 acres each; aflowing the return of lands under cultivation (arable and pasture) to be near the truth, viz.:—1,780,152 of the former, and 766,768 of the latter, or 2,546,920 in all, and as the great body of the people are supported by agriculture, we find every 3½ cultivated acres maintaining a person. In 1842, the population was 4-6,055 and the cultivated acres 1,916,319, the increase in the former has been about 47 per cent, while in cultivated lands it was only 33 per cent; and further, that every 100 increase in population added 255 acres to the cultivated lands. Taking Mr. Couling's estimate of lands in England as a guide, we have the following results:—

In 1877 the lands of England were divided thus:

In 1827 the lands of England were divided thus: cultivated 25.632,000, uncultivated 3,454,000 and unprofitable 3,256,400, and the number of acres brought into cultivation between 1700 and 1834 was 6,340,340, while the increase in population was 10,050,5%, so that during that period every 100 increase in the population added about 68 acres to the cultivated lands. The effect of the rapid increase of Manufactures on the agricultural pursuits of the people is made evident by the fact that while taking the whole period as above we have 68 acres for every 100 persons; if we confine our calculation to the let quarter of the present century, we find the proportion to have been only 37 to every 100.

The number of acres returned under tillage was 1.7-0.152 while under the designated crops we have:

, 150, 152 while under the designated cro	ons we	nave :
Wheat 5	93,695	acres.
Barley	29,324	6.6
Rve	39,452	6.6
Oats		44
Pease	82,516	68
Maize	51,997	4-6
Buck Wheat	26,653	6.6
Potatoes	56,796	6.6
		4.6

Add for omissions 10 per cent, . . . 116,500

1,251,504 ** 0

This leaves a deficiency of 49648 acres, easily accounted for as being comprehended under various crops not specified, gardens and town plots.

The unproductive lands in Upper Canada comprise 571,139 acres, or about 6.63 per cent, and even this proportion is beyond the truth, because much land is returned as unfit for cultivation which only requires a good system of drainage, it being mostly included in swamp lands. The unprofitable lands in England according to Mr. Couling was about 10 per cent of the whole extent.

Great difficulty arises as to obtaining any idea of the value of landed property in Canada, because under the assessment laws all lands are valued at the same price. The following estimate is founded on the best information that could be obtained from the Registrars of the several Districts, and the computation of the several averages given in the Census Rolls. According to these, 17 Districts have returned the wild land as at £24 15s. 2d., or an average of £1 9s. 2d. per acre, and the cultivated at £00 5s. 10d. or an average of £3 10s. 10d. per acre; and these approach very near the truth.

Cultivated lands, 2,546,920 at £3 10 10 per acre, £9,020,341 13 4 Uncultivated do., 5,849,406 at £1 9 2

Incultivated do., 5,849,406 at £1 9 2

per acre, 8.530,383 15 (

£17,550,725 8 4

If we take the annual rental to establish a value, we find that in Upper Canada farms of average value generally rent at 15s per acre where about 75 per cent are cleared. Yet, taking a lower average of 10s. per acre, the rental of cultivated lands in that portion of the Province with a corresponding quantity of uncultivated would be about £1,687,946. This approximation is not given as being the truth, but from the menus within our reach it no doubt comes as near as possible. The next Census, however, with the operation of a more just and equitable valuation of property will throw much light upon the subject.

Before entering upon any analysis of this branch of the subject, I cannot refrain from quoting a few remarks from Porter's Progress of the Nation, as bearing directly on the position of Canada. "It is much to be regretted that in this country, (England,) rich as we are in the possession of facts connected with many branches of social economy, we are almost wholly uninformed with regard to the statistics of agriculture. The knowledge we have upon that important subject, the quantity of land in cultivation within the kingdom is entirely due to the industry of an individual whose estimates have never been either confirmed or questioned. What proportion of the cultivated land is applied to the production of any one

REMARKS, &c .- (Continued.)

erticle of food, it has never been attempted to ascertain. We know every rod of ground that is employed for the cultivation of Hops, because of the direct financial interest which the Government has in ascertaining the first but it does not appear sufficiently to be understood how the national interest can be concerned in any kind of knowledge that does not yield money to the exchequer; and there is reason to believe, that if any comprehensive measure were adopted by the government with a view to ascertain the actual condition of the country as regards its agriculture, so much jealousy and so many groundless fears would be excited in the minds of persons from whom the information must be sought, that the returns obtained would be extremely erroneous, or so incomplete as to be of little value." The above remarks apply with great force to Canada, the least steps towards obtaining any statistical information, had hitherto been met with objections of all sorts, for there are never wanting persons who

make it their study by misrepresentation to lead the public mind astray, and as soon as the idea of a Census is promulgated the cry of intended taxation is raised and the people deterred from giving true replies to the questions; this difficulty is however rapidly abating, and in a few years a perfectly correct Census will be attainable.

So much has been said of the fertility of the United States that the following table will not be without interest; it shows the proportion of each kind of grain raised to the population at two periods in the United states and Canada. That of the United States for 1848 being taken from the Report of the Commissioner of Patents and being merely an estimate.

In 1840 the population of the United States, was 17,063,353, and in 1847, 20,746,400.

In 1842 the population of Canada West, was 486,055, and in 1848, 723,332.

CROPS.

From the above table, it will be seen that in proportion to the extent and population, Canada is a more agricultural country than the United States, and the surplus of wheat is very great. The usual quantity allowed for the consumption of each inhabitant is generally 5 bushels, which would leave for export one

half the produce of the country. The large quantity of Indian Corn grown in the States enables them by making it a staple of consumption to export a large sfock of flour. In Canada, on the contrary, little Indian Corn is grown, and wheat becomes of necessity the great article of food.

£2,676,285 6 6

In making the foregoing comparison between the crops of the United States and Canada, a remark has been made which requires some observation. stated to be unjust to take the whole of the former country, whereas some portions do not produce wheat, Louisiana and Florida for instance, whose united population is about 600,000; we will take therefore those

New York with a population of 2,880,000 produced 15,500,000 bushels, or little more than 5 to each in-

Pennsylvania, with a population of 2,220,000 produced 15,200,000 hushels, or very nearly 7 to each inhabitant.

Virginia, with a population of 1,295,000 produced

12,250,000 bushels, not quite 10 to each inhabitant.

Ohio, with a population of 1,980,000 produced 20,000,000 bushels, little more than 10 to each inhabitant.

Indiana, with a population of 1,000,000 produced 8,500,000 bushels, or about 8 to each inhabitant.

With respect to Michigan, it is worth while to exannine the returns; in 1840, the population of that State was 212,267 and its produce in wheat was 2,157,108 bushels. In 1848 the population is rated at 420,000 and the wheat crop at 10,000,000 hushels, and other crops at 22,110,000, making together 32,000,000; how does that stand with regard to the available labour of the State? According to the ratio of 1841, the whole male population between the ages of 15 and 70 would be about 127,000, of whom, allowing 75 per cent to be engaged in agriculture, we have 92,000 to collect this enormous harvest of grain above, of 350 bushels to each man. The wheat crop being about 21 bushels to each inhabitant.

MAPLE SUGAR .--The manufacture of this article is carried to a great extent throughout Canada. 1847, to which year the Census applies, was decidedly one of the worst, while 1945 was good beyond the average, the number of lbs. given by the Census was 3,764,213, to which we may safely add 10 per cent to bring it to the average yield 4,140,667, and as no portion of this is exported, we have very nearly 6 lbs. to each inhabitant.

HEMP, FLAX AND TOBACCO. - These articles are very little cultivated, and with respect to the latter we have unfortunately no return from the Western District where it is chiefly grown.

CATTLE.

1 Neat Cattle in 1842, 504,963, in 1848, 565,845, in-

erease 60,822, or 12 per cent. 2 Horses in 1842, 113,675, in 1848, 151,389, increase 37,714, or 33 per cent.

llogs in 1842, 394,366, in 1848, 484,241, increase 89,875, or 23 per cent.

4 Sheep in 1842, 575,730, in 1843, 833,807, increase 258,077, or 45 per cent.

The last, viz : Sheep is of peculiar consequence as connected with the improvement of the country

In 1842 there were produced 1,302,510 lbs. of wool, while in 1848 it amounted to 2,339,756, or an increase of very nearly 80 per cent, the average fleece being 2 6 8th lbs. In the States in 1840, the number of Sheep was 19,311,374, and the wool 35,502,114 lbs.

The various other divisions of the Census Roll call for no remarks, if we except the quantity of linen cloth manufactured in which there appears to be a falling off of more than half, while the increase in fulled cloth and flannels has been correspondingly great. regard to the columns given for produce for market, viz: Butter, Cheese and Pork, they were inserted for the purpose of obtaining grounds of comparison for a succeeding Census, nor was it till the returns came in that any idea could have been formed of the immense amount of these articles produced.

As to Mills and Manufactures, I regret to say that my opinion is, that little reliance can be placed on the returns-from many townships they are very imperfeetly made up; this difficulty, however, will be obvi-

In closing this branch of the Report, it is right to call attention to the heads inquired after by the Census of the United States, particularly as there appears to exist in Canada a feeling that the Questions are in-quisitorial and too nunerous, the following is an abstract of the Columns in the States Census of 1841 :-

Personal. . . 77 Columns. Commerce 11 Columns. Mines 31 Fisheries.... 7 Products Forest 6 Agriculture..27 16 .. florticulture, 4

^{*} Return of Children attending in 1842, incomplete. † Reports of Schools for 1848, incomplete.

Population of Lower Canada. In 1622 there were 50 men and women in Quebec. In 1720 Quebec contained a population of about 7,000, and Montreal a population of about 3,000.

The first general capitation in the Province, was taken in 1676, from which time the periodical increase has been summed up by Bouchette, and other authorities, as follows :-

Years.	Pe	pulation	t.					Increase

ties, by proclamation of Sir Alured Clarke, the Lieut. Governor. The population at that time, is assumed at 230000. The number of Counties, under this proclamation, was 21. By the Census taken in 1825, under this division, the population of Lower Canada amounted to

division, the population of Lower Canada amounted to 423630—of these, there were male adults, 19571, very nearly 25 per cent of the whole.

A new division of Lower Canada was made by the Act, 9 Geo. IV., chap. 73, (1824.) The computation of the Census, under that division, showed a population in 1831, of 511992, of which 108053 were male

On the passing of the Union Act, (1840) the divisions were re-modelled, and a new set of Counties established, under which the Census of 1814 was taken. By reason of these frequent changes in the Counties and Parishes, it has been found exceedingly difficult to institute comparative tables from the Census rolls.

In 1944, the population of Lower Canada amounted to 690782, of which 144091 were male adults. crease from 1831 to 1814, was 14.87 per cent in the District of Gaspe: 35.16 per cent in the District of Three Rivers; 41 per cent in the District of Three Rivers; 44 per cent in the District of St. Francis; and 34.24 per cent in the District of Montreal. The whole population of Lower Canada from 1831 to 1844, increased 34.94 per cent; and the male adult population increased 32.36 per cent during the same period.

These numbers would give, according to a well established rule of statistics, adult females 182230, and children of both sexes 364461.

From 1831 to 1844, the annual per centage increase, was 2.63, and this, allowing for the increasing ratio, would give about 12½ per cent for the four years, from 1814 to 1848 :

rease by migration. Both Mr. Cauchon and Colonel Tache lay great stress on this point, and it is well known that a very large migration of Lower Canadians has taken place within the last five years. Mr. Cauchon estimates the maximum population of Lower Canada, in 1848, at 770000; and Colonel Tache rates it at 765,797. A calculation based on the returns of births and deaths, rates it at 774674. These four taken to-gether, give a mean estimate of 771922. Allowing that in the first hypothesis, the increasing ratio should in the first hypothesis, the increasing ratio should have been abandoned, the mean of the estimates would

then be reduced to 768901.

After going into some further minute comparisons between the computations of Colonel Tache, Mr. Cauchon and the Board of Statistics, the compiler of the latter observes, that these joint calculations give as the population of Lower Canada, 768324, or an increase since 1844, of 77552, being 2630 more than that assumed by Colonel Tache, and 1666 less than that of Mr. Cauchon. These calculations were made separately, without any reviews compunication between rately, without any previous communication between the parties, and with very different means, each pro-ceeding on a very different system of data; and as the three parties so nearly agree, we may safely state the population of Lower Canada to be, at the very utmost

It is to be regretted that, the last Census Act had not been acted upon in Lower Canada. Had the pro-visions of that Act been complied with the necessity of adopting a series of calculations, in this manner, to arrive at the probable amount of population, would have been obviated.

The following Table shows the increase of population from 1825 to 1848 inclusive, according to the divisions established by the Union Act, and now existing. The years 1825, 1827 and 1831, show only the population of the several Districts, while the years

figure it will bear, 770000.

then be reduced to 768901.

1844 and 1848 show the population of the counties comprised within each district. The defect in the first three returns alluded to, as regards the population of counties, arises from the circumstance already referred to, of the frequent changes in the boundaries, and the non-identity of the present counties, with those which existed previous to the union.

For the sake of convenience, we have added to the Table, statements of the contents of L. Canada, divided into Counties and Districts, in square miles and acres, and the proportion of it actually laid out in square miles. Also, returns of the number of Schools, and Scholars attending them in 1848.

Population, Lands, and Schools, Lower Canada.

Progress of Settlement and Value of Lands in Lower Canada.

A system of Registration of Titles to Property has been lately established in Lower Canada, which seems to have succeeded to some extent.

The following is an Abstract of the information furnished to the Board of Statistics, in reply to a series of questions proposed by them to the several Registrars of Counties, in the view of getting at some foundation on which to predicate future enquiries.

COUNTY OF QUEBEC.

Charles N. Montizambert, Registrar.—The number of deeds registered within the year 1847, was 18-3; all containing either general, special, or tacit mortgages as limited by the ordinance 4 Vic. cap. 36, have been discharged. New settlers seldom remain in the County of Quebec. The Registrar states the average value of uncleared lands at 5s. per acre, and of cleared at from 15s. to 17s. 6d. The average per centage increase in the value of land during the last ten years has been exclusive of Quebec and its environs, about 20 per cent.

COUNTY OF NICOLET.

Joseph Jutras, Registrar.—In this County in which very little land has been purchased by new settlers, there were registered 559 deels and 159 nor gages. Mr. Jutras states the value of cleared lands at from 5s. to 20s. per acre, and of uncleared 2s. to 10s. the remarks that instead of increasing in value, land is decreasing in the County for the last ten years in consequence of the crops being so bad.

COUNTY OF DORCHESTER.

R.A. Fortier, Registrar—Not one new settler has fixed in this County during the last year within the knowledge of Mr. Fortier; large purchases however must have been made from the fact that 443 deeds and 234 mortgages were registered. The value of the old cleared lands has remained pretty stationary during ten years, new lands have however increased 2, 3, and 4 times their value in the same period; the average price of cleared land is from £1 to £10, depending on the quality of the soil—the distance from the main roads, clutches, mills, &c., uncleared lands are granted by the Seigniors at an annual charge of from 15s, to 30s. per 90 superficial acres.

COUNTY OF MEGANTIC.

J. R. Lambly, Registrar.—Mr. Lambly, who appears to have paid great attention to the matters made subject of enquiry, states the average value of land to be about 6s. 3d. per acre, except in some of the Townships, particularly Lambton, Forsyth, and Somerset, in the latter of which it sells at 20s. per acre. Mr. Lambly then proceeds: since my acquaintance with this County, viz: 1830, it has been steadily increasing in oppulation and in the actual value of property, notwithstanding a decrease in the market value of the land. The major part of the population come to settle in this County possessed but of small resources, and in fact many in a state of indigence, who are now in a comparative state of wealth to what they were in their own country, and that, by their own industry.

It must be understood that this county is not indebted, (as most others are) for its increase of population to Immigration, but solely to its own resources; in fact so rapid has been the increase, that I believe, referring to the last Census will show that for the last ten years it has been in a greater ratio than any other County in Canada, although others have had the advantage of Immigration, and this I would be inclined to attribute to the salubrity of the atmosphere, and the productive-

ness of the soil.

The inhabitants are industrious and supply the Quelec market largely with butter, pork and sheep, and also great numbers of horned cattle; the butter of this County carries the palm in the Quebec market, and the sheep are superior to any thing of the kind in Lower Canada, and in fact could not fear competition with those of the Upper Province; in a word, agriculture is flourishing in this County, it abounds in valuable timber as oak, pine, spruce and hemlock, as also maple, beech, birch, elm and ash of a superior quality, lying contiguous to and at the head of a water communication, which, with a little outlay, might easily be made one of the finest transits for timber in Lower Canada, having its debouche at St. Nicholas, on the St. Lawrence, and thus open up an almost inexhaustible source of valuable timber as well as minerals. These waters are above the lead waters of the Becaucour, having their confluence below Three Rivers, on

the St. Lawrence, and in their present condition form a bost navigation of 30 miles to the Black Lake, and thence to the head waters of the St. Francis, by a portage of three miles.

At the head of these waters is a valuable Iron Mine, and in 1847 a rich copper bed was discovered in the Township of inverness, about fifty miles from Quebec. There are also many quarries of good line stone.

COUNTY OF SHERBROOKE.

Win. Ritchie, Registrar.—The number of deeds registered in this County in 1847, was 2-4. The Registrar states that he does not know of a single new settler having located himself in any of the new Townships of the County, nor does he think that there has been any increase in the value of lands for ten years.

COUNTY OF LUTEINIERE.

R. S. Noel, Registrar.—During the year from 396 to 375 mortgages have been registered. No new Settlers, Cleared lands sell for £2 lus, per acre; uncleated lands may be had from the Seignoirs for nothing a tire de cens; no increase in value.

COUNTY OF YAMASKA.

J. O. Areand, Registrar.—The increase in the value of lands in this county is stated to have been about 25 per cent, the cleared selling at from £1 10s. to £7 10s. and the uncleared from 15s, to £5. The deeds enregistered were many, thus statedby the Registrar, 411 titles, 144 obligations, 58 contracts of concession and and 51 donations of land.

COUNTY OF ROUVILLE.

H. Aubertin, Registrar.—The increase is stated at 30 per cent, in consequence of the clearing. 687 deeds have been registered 377 mortgages, 52 decharges, and 270 land deeds.

COUNTY OF SHEFFORD.

II. S. Forster, Registrar.—A small portion of the lands which were sold during the year was purchased by new settlers (not more than 4,500 acres) generally at from 15s to 20s. per acre. The Township of Milton and the north part of Stukely are tast filling up with French Canadians. The increase in the value of land within ten years has been 5s or 6s. per acre.

COUNTY OF OTTAWA.

J. F. Taylor, Registrar.—Wild Lands have sold from 5s to £5, and some cleared lands in Hull have sold even as high as £10.

COUNTY OF TWO-MOUNTAINS.

D. Dellertel, Registrar.—During the year 1847 there were registered 587 deeds of all kinds; a few new settlers located in the Town ships where uncleared lands sell at various prices from 18. 3d. to 10s., and cleared from 10s. to 40s. The Townships are settling slowly, and the increase in value has been little or nothing.

COUNTY OF L'ISLET.

J. D. Lepine, Registrar,—The Registrar complains of the inefficiency of the Registration Act, and says, that of 30 deeds of Sale which have passed during the month, only 10 have been registered. This complaint is also made by others. Mr. Lepine has been a resident of the County for seven years, and during that time thinks the value has retrograded in consequence of bad crops.

COUNTY OF VERCHERES.

L. Menard, Registrar.—191 Registrations. Cultivated lands in the County self for from £3 to £4 per acre, and the uncultivated which derive their chief value from the timber, self from £2 to £5. The County has 122 or 125,000 acres, and a population of about 14,000.

COUNTY OF LEINSTER.

L. Archambauit, Registrar.—711 Registrations. Of these 275 were land deeds. No new settlers. Cleared lands average £4 and uncleared £1 per acre. The increase in value has been 6 per cent. COUNTY OF ST. MAURICE.

G. Duval, Registrar .- 354 Registrations. New lands filling up.

COUNTY OF BEAUHARNOIS.

D. K. Lighthall, Registrar,—Registered 450 deeds, 175 mortgages, and 75 mortgages were discharged. The lands sold were about 2,500 acres, of which about 3 per cent was purchased by new settlers. Lands sell well, and the increase for the ten years has been great, especially in the Townships.

COUNTY OF KAMOURASKA.

Hon. J. B. Tache, Registrar .- 361 Registrations, 117 of which were conveyances of lands, 27 being to new settlets. Uncleared lands sell for 2s. 6d. and cleared for £2 per acre.

COUNTY OF BELLECHASSE.

P. Forgnes, Registrar.—No new settlers. Cleared farms well situated sell from £4 to £6. Mr. Forgues says the value of land has decreased during ten years, 16 or 12 per cent.

COUNTY OF STANSTEAD.

C. A. Richardson, Registrar .- 310 deeds of various kinds registered during the year, and the deeds of transfer covered about 10,118 acres. The general average price of cleared land varies very much, it goes as high as \$8 in Stanstead, and as low as \$3 in Barford; the general value of uncleared lands is from 5s. to 7s. 6d. per acre.

COUNTY OF SAGUENAY.

D. Berger, Registrar .- 346 Deeds registered .- The value of lands has decreased, and many of the inhabitants have sold their lands very low, and migrated to the new crown settlements on the river. The mode of cultivation is very bad indeed.

COUNTY OF MISSISQUOI.

R. Dickenson, Registrar.—About 11,000 acres of land were sold, very little of which was purchased by new settlers. Lands sell at a general average of from 15s. to 20s. Some parts of this County were granted so early as 1792, and the increase in ten years has been 25 per cent. The income of many of the farmers of this County is from £300 or £400 per annum, chiefly derived from butter, cheese, pork, and beef and young cattle. Some farmers in the spring of the year often take to the Montreal market, cheese to the amount of £100, and the Registrar knows one who laid down an acre and a half in hops, from which in two years he realized £175.

COUNTY OF VAUDREUIL.

H. F. Charlebois, Registrar.—Registers 250. Contracts of sale, obligations 130. Discharges 34. Cultivated land sells for £2 10s. and uncultivated for £1 per acre. The increase has been in ten years about 25 per cent.

COUNTY OF GASPE.

P. Winter, Registrar.—Transfer of sales 48. Wills
4. Obligations 22. Judgments 35. The quantity of land covered by 32 deeds was 4296. The sales to new settlers were very trifling, if any. The price for front village lots was in some instances as high as £15 per acre. Lands one half cleared, sell for from 10s, to 25s, per acre, while the government upset price is 3s.—Fishing rooms sell for about £15. Owing to the falling off of immigration, the lands are not fast filling up.

COUNTY OF RIMOUSKI.

A. G. Ruel, Registrar .- About 8000 acres have been sold, about one third being to new settlers. The increase has been about 15 per cent on the value of property.

Answers from the other Registrars do not contain any information worth noting.

Lands and their Produce.

In 1827, Mr. Bouchette states the total number of acres of land in culture to be, ... 2,946,565 acres. The Census of 1831, gives only ... 2,965,913 "... 1844, ... 2,802,317 "...

This shows that Mr. Bouchette must have over-rated the quantity. Taking the two last Census as being authentic, we find that the increase was 35.6 per cent, while the increase in population was exactly similar, being 35 per cent. The number of landed proprietors

in 1831 was 57,891, being on the average about 36 acres to each, while in 1844 the proprietors amounted to 76,440, or about 36½ acres each; this shews us that the state of agriculture in Lower Cauada must have been sadly neglected, and that it is only followed far enough to give an actual sustenance to the cultivators. The increase in the population of the City of Montreal will not account for the non-increase of cultivation, in proportion.

The produce of Lower Canada is thus stated by the

foregoing authorities:

Census 1831.	Bouchette 1827.	Census 1844.
3404756	2931240	942835
948758	823318	1219420
3142274	2341529	7238753
394795	363117	1195456
234529	217543	333446
339633	333150	141008
7857416	6796300	9918869

	3404756 948758 3142274 394795 234529 339633 7857416	3404756 2931240 948758 823318 3142274 2341529 394795 363117 234529 217543 339633 333150 7857416 6796300

This shews a fearful falling off in the production of wheat. The produce for 1844, without any deduction of seed, would only furnish 183,567 barrels, or only 1

barrel for every 3 inhabitants.

The whole produce in 1844 exclusive of potatoes, was The whole produce in 1544 exclusive of potatoes, was 11,445,727 bushels, and allowing that two-thirds of the cultivated lands were under potatoes and fallow, it would give an average crop of 12 1-5th bushels per acre of all grain for the remainder. In 1831, the same allowance being made, the average crop would be 123 bushels, while Mr. Bouchette for 1827 makes it 7 20-98 bushels, while Mr. Bouchette for 1827 makes it 7 20-98 bushels, while Mr. Bouchette for 1827 makes it 7 20-98 bushels of mixed grain.

hushels exclusive of 184,659 hushels of mixed grain.

TRADE, COMMERCE, & FINANCES OF CANADA.

(From the Montreal Brokers' Circular, 25th March, 1849, printed by order of the House of Assembly.)

The period has arrived, when, from obtaining access to the public accounts, we are enabled to lay before you a statement of the Imports and Exports for the fiscal year just closed; and having obtained from Messrs. MacDougall & Glass the use of the tables and statements published by them up to March last, we are enabled at the same time to give you a complete statistical view of the commerce of the country from 1838 up to the present time.

That the trade of Canada, and particularly of Montreal, was unusually depressed last year, is known to every one concerned in it; but there are few perhaps who will be prepared for the enormous falling off in its amount, both as to Imports and Exports, which our

tables make manifest.

As to Imports, a part of the decline is no doubt attributable to the importations of 1847 having been in excess of our actual wants, and the decrease of our Exports of agricultural produce is to be accounted for hy the facts, that in 1847 the Exports were swelled by Flour ground in bood for exportation from United States Wheat, whilst in 1848 the quantity so exported was much less, and that the high prices of 1847 induced our own farmers to bring every bushel to market which they could spare, thereby leaving less in their hands to the disposed of in 1848. The quantity of United States Wheat ground in the manner alluded to for exportation in 1847 was 533,465 bushels, and in 1848 only 127,955 bushels.

Our General Tables, to which we beg you to refer, show the Imports under separate heads, viz., those received inland, separately from those received by sea; while the following table which has been prepared to facilitate comparison, shows the Imports by both routes consolidated. A glance at its contents will show how greatly the Import business of the Country fell off last year as compared with 1847, and also the striking fact, that while the total importation of goods paying ad valorem duties fell off materially, such goods imported inland, (that is from the United States.) increased upwards of furty per cent., showing a large decline by way of the St. Lawrence.

Exports Timber, &c., by Sea.

Of Timber and other articles of wood exported by sea, the comparison shows an increase in 1848 of 1,030,040 feet of White Pine, and an insignificant increase in Staves, but an enormous falling off in every other article, as will be seen by examining the following table:—

Exports from Canada by inland Ports in 1848, with the Custom House Values.

Our Exports by Inland Ports (in addition to those above given by Sea.) we think it advisable to bring prominently into view, inasmuch as the extent of our direct export trade to the United States, seems to us to be greatly underrated. It will be seen by the annexed table that it reached the value of £772,432 5s. 4d. in the year just closed. This table is made up from returns chiedly furnished by officers of the Custom House Department of the United States, our own Customs' officers being unable to supply the data, as our laws do not make it compulsory to enter goods exported by the frontier. It may reasonably be assumed, therefore, that a large additional quantity of commodities is aunually smaggled into the United States, for which their high tairfif holds out a great inducement.

Comparative Statement of Value of Exports and Imports at the Ports of Montreal and Quebec for the last Eight Years.

The next table to which we would draw your attention, is that which shows the declared value of the Imports and Exports of Montreal and Quebec alone. The decline in the trade of both Ports, in money value, is very striking: EXPORTS. IMPORTS.

	Port Quebec.	Port of Mon'l.	Total Curc'y.		Port Quebec.	Port of Mon'l.	Total Cure'y.

Bank Stocks, 1848.

The prices of Bank Stocks shew how greatly our monetary institutions have been affected by the depressed state of the Trade and Commerce of the Country. As a contrast, we may mention that in 1840, and for some years before it, the Stock of nearly every Canadian Bank in the Province, stood at, or above par. That of the Bank of Montreal, for instance, was as high as 14 per cent. premium, in 1846. But the losses which they all suffered in 1847, were very heavy, and business has since then, been too depressed, to admit of their making sufficient profits to re-establish the value of their Stocks

at par.
The Bank of British North America, not being Canadian Bank, requires a separate notice. Its Suck also has been much depressed, but the transactions in it here are at all times very limited, the Stock being

it nere are at all times very limited, the Stock being chiefly owned out of the Province.

The premium of Exchange on London, between April and November 1848 inclusive, ranged between 13½ and 10 percent. On the 1st March, 1849, it was 10½. Bank of Montreal Stock was at 5½ percent, premium, on 25th April, 1848. It fluctuated until November,

when it was quoted at $1\frac{1}{2}$ @ 2 per cent. discount, and it again rose to par. On 1st March, 1849, the quotation was 21 per cent. discount.

Bank of British North America Stock was at 61 cent. discount, on 25th April, 1848, and from 5th May to 15th August, it was quoted at 7½ discount. The quotation from 23rd August until 24th October, was 12 per cent. discount, after which there were no sales. City Bank Montreal Stock was quoted on 26th April,

1848, at 72 per cent. discount. It continued to decline until 30th June, when it was quoted at 18 @ 20 per cent. discount. It remained at 20 discount until 15th August, and afterwards went down as low as $32\frac{1}{2}$ @ $33\frac{1}{2}$

August, and afterwards went down as low as 32½ @ 33½ discount, closing in November at 32 discount. On 1st March, 1849, it was quoted at 40 @ 45 per cent. dis. Banque du People. Montreal Stock was quoted on 26th May, 1848, at 6 per cent discount. In June it was quoted at 10 dis., in July at 11 dis., and in August at 12 dis., after which it was returned as masaleable. Since September 1848, it was offered much below 12 per cent. discount, without finding buyers.

Bank of Upper Canada Stock was at 5 per cent.

discount, on 25th April, 1818. It gradually declined until in July it was quoted at 10 dis., in August at 12 dis., and in September at 25 dis. On 1st March, 1849, the quotation was 25 @ 26 per cent. discount.

Commercial Bank, M.D., Upper Canada Stock was

quoted on 25th April, 1848, at t per cent premium. May the quotations were 14 per cent, prem. Between Between June and September it fluctuated between 21 prem. and par; and on 18th October it was quoted at par @ + per cent. discount. On 1st March 1849, the quotation was 2 @ 22 discount.

PROVINCE OF NEW BRUNSWICK.

SEAT OF GOVERNMENT, FREDERICTON.

The extent of New Brunswick is set down at 27,700 Square Miles, and the population is estimated at 210,100. The quantity of granted lands, to the year 1847 inclusive, is given at 6,606,329 acres; and the ungranted lands at 12,309,551 acres. In 1847 the pasture lands amounted to 28,159 acres, and those cropped and in hay, to 330,500 acres. There are about 4,000,000 acres of land in the Province unfit for Agri-

The produce of the Province in 1847, was 189,936 hushels Wheat; 12,802 bushels Rye; 652,225 bushels Oats; 30,412 bushels Barley; 325,316 bushels Buck-Oats; 39,412 obsees barrey; 52,500 breets; may wheat; 32,12 bushes other grain; 1,985,855 bushels Potators; 133,225 bushels Turnips; 16,121 bushels other roots; and 184,463 tons Hay. The Stock in 1847 was as follows:—26,643 borses;

120,113 Horned Cattle; 180,082 Sheep; and 51,169

Swine. The Revenue and Expenditure of the Province, in

1846 and 1847, were as follows:—

Revenue, 1846....£127,335 18 104

1847.....127,410 7 2 Increase Revenue, 1847....E Increase Revenue, 1847. £ 73 8 3½ Expenditure, 1843. £113,349 4 9 1847. 135,530 12 7

Increase Expenditure, 1847...£ 23,181 7 10
In 1846 the Revenue exceeded the Expenditure by £13,987 48. 1\(\frac{1}{2}\)d.; but in 1847, although there was an increase of Revenue over 1846, the Expenditure, nevertheless, exceeded the income by £9,120 58, 50,000.

In 1835, with a population of 119,157, the Revenue amounted to £79,512, and the Expenditure to £79,512. The Imports were £969,860, and the Exports £652,151. In 1845, with a population of 156,162, the Revenue reached £113,019 17s., and the Expenditure £87,417 1Fs. 3d. The Imports amounted to £1,084,151, and the Exports to £757,621.

House of Assembly.—(Elected 1846.)—The Hon.
John Wesley Welden, Speaker.

The House consists of thirty-nine members. The Counties of York, St. John, Westmorland, Charlotte, and Northumberland, return four members each; King's County returns three; and each of the Counties of Queen's, Sunbury, Carleton, Kent, Gloucester, Restigonche, and Albert, and the City of St. John, two members.

Clerk of Assembly,-Charles P. Wetmore. Ser geant-at-Arms, -George Garden. Chaplain,-Rev. Wm. Q. Ketchum.

SUPREME COURT OF JUDICATURE.—Chief Justice, Hou. Ward Chipman, L.L.D.; Justices—Honorahles Jumes Carter, Robert Parker, and George Frederick Street. Clerk of the Crown—John Ambrose Street. Clerk of the Pleas—George Shore. Clerk of the Circuits and Clerk of the Crown on the Circuits-Hon. John S. Samulers

This Court has, within the Province, the combined Jurisdiction possessed as Courts of Law, by the Courts of Queen's Bench, Common Pleas, and Exchequer in England. The full Court is held four times a year at Fredericton. Courts are also held there twice a year, by one of the Judges, for the trial of Civil and Criminal causes, as well as in St. John and Charlotte Counties, and once a year in each of the other counties. When the sum in dispute does not exceed £20, the proceedings are summary, the pleadings simplified, and the costs about one half the amount of ordinary proceedings. There is an appeal to the Governor in Council, where the amount exceeds £300 sterling, and from that Court to the Queen in Council, where the amount in dispute exceeds £500 sterling.

CORT OF CHANCERY.—Chancellor, the Lieutenant-Governor; Master of the Rolls.—Hon. Neville Parker; Registrar,—Daniel Ludlow Robinson; Deputy Registrar,—Henry B. Robinson. There are twelve Masters and five Masters Extraordinary.

The general husiness of this Court is conducted by the Master of the Rolls, from whom an appeal is permitted to the Chancellor, and from him to the Queen in Council. All proceedings relative to Lunatics and Idiots must be had before the Chancellor himself, who generally claims the assistance of one or more of the Judges of the Supreme Court as advisers, system of the English Court of Chancery is generally adopted, varied in some respects by local legislation and particular rules of practice established by the

COURT OF GOVERNOR AND COUNCIL .- President, the Lieutenant-Governor: Vice-President, the Master of Lieutenant-Governor ; Fac-Frescon in the Rolls; Members, in Executive Council; Registror and Clerk, John C. Allen. Terms—2nd Tuesday in February, and 3rd Tuesdays in June and October.

The jurisdiction of this Court is confined to questions

concerning marriage, contracts of marriage, divorce,

and separation and alimouy.

COURT FOR THE TRIAL AND PUNISHMENT OF PIRACY AND OTHER OFFENCES COMMITTED ON THE HIGH SEAS .-The Governor; the Judges of the Supreme Court; the Executive Council; Judge of the Vice Admiralty; Public Secretary; Public Treasurer; Commander-in Chief; Flag Officers and Captains, and Commanders of Ships of War on the station, for the time being. Registrar and Scribe. -: Provost Marshal. H. Jouett.

When cases arise calling for the exercise of the jurisdiction of this Court, it sits at any place within the province, to be appointed by any three of the members, the Governor, Chief Justice, or one of the Judges of the Supreme Court, or Judge of the Admiralty, being one. The proceedings are similar with those in the ordinary

Criminal Courts in the province.

COURT OF VICE-ADMIRALTY .- Judge and Commissary, Hon. Robert Leonard Hazen; Advicate General, William Wright; Registrar and Stribe, John M. Robinson; Marshal, John Humbert.

The Governor is Vice-Admiral. This Court has two branches-a Prize and an Instance Court-the former applicable only in time of war. The latter has jurisdiction in suits for seamens' wages, pilotage, bottomy, damage to a ship by collision, contempt in breach of the regulations and instructions relating to Her Majesty's service at sea, and salvage and droits of Admiralty, notwithstanding the cause of action may have arisen out of the local limits of the Court. It has also jurisdiction in cases of seizures for the contravention of the laws in force within the province, for the collection of the duties on timber. An appeal lies to the Queen in Council.

THE COURT OF ORDINARY AND SURROGATES' COURTS. The Governor is the Ordinary of the Province, giving him the power of collating to churches, chapels or other Ecclesiastical benefices, and of issuing all mar-riage licences. The other duties of the office are discharged by Surrogates, of whom there is one for each county, having power to grant Probates of Wills and Letters of Administration. An appeal is allowed from the Surrogate to the Court of Chancery.

COURTS OF JUSTICES OF THE PEACE, for the recovery of debts not exceeding £5. and covering cases of trover, of delta increased in Executing 25, and covering cases of nover, trespass &c., where the damages to real property do not exceed 48s. These cases are decided by the Justice alone, unless either party demand a Jury. An appeal is lowed to a Judge of the Supreme Court. The jurisdiction of the City Court of St. John, is the same as that of the Justice of Peace Court.

THE INFERIOR COURTS OF THE COMMON PLEASof these is established in each county, and is held four times a year. The Judges are appointed by the Crown. They have jurisdiction in all cases in which the titles to lands do not come in question. Where the matter in dispute does not exceed £20, the costs are on a reduced scale. Should the matter in dispute exceed £20, the defendant may by Habeas Corpus, remove the cause into the Supreme Court: and either party, after judgment, may, by writ of error, remove the judgment into the Supreme Court.

Public Schools -Besides the Collegiate or Grammar School of York, noticed in connection with King's College, there is a Grammar School in each County, except Kent and Westmoreland, where there does not except went and westmore and, where there does not appear to be any,—and Northumberland has two. The Collegiate School of York receives an annual allowance of £375 from King's College, and the services of a French Teacher. The supervision of the other Grammar Schools, is exercised by Boards of Directors and Trustees, appointed by the Governor in Council. The St John School Action College. Council. The St. John School receives £150 a year from Government, and all the others £100 each, except | one of the two in Northumberland, which receives only £50. These provisions are made, on condition that the inhabitants pay the further sum of £50 to the

Teacher.
The Parish Schools are under the general management of the Board of Education. The average number of these Schools has been limited to nine for each Parish, but may be increased to thirteen in any Parish, provided the whole number in the County does not exceed the established average. The Government exceed the established average. The Government allowance is £30 per annum to Teachers of the First Class; £22, Second Class; and £18, Third Class. The emoluments, exclusive of the Government allowance, range between £20 and £100. The general average about £30.

The number of Grammar Schools in the Province is eleven, of which the Collegiate or Grammar School of ork has four Teachers, and each of the others one. The whole number of Scholars attending them in 1848,

was 456.

The number of Common or Parish Schools in the Province, is 571. There were in 1848, male Teachers 445, and Female Teachers 126, in charge of these Schools. The number of Male Scholars was 9737, and

of Female Scholars 7650.

Western Academy, Mount Allison, Sackville.— Governor and Chaplain—The Rev. Albert Desbrisny; Principal—The Rev. Humphrey Pickard, A. M.; English Master—Thomas W. Wood: French Tutor and Assistant in the Classical Department—Joseph R. Hea; Treasurer-Charles F. Allison; and a Commit-

Madras School .- The Governor and Trustees of the Madras School in New Brunswick, are, the Lieutenant Governor, or Commander in Chief, the Bishop, the Executive Council, the Judge of the Admiralty, the Speaker of the Assembly, the Mayor and Recorder of St. John, the Ecclesiastical Commissary of the Province, the Rector and Church Wardens of Trinity

Church St. John; together with three others. Treasurer

-Robert F. Hazen; Clerk—James Wm. Boyd.
General—John Howe; Surveyr—W. W.
Barmard; First Clerk—James M. Hopley, and two

additional Clerks.

ST. JOHN CHAMBER OF COMMERCE .- President-Hon. John Robertson; Vice-Presidents—John Duncan and John V. Thurgar; Secretary and Treasurer—Robert Jardine; and a Committee of fifteen, including the members of the Assembly, for the City and County of St. John.

Imports into and Exports from New Brunswick.

The following Table gives no returns of the value of the Exports from St. Andrews and its Outbays. Even were we to assume a sum as the probable amount, the Imports | 061 tons British, and 6,294 tons American.

would far exceed the Exports, for the whole of the Province. The statement shows an increase of Imports into the Province in 1847 over 1846, of £50312 stg. The Exports from St. John in 1847, fall short of the amount in 1846, by £178130 sterling. There is a great falling off in the Export Trade to every place except to the United States, which shews an increase of £29624 the Childed States, which shows an increase of in 1847 over 1846,—but this is very trifting indeed, compared with the aggregate decrease. Supposing the Exports from St. Andrews to be equal to the Imports, the deficiency in value of the Exports from the Province in 1846, compared with the Imports in that year, will the appearance Child State while two others about the same but the property of the same but the property of the same but the province of the same but the sam in 1340. Compared with the Imports in that year, will then amount to £108/941 stg., while upon the same hypothesis, the deficiency in 1847 in the value of the Exports compared with the Imports for that year, will amount to £437,009 sterling.

The Imports to St. John, for the half year ending 5th July, 1849, were £253,556, sterling. Of these £126,033, sterling, were for British, and £97,055, sterling, for United States goods. Of the latter £19,021 were imported in American, and £78,034 in British vessels. The Imports from the United States, for the corresponding half year of 1848, were £97,211, sterling. The Exports from \$2. John for the half year ending 5th July, 1848, were £139,162, and for the corresponding half year of 1840 they were £142,068. The Export ing nair year or 1839 they were £112,005. The Export of Timber, for the same period in 1848, was 61,000 tons, and in 1849, 35,520 tons. The Export of Deals for the same periods compare as follows:—1849—43,124 feet; 1849—43,127 feet. The difference in quantity is small, but there is a great depreciation in value. The vessels and tonnage for the same period compare as follows: Ducards, 1848-751 vessels, 141,707 tons, viz., 130,831 tons British, and 10,861 tons American: 1849-634 vessels, 110,579 tons, viz., 103,666 tons British, and 6,913 tons American. Outcards, 1848-705 vessels, 137,494 tons, viz., 127,119 tons British, and 10.375 tons American: 1849-605 vessels, 112,355 tons, viz., 106,-

Superior Courts, U C .- The Act 12 Nic. cap 63' regulates the establishment of two Superior Courts of Common Law, viz : the Court of Queen's Bench and the Court of Common Pleas, and also a Court of Error the Court of Common vieas, and also a Court of Error and Appeal, in Upper Canada. It abolishes the former Practice Court. The Act 12 Vic, cap 64, regulates the establishment of the Court of Chancery in Upper Canada. The Courts of Queen's Bench and Common Plans, the Page 18 pages 18 Pleas, shall each be presided over by a Chief Justice and and two Puisne Judges, and the Court of Chancery by a Chancellor and two Vice Chancellors; while the Court of Error and Appeal shall be composed of the Judges of the Courts of Queen's Bench, Common Pleas, Judges of the courts of categor's behavior and Chancery. These courts all sit at Osgoode Hall, Toronto. The Judges shall have rank and precedence in the following order, viz: first, the Chief Justice of the Court of Queen's Bench; second, the Chancellor; third, the Chief Justice of the Court of Common Pleas; and fourth, the Puisne Judges and Vice Chancellors, according to seniority of appointment. Hitherto there were five judges in the Court of Queen's Bench, two of whom are to be transferred to the Court of Common whom are to be transferred to the Court of Common Pleas; but the appointments to this latter court have not as yet been made, (October 1849). The subjoined lists therefore shew at present five judges in the former and none in the latter, but the necessary changes and additions will be made before the close of 1849. The Judges shall be appointed by the Crown, from Barristers of at least ten years' standing, and shall hold their of at least ten years' standing, and shall not their offices during good behaviour, removable upon an address of both Houses of the Provincial Parliament, subject to Appeal to the Queen in Privy Council. The salaries of the Chief Justices and Chancellor are £1,250, currency, each, and those of the Puisne Judges and Vice Chancellors, £1,000, currency, each. This does not apply to the present Chief Justice of the Court of Queen's Bench, who retains his usual salary Court of Queen's bench, who retains his usual salary of £1,666, 13s. 4d. currency; or to the senior Vice Chancellor, who retains his former salary of £1,256, currency. The Courts of Queen's Bench and Common Pleas, shall have each a Clerk of the Crown and Pleas, at a salary of £400, currency, who shall each appoint a senior and junior Clerk, each senior to £250, currency, and each junior £150 cursalary. The present Clerk of the Crown and rency, salary. The present Clerk of the Crown and Pleas to receive £750, currency, salary, as compensation for the deprivation of his usual emoluments. The Several Clerks of the County Courts shall be ex officion Deputy Clerks of the Crown and Pleas. The present Deputy Clerks of the Crown are, nevertheless, continued in office during pleasure—(see the lists of county of the count officers, p. 68)—their remuneration to be fixed by the Governor in Council. There shall be a Master and also a Registrar, in the Court of Chancery, the latter to be ex officio Clerk of the Court of Error and Appeal. He is also empowered to appoint one Clerk. The salaries are, to the Master £500, to the Registrar £400. and to the Clerk £125, currency, per annum. All the fees of these courts are to be paid into the consolidated fees of these courts are to be pand into the consolidated fund, out of which all the salaries are to be paid. The circuits are to be held twice a year in each county, between tiliary and Easter terms, and between Trinity and Michaelmas terms, except in the County of York where there shall be three in each year, to commence on the first Monday in January, May, and November, respectively. An annuity equal to two-thirds of the salary may be caused for 160 to any ladge on rigiting fram the Blonch. granted for life to any Judge on retiring from the Bench, after fifteen years' service, or on account of some permanent infirmity disabling him from the due execution of his oflice.

COURT OF QUEEN'S BENCH, U. C. Chief Justice—Hon. John Beverley Robinson; Puisne Judges—Hons. James B. Macaulay, Archindid McLean, Wm. H. Draper, and Robert Baldwin Sullivan. CLERKS OF ASSIZE.—W. A. Campbell, ——Horne, Thomas McLean, W. J. Draper, and ——Heyden. CROWN OFFICE,—Clerk of the Crown and Pleas—Charles C. Small; Clerk in Court—John Radenhurst; Clerk in Practice Court—Win. B. Heward; Office Clerks—

Wm. H. Coxwell, Thomas Coxwell, Robert Pearson, George Goldsmith, and Wm. Innes. Reporter to the Court.—J. Lukin Robinson. LT There must be alterations in this Court and officers—see Superior Courts above for explanation.

COURT OF CHANCERY, U. C.—Chancellor—the Hon. Wim. Hume Blake; Vice Chancellors—the Hons. Robt. S. Jameson, and James C. P. Ester: Master—John G. Syragge; Registrat—Andrew N. Buell, Reporter—Alexander Grant. The sittings are four in the year, each lasting for two weeks, and commencing respectively on the second Mondays in January and April, and the first Mondays in July and December. Long vacation from 15th August to 1st October. Court days Tuesdays and Fridays.

COURT OF COMMON PLEAS, U. C.—Appointments not yet made—(Oct. 1849)—see Superior Courts above.

COURT OF APPEAL, U. C.—The Judges of the Courts of Queen's Bench, Chancery and Common Pleas.

COURT OF PROBATE, U. C.—Official Principal— Secker Brough, Toronto; Registrat—Charles Fitz-Gibbon, Toronto. For Surrogates and Registrars see County lists,—p 69.

COUNTY COURTS, U. C.—For Judges and Clerks see county lists, p 68. These Courts are presided over by Barristers of a cleast five years' standing, and have eriginal jurisdiction in civil matters to the extent of £25, currency, in cases of open account, and £50, currency, in cases of notes or bills, &c., with trial by Jury. Appeals allowed to the Courts of Queen's Bench or Common Pleas.

Division Courts, U. C, are held in different places in each county by the County Judge, for the summary disposal of cases not exceeding £10, currency, in amount. A Jury is permitted, in certain cases, but seldom applied for. Attachments against personal property, of concealed or absconding debters, from one county to another, or from the Province, to avoid service of process, with intent to defraud, may be issued by the Clerk of the Division, or by the Judge, or any Justice of Peace. We trusted to have given the limits of the several divisions in each county, and the names and residences of the various clerks, but have been disappointed. We trust to be more successful another time.

INSOLVENT DEBTORS' COURT, U. C.—The County Judge in each County presides in this Court for the relief of Insolvent Debtors. The Bankrupt Court is aboutshed.

Quarter Sessions, U. C.—Chairman—the County Judge in each County, who with one or more Justices of the Peace, holds a Contr of Quarter Session in his county four times a year, for trials by Jury in cases of lareny, misdemeanour, and other minor offiences. The Courtalso grants Tavern Licences, and has the supervision of accounts in the county, relating to the administration of Justice, &c.—Sittings—first Tuesday in January, April and July, and third Tuesday in November, with power of adjournment.

Here and Divisee Court, U.C.—Commissioners—the Judges of the Court of Queen's Beach, the Vice Chancellor, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to Lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto first Monday in January and July in each year. Clerk to the Commissioners—Win, H. Lee, Executive Council Office. See Act. 8 Vic. cap. 8.

II. Lower Canada.

The Bar of Lower Canada.—All Advocates, Barristers, Attorneys, Solicitors, and Proctors at Law, in Lower Canada, are Incorporated—(see Act 12 Vir. cap, 46)—under the name of "The Bar of Lower Canada," The corporation is divided into three sections, Viz.; one for each of the Districts of Montreal, Quebec, and Three Rivers; the members of the profession residing in the District of St, Francis, forming part of the section of Three Rivers; and those residing in the District of Gaspe, forming part of the eaction of Quebec.

SUPERIOR COURTS, L. C.—The Act. 12 Vic. cap. 38, abolishes the Courts of Queen's Bench in the several Districts of Lower Canada, and the offices of resident Judge of Three Rivers, and Provincial Judge of St. Francis. It then establishes for Lower Canada a Court called the "Superior Court," to consist of a Chief Justice, and nine Puisne Judges; four of whom shall reside at Montreal, four at Quebec, one at Three Rivers, and one at Sherbrooke. The appointments to be from the existing Julges of the Queen's Bench, or Advo-cates of ten years' standing. This court has original civil jurisdiction throughout Lower Canada, except in Admiralty cases, and cases which, by the Act are expressly confided to the Circuit Courts. Appeals are allowed to it from the inferior courts. This act continues the numbers and boundaries of districts in Lower Canada, for the administration of justice as formerly, viz: the Districts of Quebec, Montreal. Three Rivers, St. Francis and Gaspe—except that two new districts are authorised by it, viz: "Kamouraska," to comprise the counties of Kamouraska and Rimouski, and "Ottawa" to comprize the county of Ottawa, when-ever a gaol and court house shall be erected at Kamouraska and Aylmer respectively, and proclamation thereof issued. Circuit Judges when in Gaspe shall be Judges of the Superior Court; and also out of term in Kamouraska and Ottawa. The terms are, at Montreal and Quebec, from 1st to 20th April; 1st to 20th Sept., and 1st to 20th December: Three Rivers, from 12th to 25th February; 1st to 14th June, and 1st to 14th November: Sherbrooke, from 20th to 31st January; 16th to 27th July: Perce, from 21st to 30th August: New Carlisle, from 4th to 13th September. The sittings at Perce and New Carlisle form only one term. The "Superior Court' has criminal jurisdiction in the District of Gaspe, to be exercised in term there. The appointments to the Superior Court have not yet been made-(October, 1819.)

CIRCUIT COURTS, L. C.—These courts, by the same act, have original civil jurisdiction, to the extent of £50, currency. The Judges must be Barristers of at least five years' standing. In cases not exceeding £15, or not relating to property titles, the proceedings shall be summary; and if the value shall not exceed £65s., then the suit shall be determined according to equity and good conscience. In cases exceeding £15 an appeal is allowed to the "Superior Court" of the dis-The Circuits are to be held as follows, viz. :-

FOR THE DISTRICT OF QUEBEC-at Quebec, on the last six juridical days of each month, except August: Rist six juridical days of each month, except August. St. Thomas, from 18th to 22th of each of Feb., June, and Oct. 38 access, in the parish of St. Marie, from the 1st to the 10th of each of feb., for a cach of feb., fo March, July, and November: Leeds, from 16th to 25th of February; 19th to 28th June: and 20th to 29th Oct: Lothiniere, from 18th to 22nd of each of March, July, and November : Portneuf, in the Parish of Cap Sante, from 7th to 16th of each of January, May, and Sept: Saguenay, in the parish of Les Eboulements, from 1st to 10th of each of March, July, and October: Chicontini, at the Village, on the last six juridical days of January, February, May, June, September, and November.

IN THE DISTRICT OF MONTREAL—In Montreal on the last six juridical days of each month, except August: Berthier, from 21st to 30th of each of January, August: Berthier, from 21st to 30th of each of January, May, and September: St. Pierre de L'Assumption, from 1st to 10th of each of March, July, and November: St. Louis de Terrebonne, from 12th to 21st of each of March, July, and November: St. Reniot, Two Mountains, from 7th to 16th of each of January, May, and September: Aythuer, Ottawa, from 20th to 24th of each of January, May, and September: St. Michel de Vaudreuil, from 1st to 10th of each of March, July, and November: St. Martine, Beaubarnois, from 12th to 21st of each of March, July, and November: St. John the Evangelist, from 10th to 19th of each of February, June, and October: Nelsonville, in the Township of Durham, Missisquoi, from 21st to 30th of each of Feb., June, and October: St. Hayacinthe, from 10th to 19th of each of Feb., Inc., and October: St. Durs, Richelien, from 21st to 30th of each of February, June, and October: St. Ours, Richelien, from 21st to 30th of each of February, June, and October. and October.

IN THE DISTRICT OF THREE RIVERS-At Three Rivers, on the last six juridical days of each of March. May, June, September, November, and December.

In the District of St. Francis-At Sherhrooke, on the last six juridical days of each of Feb., March, June, September and October; and on the first six juridical days of December: Richmond, in the township of Shipton, from 10th to 19th of each of March and Sept .. Stanstead Plain, from 15th to 24th of each of May, and November.

IN THE DISTRICT OF GASPE.—At Perce, from 1st to 10th of each of March and November: at the Hasin of Gaspe, from 15th to 24th of each of March and Nov.: at Grande Riviere, from 1st to 10th of each of April and December: at Amberst Harbour, Magdalen Islands, from 1st to 10th of July: at New Carlisle, Bonaventure, from 15th to 24th of each of May and December: at Carlton, Honaventure, from 15th to 24th of each of January and July: and at the Mission at Ristigouche. Bonaventure, from 27th January, to 5th February, and from 27th July to 5th August.

The total number of Circuit Judges in office at any one time shall not be more than nine, and the salary of each shall not exceed £550 a-year, to be in lieu of all of each shall not exceed 2000 a year to be to other-fees, &c., whether for travelling expences or other-wise. The Circui Judges shall be Chairmen of the Quarter Sessions. The District Judges in Gaspe shall

henceforward be called Circuit Judges.

COURT OF APPEALS, L. C., called the "Court of Queen's Bench," L. C., has appellate civil jurisdiction, and also the jurisdiction of a Court of Error; and original jurisdiction in all criminal matters throughout Lower Canada except such as are cognizable only by the Court of Admiralty. "The Court of Queen's Bench" Lower Cathan except success and Cagaca and Cagaca. Court of Admiralty. "The Court of Queen's Bench" was thus established by the Act 12 Vic cap 37: It shall consist of four Judges, viz., a Chief Juscice, and three Puisne Judges, appointed by the Crown, from those who were either Judges of the former Queen's Bench, who were either Judges of the former Queen's Bench, or Judges of the Superior or Circuit Courts, or who are Advocates of at least ten years' standing. They shall reside either at Quebec or Montreal, and there must be reside either at detect of influence, and there insistes one of them at least at each of those places. There shall be two terms of the Court of Error and Appeal held each year in Quebec and in Montreal, viz., at Quebec from 7th to 18th January, and from 1st to 12th July; and at Montreal from 1st to 12th March, and from July and a minimal form is to remain the state of the Court in Cartain cases to the Queen in Privy Council. There shall be two terms of the Crimbual Court held in each District yearly, except Gaspe, viz: at Quebec on 20th January, and 14th July: at Montreal on 14th March, and 14th October: at Three Rivers, on 2nd February and 11th September: at Sherbrooke, on 12th February, and 1st September. The terms shall continue in each place until the business shall be brought to a close. Judges are not yet appointed. (October, 1849.)

Those who are desirous of attending particular courses of Lectures, although not members of the University, may be admitted as occasional students, but such attendance will not be regarded as a qualification for a degree. In October, 1846, the College Council established seventy-two Scholarships; three for each of the Districts into which Upper Canada be divided, six for Upper Canada College, and six for the University. They are tenable for three years; and the advantages to be enjoyed during that period are, by the District and U. C. College sholars, exemption from all dues and fees; and by the University scholars, in addition to the above, the privilege of rooms and commons without charge. The Examination takes place in October.

N.B.—The statement given above represents the arrangement at present (October, 1849,) existing in the University, but considerable changes will be made at the 1st January, 1850, when the new act comes into operation.

Election Law of Canada.

cities and towns of their districts: For Counties, the Registrar of deeds. In Upper Canada, High Sheriffs of districts to be ex officio Returning Officers for counties and Ridings within their jurisdiction, and in which they shall reside, and also for cities and towns within such counties and ridings. For other counties the Registrars of Deeds therein to be ex officia Returning Officers, Provided that the High Sheriff of the Home District shall also be returning Officer for the West Riding of York; and the Registrar for the County of York Returning Officer for the East and North Ridings thereof. Polls are to be held in the several Townships, Parishes, or Wards, but not in a Tayern. A Desulp, ratisfies, of Wales, on Internal Faccine Appliparty Returning Officer to be appointed for each poll. In Upper Canada, Township Clerks are to be the Deputies; and failing them the Assessors, or Collectors. Three polling places to be appointed for each of six populous wards of Montreal, as well as for St Roch, and St John in Quebec. Each elector is to vote at the poll of the subdivision within which his property qualipoll of the subdivision within which his property qualitation shall lie. No poll to be held on a Sunday, New cadar months before the date of the writ, it will be sufficient on the property, and the Ascension, Corpus Christi, St Peter and St Paul's Day, All-Saint's Day, the Congus Christi, St Peter and St Paul's Day, All-Saint's Day, the Conception, or rial Deed, for twelve months before the election, to be Christmas. Polls to be open for two days, In the Townships of Waterloo, and Wilmot, in the County ance to wife after morths, or husband in possession of mecessary for one or two days longer. Armed persons are not to approach the polls; and flags, colours, Avoter on property, in city or town, to have a lot of bages, and weapons, are prohibited. Returning Offi—

12 Vic Cap. 27, for the regulation of Elections of cers, and their Deputies are conservators of the peace; Members to the Legislative Assembly. Sheriffs in and all Justices, and others, are required to assist them Lower Canada to be ex officio Returning Officers for all in maintaining it. Heavy penalties are inflicted for a violation of the provisions of the act, and for bribery, corruption, false voting, fraudulent conveyance to make voies, perjury, threatening electors, treating, &c. A Candidate at any election must be possessed of freehold property in the Province, to his own use and benefit of the value of £500 sterling, over and above all rents, mortgages, charges, and incumbrances. A voter reus, mortgages, charges, and incombrances. I voter at a county election must possess real property of the clear yearly value of 44. 54d, currency, the title to which to be in fee simple, or in freehold, or in fref, or in roture, or in frane allew, or derived from the Governor and Conneil of the tate province of Quebec, or Actof Parliament. The must have been in the actual and uninterrupted possession, or in receipt of the rents and profits of the property, for his own use and benefit, at least six months before the date of the Writ of Election. If the property shall have come by inheritance, devise, marriage, or contract of marriage, such ante-rior possession is not required; or if in *Upper Canada* the deed, or Crown Patent be registered for three calof £3 lls, 1½d, currency, in fee simple or in freehold; derived, as in the previous case, and with the same conditions as to possession, registry, &c, A tenant voter, in city or torn, must have occupied by actual residence, as a separate tenant, a dwelling house, or houses, part or parts of houses for twelve months, of the yearly value of £11 2s, 1½d., currency, and have paid a year's rent, or that amount of money for the twelve months just preceding the date of cleriou writ. twelve months just preceding the date of election writ. A person holding only a shop, or place of business, but not actually residing in it, not qualified to vote. A voter having changed his residence within the town during the year does not affect his right to vote, but must vote in the ward in which he resides on the day. Occupier of dwelling house, provided for him by Government, civil or Milliary, or by any Incorporated body, or Society, not entitled to vote on such occupants. tion, unless such party shall have contracted to pay, and

bana fide have paid one year's rent for the same. property lies partly in one County or Riding, and partly in another, the voteshall be taken for the county for which the election is held; and when property is situated partly within one polling place and partly in another the elector may vote at either. A proprietor in a town or city, whose lot is partly within and partly mither the limit. without the limits cannot vote, unless the "dwelling house" be wholly within the limits. In Louer Canada only where one shall have the right of property and another the susfructuary enjoyment for his own use and benefit, the latter only shall vote. Joint ten-ants or tenants in common may each vote, if his individual share he the proper value; shareholders in Incorporated Companies excepted. British subjects only of the full age of twenty-one years are allowed to vote. Deputy Returning Officers may administer oath of allegiance.

& Co; Burin, William Hooper.

ERRATA.

In a portion of the Edition "Lambton" is omitted. On p 33 read "1. Essex, Kent and Lambton." Also on p. 31 read "2, Essex, Kent, and Lambton." The omission of "Lambton" renders a correction of the contents of Townships in "Essex, Kent and Lambton" necessary as follows, viz.: Essex contains Anderdon, Colchester, Carfield Maintena Maint of forthering in "Essex, Kentand Lambion" necessary as follows, viz.: Fasex contains Anderdon, Colenester, Gosfield, Maidstone, Mersea, Maiden, Rochester and Sandwich. Kent contains Canden, Chatham, East Dover, West Dover, Harwich, Howard, Orford, Raleigh, Ronney, East Tilbury, West Tilbury and Zone. Lambton contains Brooke, Dawn, Bosanquet, Emiskillen, Euphenna, Moore, Plympton, Sarnia, Sombra and Warwick. This also affects the Table, on pp. 36-37, as regards the Townships in "Lambton," also West Tilbury in "Kent," p. 31, for "William Jones," read "H. Glass," Chatham, Registrar for Kent and Lambton. Orait "Elgin—Frontenac," on p. 35, in the alphabetical list of Townships.

DR. JAMES HOPE'S VEGETABLE PURIFYING HEALTH ILLS.

DEAR SIR.—You may very safely and with every confidence recommend the above PILLS as a very superior Medicine in cases of

Indigestion, Bilious Attacks, Sick-Headache, Giddiness, Loss of Appetite, Lowness of Spirits, with sensation of Fuiness at the Pit of the Stomach. Pains between the Shoulders, Acidity in the Stomach and Bowels, Flatuency, Spasms, Heartburn, Giddiness, Dimness of Sight, Drowsiness, and the Distressing feeling arising from Debility and Indigestion;

-Are speedily removed by the use of DR. HOPE'S PILLS. They are the very best remedy, and can be taken at any time, without any danger from Wet or Cold, requiring no restraint from business or pleasure; they act mildly on the howels, without pain or griping, giving strength to the stomach, and promoting a healthy action of the liver, by which they prevent and cure Jaundice and Dropsy, clear the skin, remove Sallowness and Pimples, purify the Blood, brace the Nerves, and invigorate the whole System. Females at a certain age should never be without them. BUTLER & SON, Cheapside, London.

From what I know of the above Pills, I can unhesitatingly recommend them as a Valuable

Medicine, especially for the Diseases mentioned above.

S. F. URQUHART, Yonge-street, General Agent in British North America.

Explanation of the Articles in the Calendar.

THE SON'S DECLIFACION IS given for mean noon at Toronto, for every day: the difference for mean noon for any other place in the British Provinces, will rarely amount to one minute.

Apparent Noon, Showing the Equation of Time.—This column contains the mean time corresponding to the apparent noon on each day, or the hour which should be shown by a clock or which at Toronto, when a Sun-dial marks twelve o'clock. Its error at any other place in the British Provinces will rarely amount to one second.

Son Risting and Setting.—The mean time of the Sun rising and setting is given for every day for Toronto and and Montreal, and will be found given for every tenth day at Quebec, Halifax, and Fredricton, by referring to the Table at page 58. If the time is wanted for any intermediate day, enter the table of Semi-diurnal Arcs (page 53) with the Sun's declination for that day, the value given, subtracted from, or added to, the mean time of apparent noon, will give the hour of rising or setting.

The Monn's Rising on Serving is given for every day at Montreal and Toronto: the time of signing being when she sets during daylight; and the time of setting when she rises during daylight. The time given for Montreal will never be more than four minutes in error for Halifax, three minutes in error for Fredricton, and five minutes in error for Quebec; and it is, therefore, mar enough for ordinary reference at those places.

The Planets, -The hour of meridian passage, right ascension and declination of each of the principal planets, is given for the 1st and 15th of each month. (m signifies morning.)

The Pole Star.—The time when the Pole Star is on the meridian, is given for the 15th of each month, being the bur when it is due north. U, signifies Upper Culmination—L, signifies Lower Culmination. The greatest elongation of the Pole Star from the meridian, varies with the latitude of the place: it is about 2 deg. 4 m. at Toronto, 2 deg. 8 m. 5 s. at Montreal, increasing at the rate of 1 m. 5 s. for every degree of latitude between 40 deg. and 50 deg. To find the hour when it is on the meridian at any other due, untility 3 m. 55 m. 9 s. by the interval in days,—add the product, if for a date before the 15th; subtract it, ji for a date after the 15th.

Twansur begins in the morning, when the Sun is about 18 degrees below the horizon, and emas in the evening, when it is eighteen degrees beyond it. The mean time for beginning and culture for every tenth day will be found at page 56, together with the time of the Sun's rising and setting at Quebec, Fredricton & Haiffax.

SEMI-DIDRAL Arcs.—This table is useful for determining the times of rising and setting of the heavenly bodies. Enter the table with the declination of the object; under the proper column for the bendity will be found half the time which the object remains above the horizon, which is to be subtracted from the time of its me idian passage, if the time of rising is required, or added, for the time of setting.

Example -- Required the time of rising for the Planet Jupiter, at Montreal, June 16th, 1851, Declination of Jupiter 7 deg.

Corresponding to which we find the semi-diarnal arc 6 28.5

Jupiter on meridian 5 28.7

Jupiter rises 11 00 (a.)

The Matsorological Notices for this year are derived from a journal kept with great care from 1831 to the present time, by the Rev. C. bade, in or near Toronto, and kindly communicated by that gendeman, with accompanying remarks, of which we have freely availed ourselves. We regret that our limits have not permitted anything like a full use of the valuable and elaborate cables in which the results of his observations are embadied. At contributions towards a juster knowledge of the climate of Upper Canada are valuable in themselves, and will be regarded with interest for the excession they give to the public records of H. M. Observatory, to which we have in previous Almanaes and recourse. The present series, however, has the peculiar advantage of having been commenced using years before the date of that establishment, and continued to several years contemporaneously with it. Such fictions as the crossing Loke Ontario on an ice-boat (De Rool's Tracels p. 11-23) are perhaps not other related by travellers of the present day, but exaggerations scarcely letter founded have a storage of the canada are accounts of corgraphy writers, who referred exclusively to Quelce and its neighbourhood. There can be little do by that this misrepresentation has hid an injurious effect by discouraging a valuable class of intending settlers; it is therefore important to seize every occasion of correcting it by showing to such parties that there is nothing in the climate of Upper Canada which need be viewed with apprehension by mives of Creat Britain.

Lowest and Tighest Realings of Thermometer at 8, A.M., and Noon, together with the approximate Mean Temperature for each year since 1831 at Toronto.

Year.	Lowest.	lighest.	Mean.	Year.	Lowest.	llighest.	Mean.	Year.	Lowest.	Highest.	Mean.
1831 1832 1833 1331 1835	-16 -20 -10 -2 -15	64 84 84 86 93 84	40.7 42.2 42.4 43.3 42.0	1936 1937 1838 1839 1940	-20 - 9 - 4 *	85 82 89 *	40.0 41.0 42.5 * 43.7	1941 1842 1843 1814 1845	-2 +3 -6 -8 -2	90 87 92 85	41.1 41.1 42.8 41.6 41.3

The approximate means are derived from observations at 8 a. m. alone, and are below the true mean of the twenty-four hours by 1.3 deg. on an average of seven years, which quantity must there'ore be added to all of them. The lowest and highest temperatures are also within the true extremes, which would be better given

SCOBIE'S CANADIAN ALMANAC.

by observations at at 7 and 3 p. m. Taking the number of days in each year in which the thermometer at 8 a. m. indicated frost, we have the following distribution:-

Year.	Zero or below,	0-10	10-20	20-32	Total.	Vear.	Zero or below.	0-10	10-27	20-32	l'ota L
1831 1832 1833 1831 1835	8 6 7 2 16	22 19 11 11 11	37 21 28 33 21	43 67 66 70 53 80	713 112 113 116 106 140	1507 1508 1500 1 40 1541 1612	9 * * 9 6	10 * * 9 8	31 * * 23 27 21	71 * * 60 63 68	124 * 101 104

The average of which is 112 days of frost at 8 a. m. during the year. The winds at Toronto are divided into three prevailing classes, namely North-west, South-west and East; the first prevail most from November to three prevailing classes, namely North-west softm-west and East; the first prevail most from Rovenher to March, and with this wind the greatest degree of cold takes place, and the greatest variations of temperature. The south-west wind prevails from May to October, and brings the greatest heat. Easterly winds predominate in March, April, May, June, August, September and October, and are accompanied by rain or snow. The average number of observations for each mouth is as follows :-

моктив.	v.w.	s. W.	E.	MORTHS.	N.W.	s. w.	E.	MONTHS.	v.w.	3. W.	E.
January	13	9		May		12		September	6	12	1:2
February	11	9		June		12		October	11	12	11
March		10		July August		14		November		10	9

giving an average of 97 days from N W, 139 days from S W, and 329 days from E. Taking broader division again, Westerly winds are to Easterly in the proportion of 236 to 129, or as 9 to 5 pearly. The average number of days of rain and snow in the several mouths is given in the next table, together with the average quantity of rain which was received in the observer's rain guage; there can be no doubt, however that this quantity is much too low for the station. We have annexed to Mr. Dade's results the average quantities given in the Canadian Almanac for last year; the former comprise the years from 1831 to 1841, and give an average annual onarrity of only 22.02 inches; the latter from 1840 to 1848, and give an average annual quantity of 32.90 inches.

The state of the s	Inches	of Rain.	No. of	Days.	MONTH.	Inches	of Rain.	No. of Days.

We must conclude these notices by a short account of the winters of 1-35-6 and of 1841-2, which were We must conclude these notices by a short account of the winters of 1-35-8 and of [S11-2, which were extremes of their respective kinds, and well adapted to ilbustate the fluctuations of the climate of Upper Canada. The winter of 1835-8 may be said to have commenced Nov. 22nd, with therm, at 23 deg., gale from East and heavy snow. On Dec. 1, Toronto bay was frozen over, being about a fortnight earlier than usual. The temperature of Dec. was as follows:—3 days below zero: 9 between 40 deg, and 20 deg; 15 between 20 deg, and 3 deg, to 40 deg. January 1828 was not remarkable for severity, the minimum being only 3 deg, and maximum 15 deg; this mildoess was however commensated by the rigour of the succeeding month, in which there were no less than seven days below zero, and only one above the freezing joint at 8 a.m. The minimum was 20 deg. and the range of the maximum daring the mouth 63 deg. in the shade. The following table gives the temperature for the first six days of February 1835, at the hours of 8 a.m., noon, and 5 p. m., the wind being N W the whole time. wind being N W the whole time.

1536.	3 n. m.	Noon	5 p. m.	1336,	8 a. m.	Noon.	5 p. m.
					0	0	
February 1	-7	Zero.	-3	February 1	-10	- 1	Zero.
2	-13	Zero.	3	. 2		-28	10
44 3	2	1 11	1 19	3	1.7		-

March was likewise unusually severe. On April 2nd the ice in the bay was 2½ feet thick, and about the middle of the month, a vessel in crossing from Niegara fell in with a large field of ice in the open lake. There was a heavy snow storm on the 13th, and the bay was not the rof ice until the 25th of April. This winter may be said to have continued 155 days, which may be classed as follows. Temperature at 8 a. m.

At or below zero. . . . 13 days, 32 deg. to 40 deg. . . . 25 days.

9 deg to 10 deg. . . 15 " . . 40 " 10 50 " . . . 4"

10 " 10 20 " 25 " 50 " 10 60 " . . . 1"

Desting the whole period there foll no most them.

Darling the whole period there fell no more than 13 inches of rain; the number of days of snow was 24, of which 13 were due to February alone. We have here then an example of the unmost rigour of the winter of Upper Canada. In contrast to 1835, the lowest temperature of the winter of 1811-2, at 8 a. m., was 5 deg., and on Feb. 23, at noon, the therm, stood at 55 deg. Fig and rain early, then fair, with warm close weather. On Jan. 29 was the unusual occurrence of thunder with heavy showers, as also on Feb. 4. The ice was gone from Toronto bay on the 17th March, and the spring was proportionably advanced. On the other hand, this mild winter was followed by a cool summer, the mean temperature of May. June and July having each been below. winter was followed by a cool summer, the mean temperature of May, June and July having each been below the average, and that of June the lowest observed.

Majesty's Magnetical abservatory, Toronto. - Director - Captain J. H. Lefroy, R.S. Establishment-Four Non-Commissioned Officers of the Royal Artillery, as Assistants. R.A., F.R.S.

COURT OF PROBATE, U. C.—Official Principal—S.
Brough, Toronto; Registra—C. FitzGibbon, Toronto.

Division Courts, U. C.—For the summary disposal of cases by the County Judges. In certain cases juries are granted. Courts are held once in two months in each division, or oftener, at the discretion of the judge.
The Divisions are established by the court of Quarter Sessions. (For Divisions established, see Municipal Manual for U. C.) The jurisdiction of the court extends to cases of debt or account, or breach of contract or covenant, or money demand, whether payable in money or otherwise, where the amount or balance money or otherwise, where the amount or manner claimed does not exceed £25, and all torts to personal chattels to the amount of £10. (A plaintiff may not divide his claim, so as to bring it by more than one suit within the jurisdiction of the court, but he may abandom the excess, provided the amount in dispute does not exceed £50, and thus sue for the restricted amount of £25.) Suits to be tried in the Division where the defendant resides, or the delth, &c., was conamount of £2.5. Saits to be tried in the Division where the defendant resides, or the debt, &c., was contracted. Servants under age may sue for wages in this court. Judgments recoverable against goods and chattels in certain cases. Where judgments exceed £10, it will affect lands. Attachments may issue against the will affect lands. Attachments may issue agreement goods and chattels of absconding or concealed debtors, going from one county to another in Upper Canada, or leaving the Province. The Act

going from one county to another in open canada, or to Lower Canada, or leaving the Province. The Act takes effect from the lst of January, 1851.

COUNTY COURTS, U. C.—Presided over by a resident Judge in each county. The jurisdiction of the court extends to all causes relating to debt, covenant or contract, to the amount of £50; and in causes of debt or contract, where the amount is ascertained by the signacontract, where meanount is ascertained by the signa-ture of the defendant, to £100; and also in all matters of tort relating to personal chattels, where the damages shall not exceed £30, and where title to land shall not be brought in question. The plaintiff at his option may be brought in question. The planniff at his option may bring these suits in the courts of Queen's Beach or Common Pleas, but County Court costs will only be allowed. For County Judges and other officers, see County Lists, page 33 et seq.

INSOLVENT DEBTORS' COURT, U. C.—The County

Judge in each County presides in this court for the

Judge in each County Pressure relief of Insolvent Debtors.

QUARTER SESSIONS, U. C.—Chairman—the County Judge in each County, who with one or more Justices of the Peace, holds a Court of Quarter Session in his county four times a year, for trials by Jury in cases of larceny, misdemeanor and other minor offences. The Court also grants Tavern Licences, and has the supervision of accounts in the county, relating to the administration of Justice, &c. Sittings—first Tuesday in J muary, April and July, and third Tuesday in Novem-

Her, with power of adjournment.
Here and Divises Court, U C.—Commissioners—the Judges of the Court of Queen's Beach, the Vice Chancellor, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to Lands in Upper Canada, for which no patent has issued from the Grown in favour of the proper claimatist, whether as heirs, devisees, or assignees. Sittings at Toronto first Monday in January and July in each year. Clerk to the Commissioners—W. II. Lee, Executive Council Office.

II. Lower Canada.

The Bar of Lower Canada.—All Advocates, Barristers, Attorneys, Solicitors, and Proctors at Law, in Lower Canada, are incorporated—(see Act 12 Vic. cap. 46)—under the name of "The Bar of Lower Canada." The corporation is divided in a three area. The corporation is divided into three sections, viz : one for each of the districts of Montreal, Quebec, and Three Rivers. The members of the profession residing in the District of St. Francis, form part of the section of Three Rivers; and those residing in the District of Gaspé, form part of the section of Quebec.

Court of Queen's Bench, L. C.—This Court has appellate civil jurisdiction, and the jurisdiction of a Court of Error. It has also original jurisdiction in criminal matters, except in Admiralty cases. The Court consists of a Chief Justice and three Puisne Judges, residing at Quebec and Montreal. There are two terms of the Court of Error and Appeal, held yearly at each place of sitting, viz., at Quebec from 7th to 18th January, and from 1st to 12th July; and at Montreal from 1st to 12th March, and from 1st to 12th October. In some cases an appeal from this Court, to the Queen in Council, is allowed. There are also two terms of the Criminal Court held in each District yearly, except Gaspe, viz: at Quebec on 29th January, and 14th July: at Montreal on 14th March, and 14th October: at Three Rivers, on 2nd February and 11th September : at Sherbrooke, on 12th February and 1st September. In Gaspe brooke, on 12th rebruary and 1st September. In Gaspie the Circuit Judges exercise criminal jurisdiction, in term. (See Act 12th Vic. cap. 37 and 38.) Chief Justice.—Hon. Sir James Stuart, Bart Judges—Hon. Jean Roch Rolland; Hon. Philippe Paret; Hon. Thomas Cushing Aylwin. Clerk of Appeals—J. G. Barthe.

Supernor Court, L. C.—This Court consists of a

Chief Justice and nine Puisne Judges; four at Quebec, four at Montreal, one at Three Rivers, and one at Sherbrooke. It has original civil jurisdiction, except in Admiralty cases, and cases which are expressly confided to the Circuit Courts. Appeals are allowed to it from the inferior Courts. Circuit Judges, in Gaspé, are Judges of the Superior Court; and also, out of term, in Kamouraska and Ouawa. The Superior Court, in term, at Gaspé, has criminal jurisdiction. The terms of this Court are at Montreal and Quebec, from 1st to 20th April; 1st to 20th September, and 1st to 20th Dec: Three Rivers, from 12th to 25th February; 1st to 14th Three Rivers, from 12th to 25th February; 1st to 14th June, and 1st to 14th November: Sherbrooke, from 25th to 31st January; 16th to 27th July: Perce, from 25th to 31st January; 16th to 27th July: Perce, from 21st to 36th Angust: New Carlisle, from 4th to 13th September. The sittings at Perce and New Carlisle form only one term. (See Act, 12th Vic. cap. 38.) Chief Justice—11on. Edward Bowen: Judges—Ilon. Edward Bacquet, Hon. John F. Duval, Hon. William Edward Bacquet, Hon. John F. Duval, Hon. Carlies D. Dav. C. Meredith, residing at Ourbee; Hon. Charles D. Dav. Edward Bacquet, Hon. John F. Duval, Hon. William C. Meredith, residing at Quebec; Hon Charles D. Day, Hon. James Smith, Hon. George Van Feloor, Hon. C. Mondelet, at Montreal; Hon. Dominique Mondelet, Three Rivers; Hon. Robert H. Gairdner, St. Francis. Circuit Courts, L. C.—These Courts have original civil jurisdiction, to the extent of £59, currency. When

the sum in dispute does not exceed £15, and title to the sum in dispite uses not reced to, and time of the sum of the property is not involved, the proceedings are summary of the amount does not exceed £6 5s, the suit is to be determined according to equity and good conscience. In cases exceeding £15, an appeal is allowed to the for Bonaventure,

Superior Court of the District. The Circuit Judges are Chairmen of the Quarter Sessions. (See Act, 12th Vic. cap. 38.) The Circuits are held as follows, viz.: DISTRICT OF QUEBEC—at Quebec, on the last six

juridical days of each month, except August: Rimouski, in the parish of St. Germain, from 19th to 28th of each of January, May, and September; Kamouraska, in the Parish of St. Louis, from 1st to 10th of each of Parish of St. Louis, from 1st to 10th of each of Feb., June, and October; St. Thomas, from 13th to 22nd of each of February, June, and October; Beauce, in the parish of St. Marie, from the 1st to the 10th of each of March, July, and November; Leeds from 16th to 25th of February, 19th to 28th June, and 20th to 29th Oct.; Lothiniere, from 13th to 22nd of each of March, July, and November; Portneuf, in the parish of Cap Sante, from 7th to 16th of each of January, May, and Sept.; Saguenay, in the parish of Les Eboulements, from 1st to 10th of each of March, July, and October; Chicoutimi, at the Village, on the last six juridical days of January, February, May, June, September & November.

PROVINCIAL PENTENTIARY KINOSTON. — Inspectors, Hon. Adam Fergusson; W. Bristow; George Brown; E. C. Thomas; N. Amiot. Warden, D. Æ. McDonell. Chaplains, Rev. R. V. Rogers, Protestant—Vicar-Gen. McDonell, Roman Catholic. Physician, James Sampson, M.D.; Head Keeper, W. G. Murray. This institution was established in 1831, as the Upper Canada Penitentiary, but at the union it was made applicable to the whole province. No prisoner is received for a shorter term than three years. The system of dicipline is that known as the silent or congregate. The convicts are kept at hard labour for the benefit of the Crown during daylight, their services being leased to contractors, who teach them useful occupations. The buildings have been chiefly erected by convict labour. buildings have been chiefly erected by convict labour, under the superintendence of the officers, but they are not yet complete. The draft on the public exchequer for maintaining the prison for 1846, 1847, and 1848, averaged over £16,000 per annum. For 1849, it was £10,500, and for 1850, the estimate is for £7,500.

POST OFFICE DEPARTMENT .- Deputy Post Master General, Thomas Allen Stayner, Montreal; Chief Clerk, Gilbert E. Griffin; Accountant, Edwin A. King. Surveyor, Quebec, William Henry Griffin. Surveyor, Toronto, Edward S. Freer. Kingston, John Dewe. Surveyor,

COUNTIES, CANADA WEST.

The following lists of the several Counties and unions of Counties in Canada West show the Townships. Villages and Towns, comprised in each. The Cities form Counties by themselves. It is likely that changes will be made in the composition of some of the Counties, as there is now a Bill for that purpose under the consideration of the Legislature. Should it pass the changes will be noted in another part of the Almanac. The subjoined fists also contain the names of the various Corporate and other Officers. The Elections take place simultaneously in all the Municipalities on the first Monday in January, in each year. See Act 12 Vic. Cap. 81. The population is only partially given in the annexed lists, on account of the census returns from most of the places not having been received. [26th July, 1850.]

The Currency.

By the Act 13 and 14 Vic. Cap. 8, the legal value of the dollar and half dollar, is reduced (from 1st January, 1851,) from 5s 1d and 2s b\d/d currency, respectively, to 5s and 2s 6d. The act authorises the Governor in Council to cause silver and gold coins to be struck, for circulation in the Province, the expense to be defrayed out of the Consolidated Reveaue Fund. The Silver coins to pass respectively for 5s; 2s 6d; 2s; Is 3d; Is; 6d, and 3d, currency, each; and to be a legal tender for £210s only. The Gold coins to pass respectively for £2.10s only. The Gold coins to pass respectively for £1.5s; £1; 12s 6d; and 10s, currency, each, and to be a legal tender to any amount. By the Act 13 and 14 Vic. Cap 9, the legal value of the following silver coins of Spain, of the several states of Peru, Chili, and Central America, and of the states of South America and Mexico respectively, being less than half dollars, is reduced to the following rates, viz:—the quarter dollar to is; the eighth of a dollar to 6d; and the sixteenth of a dollar to 3d currency.

The following table shows the fixed value of coins under the foregoing acts, and the Act 4 and 5 Vic. Cap. 93 :-

Currency

The British Sovereign......£1 4 4 The multiples or divisions of the Sovereign to pass in like proportion, so long as any of the coins do not want more than two grams of the weight. In payments over £50 either party may insist on taking the coins

by weight, at the rate of 94s 10d currency, per ounce Troy.

The	British	Silver Crown 0	6	1
6.6	66 }	nalf Crown 0	3	04

Venders of Temperance Tracts, &c.

The Act 13 & 14 Vic. cap. 7, declares, that notwithstanding anything contained in the Acts of Parliament in force relating to hawkers and pedlers, it shall not be necessary for persons in the employ of any Temperance, Benevolent or Religious Society in this province to take out heences as hawkers or pedlers, in order to enable them lawfully to sell and peddle temperance tracts, and other moral and religious publications, under the direction of such society.

Land Scrip.

The Act 13 & 14 Vic. cap. 16, passed 10th August, 1850, declares "that no land scrip heretofore issued, or that may hereafter be issued under the authority of any act, ordinance, or law in force in this province, shall be redeemable by the Provincial Government, or receivable in payment upon sales, or for deferred payments of instalments or other dues of or upon public lands or otherwise, unless the same be presented and offered in payment at the office of the Commissioner of Crewn Lands, or at the office of one of his agents, within one year from the passing of this act "and all such scrip which shall not be presented and offered in payment within the period aforesaid shall be null and void; any act, ordinance or law to the contrary notwithsyanding."

Customs.

The Act 13 & 14 Vic. cap. 5, empowers the Governor in Council from time to time to order any article not enumerated in the schedule to the Customs' Amendment Act (12 Vic. cap. 1), and thereby made subject to a duty of 12½ per cent. ad valorem, to be placed among the articles subject to a duty of 2½ per cent. ad valorem. The 2½ per cent duty, and no other, shall be payable on such article, so long as the order in Council remains in force.

Interprevincial Free Trade.

Reciprocal free trade has been some time established between Canada, New Brunswick and Nova Scotia, by Acts of the several Legislatures, in articles of the growth, produce or manufacture of these provinces respectively. By the Canadian Act, 13 & 14 Vic. cap. 3, the Governor in Council is empowered from time to time to declare, that any article whatever, when of the growth, produce or manufacture of Nova Scotia, New Brunswick, Prince Edward's Island and Newfoundland, or of any one or more of them, is or is not admissible into this province free from duty, and under what circumstances, conditions and regulations.

British Copyright Works.

The Act 13 & 14 Vic. csp. 6, empowers the Governor in Council to impose an ad valurem duty, not exceeding 20 per cent., upon foreign reprints of British Works, wherein the copyright shall be subsisting, and with regard to which the notice to the Commissioners of Customs, required by the Imperial Act, shall have been given; and from time to time to alter the duty (but not to exceed the 20 per cent.,) and establish such regulations and conditions as may be consistent with any Imperial Act then in force, and as he may deem requisite and equitable with regard to the admission of such books, and to the distribution of the proceeds of such duty among the parties beneficially interested in the copyright. The act to come in force when approved of by the Queen in Council, and proclamation is made in the province of such approval, and not hefore.

Division of Counties.

The Bill referred to at the top of page 33, for a new Division of certain Counties in Upper Canada, did not pass the Legislature.

Interest on Public Bebt, 1849.

Interest on the Public Debt of the Province of Canada, from 1st of February, 1849, to 31st January, 1850.

## CANALS IN CANADA.

From the Report of James Stewart, Civil Engineer, to the Board of Works, in 1848.

WELLAND CANAL .- This Canal extends from Lake At the beginning of the year 1837 the accounts stood Eric to Lake Ontario, and overcomes the interruption to the navigation caused by the Falls of Niagara. It has two entrances from Lake Eric, about seventeen miles apart; the upper entrance being from the Grand River, a little above Port Maitland, about thirry-seven miles west from Buffalo, and the lower at Port Colborne, about twenty miles west from Buffalo. It also communicates with the Grand River by a branch commencing on that stream at Dunyille, five miles commencing on that stream at Dunville, five miles above Port Maitland, through which branch the whole The tercamil has hitherto been supplied with water. The termination on Lake Outario is at Fort Dalhousie. The Port Maitland entrance has an advantage in spring over the Port Colborne, in being clear of ice several weeks before either that or Buffalo Harbour.

The work was originally undertaken by a Company, for which an Act was obtained in the year 1824, with a capital of £37,500. The Canal then contemplated was a small one, and meant to extend from a point on Lake Ontarn to the Chippewa or Welland River only, down which vessels would proceed to the Niagara and then ascend that River to Lake Erie. In 1825 another Act was passed providing for the enlargement of the work. It was then proposed that the Canal should not, as before terminate at the Chippewa, but that vessels from Lake Ontario, on reaching that stream, should proceed upwards to a point on its south branch, from whence another canal would be cut to join Lake Erie at the mouth of the Grand River, thus opening a direct communication between the waters of the two Lakes. summit level was to be at the Chippewa, from which therefore the Canal would be supplied with water ; but some difficulties having occurred in excavating what is called the "Deep Cut" to the necessary level, that intention was abaudoned, and a small canal, to serve as a feeder, and which would also be navigable for boats, extending from a point a little south of the Chippewa to Duoville on the Grand River, was sub-stituted. The Canal from the south brench of the Chippewa to the mouth of the Grand River was also abandoned, and a shorter route adopted from the junc-tion of the feeder, to Port Colborne on Lake Erie. The Company under the new Act was authorised to raise a sum of £200,000, which, in 1834, was extended to £250,000, and a portion of this stock, amounting to £115,000, as stated in certain documents of that dite. but in later ones at £117,800 was taken by private individuals. In a despatch of the Secretary of State to the Governor of Upper Canada, dated the 36th September, 1826, the estimate on the extended plan appears to have been £147,240, of which the Imperial Government agreed to pay £16,360, or one ui th. for the free passage of vessels with public stores being about the same proportion as was paid in the case of the Lacoine Canal: but this arrangement was altered afterwards, and a loan substituted. The work was commenced on the 36th November, 1821; the trunk from Lake Ontario to where the feeder joins it, and the feeder terminating on the Grand River, were opened on the 39th of November, 1829; and the trunk from the junction to Port Collorne, in 1832. The general width of the canal was twenty-six feet on bottom, and about fifty-six feet at top water-line, with eight feet doubt of water. In the "Deep Cut" the breadth on bottom was fifteen feet, and at top water-line forty-three feet. The number of locks was thirtynine, all of wood : from Lake Erie to St. Catharines they were 100 feet long and 22 feet wide, with seven feet of water on the unite-sills; below St. Catharines they had the same depth of water on the sills, but were 125 feet long by 32 wide.

In the end of the year 1834 the accounts appear to

have stood the

a

ment of Upper Canada to purchase the Stock of private stockholders, by an issue of Debentures, redeemable in twenty years from their date, bearing interest at the rate of two per cent. for the two first years, three per cent. for the third year, four per cent, for the fourth, five percent, for the fifth, and six per cent, for the sixth and following years;—and so soon as parties owning two-thirds of the Stock should have agreed to the terms, to assume the entire responsibility and management of the work thereafter, which arrangement was, in about two years, carried out accordingly. No statement has Leen found of the total sum expended on the Canal up to the period when it came entirely under the control of the Government, but it, probably, was very near £500,000, without reckoning the expenditure annually made from the tolls.

The enlargement of the entire work was commenced in 1811, and is not yet completed. A detailed estimate of the expense has not been obtained, but in a memorandum submitted to the Governor General, dated the 12th August, 1841, £450,000 is put down as an approximation to the cost, and this seems to have been the amount of the first grant made by the Legislature. Under this grant, the locks were to be of stone, 120 feet long by 21 feet wide, with 81 feet of water on the sill, excepting one at Port Dalhousie, and another at Broad Creek, which were to be seamboat locks, 200 feet

* Either this sum must be too small or that of £411,000, suited above as the expenditure at the end of the year 1831, must be too large; for in 1837, £16,144 was spent on the work, and £20,000 in purchase of property.

long by 45 feet wide, with nine feet water on the sill; and the supply of water necessary for the navigation and machinery was to be drawn, as formerly, from the Grand River, the summit level of the Canal thus remaining unchanged. It was afterwards thought desirable to enlarge the smaller locks to 159 feet long by 26 feet 6 inches wi le, with 84 feet of water on the sill, and also to enlarge the trunk of the Canal, and alter the curves, to suit the increased size of vessels that would enter the enlarged locks; to reduce the summit level low enough to allow the water of Lake Erie to flow through the Canal, from which Lake, therefore, both it and the machinery would in future be supplied, and to substitute a steamboat lock between Port Dalhousie and St. Catharines, and another at Port Colborne, in place of the small ones previously contemplated. was considered by the Engineer in charge at the time, that these improvements might be made without exceeding the sum of £500,000, being the amount then appropriated; and the large excess of expenditure has been explained as arising mainly from the great difculty both of estimating the extent of work required, and of ascertaining the cost when carried on in connection with an old canal much out of repair, and the navigation through which having to be always maintained, the two works continually interfered with It will be seen from the tabular statement each other. of cauals, that the expenditure on the enlargement of this one, up to the Dec. 31, 1848, was £33,04378. Sd.; and that £942,350 is the sum estimated as required to complete it fully, making upwards of £1,400,000 for both the old and new work.

Cornwall Canal.—The object of this Canal is to overcome the difficulties to the navigation of the St. Lawrence, presented by the Long Sault Rapids. Operations were commenced in 1-34, under local Commissioners, appointed by an Act of the Legislature of Upper Canada, and suspended in 1838, when the work was well advanced, for want of funds. Up to this period the expense was defrayed by the Government of the Upper Province. In 1842, the operations were resumed, under the direction of the Board of Works. The Canal was partially opened in December of that year, and completed in June, 1843; but various slides and breaches have since occurred, which it has taken a considerable outlay to repair. The locks are the largest in Canada, having a chamber 230 feet long and 55 feet wide, in the clear; the depth of water on the sills being nine feet, as in the other large Canals of the Province.

The original estimate for this work, as stated in Mr. Killaly's Report on the Public Works of Canada, dated April, 1816, was £191,903.

In the end of 1835, when work to the amount of £95,707 was calculated to have been done, the total-cost, including that sum, was estimated in the Report of the Canal Commissioners, at £238,216.

By Mr. Killaly's above Report, there was actually expended under the Commissioners £410,097.*

And there has since been expended by Government, up to the 31st of December, 1848, £75,600, making altogether £515,697.

*In a Report of the Select Committee to the House of Assembly, dated 30th January, 1810, and which is the last public document that has been found relating to the work while under the charge of Commissioners, the expenditure up to the end of 1-39 is stated at £335,579. The books kept for the Commissioners show the following expenditure for each year up to the end of 1839 —

		S. D.
1831	31,429	18 6
1835	85,549	12 8
1836	82,921	13 6
1837	117,421	19 10
1938		
1839	7,931	9 94

Total . . . £362,134 11 104

At this period a sum of £5,215 15s 6\d. was due on outstanding notes given by the Commissioners to Contractors. In 1840 the books show an expenditure of only a few pounds, while none is shown either in 1841 or 1842.

Williamsburg Canals.—These are a series of four short Canals and six locks, lying between Prescott and Dickenson's Landing, constructed for the purpose of overcoming the rapids at the Galops, Point Iroquois, Rapid Plat, and Farren's Point. They were commenced in 1843; the first of them finished in November, 1846, and the last in October, 1847. Since then, farther works have been found necessary, some, if not all, of which will be finished for the navigation of 1849, and they will be carried on so as not to interfere with the navigation.

BEACHARNOIS CANAL.—The Beauharnois Canal, extending from the lower end of Lake St. Francis, nearly opposite Coteau du Lac, to the head of Lake St. Louis, overcomes the rapids of the Coteau, the Cedars, and the Cascades. It was commenced in 1842, and finished in the autumn of 1815. Farther works have been found necessary, some, if not all, of which, will be finished for the navigation of 1849; and they will be carried on so as not to interfere with the navigation.

LACHING CANAL.—This Canal extends from the village of Lachine, at the foot of Lake St. Louis, to the city of Montreal, overcoming the various rapids in the

St. Lawrence between the two places.

The following particulars regarding the old Canal have been obtained from a statement, dated Montreal, 19th March, 1842, and signed F. Griffin. The work 19th March, 1812, and signed F. Griffin. The work was commenced in 1821, under the Provincial statute, 1 Geo. 1V. c. 6. The Canal was partially opened in 1824, and completed in 1825, at an expense of £103,601 0s. 9d. currency. (In a Report of the Directors of the Welland Canal, dated the 31st December, 1829, the cost is stated at £120,609.) The funds were furnished by the Government of Lower Canada with the exception of £10,000, contributed by the Military Government, to secure a free passage for troops, stores, &c. (In a despatch from the Secretary of State to the Governor of Upper Canada, dated the 30th September, 1826, it is stated that £12,000 was granted by the Imperial Government.) The length of the Canal is eight miles and 718 yards; its breadth at bottom twenty-eight feet, at top water line in rock excavation thirty-six, and in earth excavation forty-eight feet. The prescribed depth was for vessels drawing four and a half feet water, but those drawing five, and even five feet three inches, have passed through. There are seven locks, all of cut stone, 100 feet long by 20 feet wide in the clear. The Guard Lock at Lachine has usually no lift; the two next have a lift of six feet each; the three next of eight feet each; and the remaining one, the entrance lock at Montreal, a lift of nine feet; making forty-five feet altogether. There are three culverts and fourteen bridges. The earliest period at which the navigation ever opened was on the 8th of April, in the year 1828, and the latest period at which it closed, the 8th December, 1830; but on an average of years, the 15th April may be reckoned as the period of opening, and the 15th November as that of closing the Canal.

The enlargement of this work began in the end of 1843. It was sufficiently advanced in the spring of 1848, to allow the passage of vessels, and will be completed in 1849. The general dimensions are calculated for the same size of vessels as the Beauharnois and Williamsburg Canals, but the two locks at the Montreal terminus have each a depth of sixteen feet water on the sills, to allow of large sea-going vessels passing into the second basin, which it is proposed to excavate to a corresponding depth at a future period, the first basin having been deepened afready.

Chambly Canal.—The Chambly Canal extends from St. Johns to Chambly, a distance of about eleven and a half inities, and was made to overcome the interruptions in the chambel of the Richelieu, between the two places. It forms the chief portion of the works necessary to connect the navization of the River St. Lawrence, by any of the Richelieu, with that of Lake Champlain. At a period not later than the year 1819, a private company was organized for the construction of a canal at Chambly, and an instalment of five per cent, on each share, was paid to cover the expense of preliminary examinations; but the proposal seems to have lain over, and ultimately to have been dropped without any practical result. The work, as finally undertaken, was authorized by the 3 Geo. IV. c. 41, which provided for the advance of £69,600 currency, from the funds of the Province of Lower Canada, for

£5,000 0 0

the completion of a Canal from Chambly Basin to St. Johns. The original estimate appears to have been about £50,000, and although Captain Melhuish, of the Royal Engineers, considered it as much too low, and stated £96,745 as the amount that would probably be required, the Commissioners under whose directions the operations were commenced and carried on, placed reliance on the smaller sum, and actually let the whole work for £46,218. It was begun on the 1st October, 1831, and carried on till the autumn of 1835, when although the Canal was very far from being completed, not only the original appropriation of £60,000, but a farther one of £6,000, made by the 3 Wm. IV. c. 30, for enlarging the locks, were found to be exhausted, and the work was in consequence stopped. At this period it was estimated that £20,000 would be required to finish the Canal, and again in 1839 when about £5,000, advanced by the Provincial Government, had been spent in upholding and repairing the work, it was estimated that £29,900 would be required. Authority was granted by the 2 Vic. c. 61 to burrow £30,000 for this purpose, but the money could not be raised on the terms specified, and nothing was done beyond the ordinary repairs, until a new power to borrow £35,000 on the security of the Province of Lower Canada, was conferred by the 3 Vic. c. 21. In 1840, the operations were resumed on this new appropriation, but about April 1842, it became apparent that even that would be insufficient, and a further sum of £12,000 was craved to complete the work. Advances exceeding that amount were made from time to time through the Board of Works, from the funds of the province of Canada, and ultimately the canal was finished and opened in 1843. The outlay up to the 30th June of that year may be stated approximately, at £120,204; disbursed as under :-For new

canal. Repairs. Total.

From the funds or under the security of the pro-

vince of Lower Canada £101,219 £5,755 £107,004 From the funds of the

united provinces of Up-13,200 .... per & Lower Canada ... 13,200

Total. . . .£114,449 £5,755 *£129,204

From the suspension of operations in 1835 up to 1840, the Canal was used between St. Johns and the combined Locks at Chambly only, and yielded a revenue of about £500 gross; while, from 1840 to 1843, as there is no return of revenue, it was probably out of use. There are nine locks all of stone, 120 feet long by 24 feet wide, and six leet of water on the mitre sills.

St. Ours Lock, &c. - This Lock is in the river Richelieu, at the foot of the artificial navigation, about fourteen miles from its month, and with a dam raises the water above it sufficiently to overcome the shallow portions of the stream, and afford a free passage to Chambly Basin. In conjunction therefore with the Chambly Canal, this Lock opens a communication between the St. Lawrence at Sorel and Lake Champlain; while, by the Northern Canal, the communication is continued from Whitehall to the navigable waters of the Hudson near Troy. At the site of the work the Richelieu is divided into two deep channels by a small island, in the eastern and narrowest of which the lock is built, while the dam extends across the western. The work was begun in the automa of 1841, but in con-sequence of various hindrances, will not be finished until 1849. The length of the lock is 200 feet, by a width of 45 feet, with six feet of water on the sill. At the head it is joined to the shores by an embankment. The dam is about 600 feet long, formed of cribs filled with stone, and is connected with the shores by hammer dressed abutments.

ST. Ann's Lock.—This Lock is situated on one of the branches of the River Ottawa, between the Village of St. Ann's and Isle Perrot, about twenty-five miles west of Montreal. It overcomes the St. Ann's Rapids, and thus, in conjunction with the Lachine and the

Ottawa Military Canals, opens a communication from Montreal to Bytown, and thence by the Rideau Canal to Kingston. It was begun in the autumn of 1889, and to kingston. It was begun in the autumn of rest, and completed in June, 1843. The Lock is 196 feet long by 45 feet wide, with 7 feet of water on the sill in the or-dinary state of the river during summer, and 6 feet at its very lowest state.

DESJARDINES CANAL. -On the 20th of January, 1826, an Act passed the Legislature of Upper Canada, incorporating a company for the construction of a Canal. for sloops and other vessels of burthen from Burlington Bay to the Village of Cectes Paradise, with a capital of £10,600, which work is now known as the Desjardins Caual. It extends from a point at the head of Burlington Bay, about two miles north of Hamilton, to the Town of Dundas, and is, including the natural and artificial navigation, between three and four miles in

length. The depth of water proposed was eight feet.
The Canal was opened on the 16th of August, 1837,
for vessels drawing 7½ feet water; and, according to
a Report of the Directors, dated the 2nd May, 1840,

cost £21,671.

The money advanced by Government to the comany is as follows :-By 2nd Wm IV., chap. 24, passed in

the year 1832 . . " 5th do. chap. 34, passed in the year

1695 7.000 0 0 " 7th do. ch. 65, passed in the year 1837 5,000 0 n

Total.....£17,'00 0 0
This loan bears interest at 6 per cent., of which
there remained unpaid at the 31st of December, 1839, £17, 00 0 #2.573 Hs. 2d.; at the 31st Dec., 1844, £7,973 Hs. 2d.; and at the 31st December, 1848, supposing nothing has been paid in the interval, £12,653 Hs. 2d.—making a total sum of £29,053 11s. 2d. due Government at the latter date.

It thus appears that the Canal has been far from profitable, which the Directors of the Company attribute to the work having been constructed on too small a scale. In 1840, it was stated by them that only boats scale. In 1940, it was stated by them that only bonts of thirty tons could navigate it, and in 1945, there was no more than five feet of water in some parts of it. On the 22nd of May, 1940, the Directors, in a memorial to the Lieutenant-Governor of Upper Canada, proposed to surrender to her Majesty's Government the whole property and interest of the Sockholders in the said Canal until such time as the sum due Government was repaid; and on the 19th of June, 1941, the Directors again made the same offer to Lord Sydenham, but without success. In 1945 and 1946, estimates were made by the Board of Works for enlarging and completing the Canal, but the works were not undertaken. pleting the Canal, but the works were not undertaken. The estimates were for an enlargement from a breadth of 60 to a breadth of 100 feet at the surface, with twelve feet depth of water, and embraced two methods; the first, by following the present canal, and the line of the Creek, to Fish Point, a distance of 3 68-80 miles, at a cost of £31,993; the second, by following the present Canal for about two miles from Dundas, and then passing through the Burlington Heights in the direction of Fish Point, reducing the distance to 2 69-80 miles, but at a cost of £59,083.

MONTREAL HARBOUR .- The cost of Montreal Harbour and the debt due thereon is as follows :-

Paid by Debentures issued under 8 Vic., £119,275 0 0 Paid under 10 and 11 Vic , chap. 56, authorizing a Issue of Debentures, but for

which none have yet been issued ... 1,200 0 0 Paid from monies advanced by Government at various times, by warrant. . . 20,684 13 4

Cost.....£141,159 13 4 Second Debt. Debentures outstanding as above . ..£119,275 0 0

Due, for which no Debentures have been issued .. 1,200 () Sum advanced by Government..... £20,684 13 44

Of which there has been repaid ..... 9,684 13 Balance due Government not bearing interest...... 11,000 0 13

Debt.....£131,475 0

In addition to this sum there was expended by the Commissioners £3,550 for interest on borrowed money, of which £2,500 was paid by warrant from the Governor General, and £1,050 through the Board of Works. This was up to the 1st of May, 1843.

## GEOLOGICAL SURVEY OF CANADA.

The origin, progress and results, up to the present time, of this interesting work is given in the following brief abstract drawn from the most authentic sources:—

brief abstract drawn from the most authentic sources:—
In January, 1832, a petition from Dr. Rac, praying for pecuniary assistance in prosecution of a geological and statistical survey of the Province was sent down by message to the Legislative Assembly, with a favourable recommendation from His Excellency Sir John Colborne, Lt. Gov. of Upper Canada. It was read and referred to the Committee of Supply, but not considered.

In December, 1832, a petition from the York Literary and Philosophical Society, praying that a sum of money might be granted to provide for an investigation of the Geology, Mineralogy, and Natural History of the Province, was presented to the Legislative Assembly of Upper Canada. It was read and referred to the Committee of Supply, but was not considered.

unitive of Supply, but was not considered. W. L. Mackenzie, seconded by Mr. Durand, Messis. R. G. Dunlop, Gibson and C. Duncombe were named a select committee to consider and report on a plan for a Geological Survey of the Province. Three hundred copies of this report were ordered to be printed, and it was referred

Survey of the Province. Three hundred copies of this report were ordered to be printed, and it was referred to the Committee of Supply, but it was not considered.

In November, 1838, Mr. R. G. Dunlop gave notice of a motion for leave to bring in a Bill for the purpose of instituting a geological examination of the Province, but the bill was not proceeded with.

In November, 1838, on the motion of Mr. R. G. Dunlop, seconded by Col. Prince, the House went into a committee of the whole to consider the expediency of a geological survey, and, on their report being received, it was resolved that an address should be presented to flie Excellency the Li. Governor, (Sir F. B. Head,) to ascertain whether there were any means at his disposal to effect a geological survey of the Province. The address was ordered to be drafted, but was not reported: ordered to be drafted, but was not reported.
In December, 1836, Mr. R. G. Dunlop gave notice that he would in ove an address to Ilis Majesty for a grant of

In December, 1836, Mr. R. G. Dunlop gave notice that he would move an address to His Majesty for a grant of wild lands to defray the expense of a geological survey of the Province, but no address was presented. To Lord Sydenham, who well appreciated the importance of an examination into the mineral resources of Canada, the country is indebted for the commencement of the geological survey which has been instituted. In July, 1841, in the first united parliament, a petition from the Natural History Society of Montreal, praying for aid to carry out a systematic geological survey of the Province, was presented by Mr. B. Helmes. It was referred to a select committee consisting of Messis. Holmes, Neilson, Quesnel, Merritt, and the Hon. Mr. Kalaly, but it was not reported on. A similar petition was presented by Mr. Black, from the Literary and Historical Society of Quebec, which was read. The Government took up the matter, and on the motion of the flon. S. B. Harrison the sun of £1500 for the purposes of a survey was introduced into the estimates. In 1812, Sir Charles Bazot appointed two geologists, Mr. W. E. Logan, F. G. S., principal, and Mr. A. Murray, assistant, to carry the survey into operation, and the investigation was commenced 1st May, 1843. To Lord Metcalle is due the credit of a more systematic continuance of the survey.

In Mirch, 1-15, ander the administration of the Hon. Mr. Draper, Mr. Autorney General Smith brought before parliament a bill, which was supported by all parties and passed into act without a dissentient voice, (8 Vic. cap. 16.) making a provision of £2000 per annum for 5 years, for a complete examination of the rocks, soils, and minerals of the Province. For the purpose of analyzing minerals, ores, mineral waters, and soils, a chamist was attached to the survey.

soils, and minerals of the Province. For the purpose of analyzing minerals, ores, mineral waters, and soils, a chemist was attached to the survey.

The area of Canada, according to Bouchette, is 331,370 square miles. It was not to be expected that 3 persons could examine the whole of this in the time which clapsed from the commencement of the survey to the expiration of the 8 Vic. cap. 16, (March, 1850.) and Lord Elgin, who, from the circumstance of his own family vestates being so extensively enriched with mineral deposits, must be well acquainted with the importance of gred sgiral investigations, was no doubt favorable to a continuation of the Canadian examination, and therefore well pleased that the present administration should renew the act, which they did (again without a dissentient voice being raised in the Legislature,) during the last session of parliament, for 5 years more.

The districts examined, according to the reports of progress that have been published, are as follows:—
The Cana han coast and islands of Lake Superior and two rivers on the north shore for distances of 40 and

60 miles up.

The Canadian coast and islands on Lake Huron with distances of 20 to 70 miles up 4 principal tributary rivers on the north shore.

The coast of he lower part of Lake Erie and the upper part of Lake Ontario, as well as the country back from Toronto to the ex t of Lake Simcce and Matchedash Bays.

The Ottawa to u its month near Montreal to the head of Lake Temiscamang, a distance of 400 miles, with

many of its tributaries on the right bank for distances of 20 . o 40 miles up.

The Eastern Townships from the Richebeu to the Chaudiere River.
The country between the Chaudiere River and the Temiscounta Portage road.

The coast of the Gaspe peninsula from the Metis road round by Cape Gaspe and Isle Perce to the mouth of the Matapedia River a distance of about 800 miles, with several sections across the peninsula from the St. Lawrence to the Bay Chaleur.

From this it would appear that there still remain to be examined the following districts:-

The region on the south side of the St. Lawrence between the Temiscounta and Metis reads.

The whole of the north shore of the St. Lawrence, including the Island of Anticosti, from Labrador to Que-

bec, with the exception of Murray Bay and Bay St. Paul.
The north shore of the St. Lawrence from Quebec to Montreal.

Tay same from the Cascades to Kingston, including various parts of the interior between the St. Lawrence and the Onawa.

The country between Kingston and Lake Simcor, extending back to the Mattawa. The interior of the reminsula between Lakes Huron and Erie.

The whole of the region extending along the height of Lind separating Canada from the Hudson Bay Territory in the entire length of the Province.

A large and valuable collection of specimens has been made to illustrate the minerals, rocks and fossils of the districts examined, which is preserved at the office of the survey, for the present at No. 10, Little St. James-street, Montreal; a full suit of these specimens is intended to form the nucleus of a provincial museum, and the duplicates, after they have served the purposes of the survey, are to be distributed among such educational establishments of both sections of the Province as the Government may determine.

It being impossible to understand the true bearing and relation of geological facts as parts of a whole unless their geographical position is accurately ascertained, and so large a portion of Canada being still masurveyed topographically, it has been necessary for the geologists to measure extensive lines of exploration, and the maps resulting from these topographical admensurements have proved of great value to the Crown Land Department. To this coll iteral work on the geological survey we are indebted for the chief part of what we know of the luterior of the peninsula of Gaspe, where six rivers have been measured,—the Matanne, the Chat, the St. John, the Bonaventure, and the Great Caspedia. From it also we have the course of the Kamanistiqua and the Michipicoten rivers on Lake Superior; the Thessalon, the Mississague, the Spanish and the French rivers on Lake Buron; in addition to 150 miles of the Ottawa, and 40 miles (the whole of its length) the French rivers on Lake Buron; in addition to 100 linles of the Ottawa, and 40 miles (the whole of its length) of the Mattawa. These measurements are effected by Rochon's micrometra, an instrument by which much time is saved; and, as showing how far it may be depended on, it may be mentioned that the Mattawa having been re-surveyed by Mr. Sinclair, a Provincial Surveyor, by the claim, by order of the late Commissioner of Orown Lands, Ma. D. B. Papineau, the map resulting from the re-survey is almost a complete counterpart of the other. The map of the Quawa is used in the Crown Land Office for the distribution of timber limits, for

the other. The map of the cutawa is used in the Crown Land Office for the distribution of impertanties, for that part of the river represented by it.

Mr. Hunt, the chemist attached to the survey, was appointed three years since, and as the results of his labours, in addition to the analyses of a great multitude of useful metallic ores and other minerals, we have those of thirty valuable inherals springs, and, by the last report of progress, it will be perceived that a commencement has been made upon the soils of the country: with great diligence 18 soils were completed last

It would extend our notice of the geological survey to too great length for the limits of this publication, were we to attempt a description of the geographical distribution of the formations of the Province as far as ascertained, and show how these formations present concentric zones, encircling the great coal fields spread out in the middle and western states on the one hand, and our sister provinces on the other, with a wider and a wider sweep, in their range as they descend in the order in which they are placed upon one another, the whole being sweep. In their range as they descend in the order in which they are placed upon one another, the whole being arranged after the manner of a nest of weights or of irregularly rimmed but close fitting dishes one within another, the edges of which constitute the geographic surface; the edges of the lower dishes only strike through Canada, and thus leave it without coal. To make this perfectly intelligible would require such a model of the forms as has been constructed by Mr. Logan, and was exhibited here to the members of the Legislature during

forms as has been constructed by Mr. Logan, and was exhibited here to the members of the Legislature during the last session. In preference we give below, as containing much information in a small space, a catalogue of some of the minerals and deposits of the Province, capable of useful application, prepared by Mr. Logan, for the purpose of promoting a collection of native specimens to be sent to the grand Industrial Exhibition in London, in May, 1851, and appended to the last report of progress, that for 1849—50.

We would first, however, wish to show the importance attached to geological examinations by giwing a few facts connected with that of the State of New York. The area of New York is 46,200 square miles, and on the geological survey there instituted, 4 principal geologists, and 4 assistants, were employed, besides a chemist and a paleontologist, to examine and describe fossil organic remains. The examination of the geographic distribution of the rocks required five years. The act establishing the geological survey, comprehended also a general examination of the natural history of the State, including a description of its quadrupeds, birds, tishes, shells, insects and plants, and naturalists were appointed for all the separate branches. The works resulting from all these investigations, of which a copy in 15 volumes was presented by the State to the library of the Provincial Legislature, and unfortunately borned in Montreal, are too well known to require mention. Phough the examination of the geographical distribution of the rocks was so far complete in 5 years as to permit the publication of a geological map of the State, the fossils belonging to them (which are of great importance as affording brands or marks by means of which to follow out the formations, and therefore the useful materials associated with them) required farther investigation, and 5 years more have been bestowed on them, and on the examinabrands or marks by means of which to follow out the formations, and therefore the useful minerals associated with them; required farther investigation, and 5 years more have been bestowed on them, and on the examination and analyses of soils. The works connected with these branches are beginning to appear; one volume on each branch has been published, and several more a e to follow. Up to the termination of the year 1549, the sum which had been expended by the State on these investigations exceeded \$300,000, and it was stated to be the intention of the Government to propose a further outlay of \$125,000, the only debate being whether \$100,000 should be voted at once, and \$25,000 more when that should be exhausted, or an annual sum of \$25,000 for 5 successive years.

In the United States the geology of about 500,000 square miles of territory has been placed before the world by the investigations of about 70 geologists in a period of 20 years; and the exact knowledge of the mineral resources of the States which these investigations, and the publications connected with them, have produced in foreign countries, has been instrumental in introducing a great amount of capital to make them available. The investigations have been of vast importance, not only in showing where useful materials do exist, but also in marking where they do not; pointing out where capital may be profitably employed in the one case, and saved in the other by preventing useless search. The negative results are of value chiefly in regard to coal; upwards of half a million dollars were expended in the State of New York, a large part in the valley of the Mohawk, in researches for coal in black bituminous shales, which, shortly after the geological survey commenced, were shown to run a long way below it; and the eminent geologist Sir R. J. Murchison, computes that the money expended in England alone, before geology was understood, in searching for coal where it would now be considered madness to expect it, would be sufficient to effect a correct general geological examination

of the whole crust of the globe.

## CATALOGUE

Of some of the Economic Minerals and Deposits of Canada, with their localities,

By W. E. Logan, Esq., Provincial Geologist.

METALS AND THEIR ORES.

Nors .- The quantities in the localities indicated are not in every case of a sufficient amount to be profitably available, but they are always of sufficient importance to draw attention to the localities, as a possible guide to the discovery of others in the vicinity, where quantities may be greater.

Michipicoten Island, (native copper, with siever.) Mica Bay, Manainse, (yellow, variegated, and vitrous sulphurets.) Lake Huron-Root River, a 3 feet vein, (yellow sulphuret.) Echo Lake, (yellow sulphuret.) Bruce Mines, a 4 feet vein, (yellow variegated, and vitrous sulphurets.) Wallace Mine, Whitefish River, (yellow sulphurets.) Eastern Townships-Huron rooms 11 to 6 ships—Upton, range 21, lot 51, (argentiferous yellow sulphuret.) a 1 foot vein. Asoot, range 7, lot 17, (argentiferous yellow sulphuret.) a 2 feet vein. Inverness, range 2, lot 4, (variegated sulphuret.) a 2 feet vein.

Nicket. — Sulphuret, &c. — Lake Huron, Wallace Mine. Augmentation to La Noraye and Dautraye Seigniery, (with iron pyrites,) traces. Brompton, range II, lot 19, (nickel ochre.) traces.

SILVER - Native, &c .- Lake Superior - Prince's location, a bunch of 4 cwt. of  $3\frac{1}{2}$  per cent. met with, equal to 72 lbs. of silver per ton of rock. St. Ignace Island, Harrison's, Ferriers's, and Merritt's locations. Michi-

picoten Island, north side

Gold-Natice, in Gravel-Vandrenil Beauce Seignory, Rivière Guillaume; Rivière Bras; Ruisseau Lesdu Lac. Aubert de L'Isle Seignory, Rivière Famine.

Anhert Gallion Seignory, Ruisseau —, Pozer's River for three miles up. Rivière Metgermet opposite Jersey.

Gold-Native, in Vein-Lake Superior, Prince's location, (traces.) Ascol, range 7, lot 16, ( ) ith copper and silver, value of Gold \$1 per ton of rock.)

CHEMICAL MATERIALS, BEING SUCH AS RE-QUIRE PECULIAR CHEMICAL TREATMENT TO FIT THEM FOR USE.

URANIUM-(For glass staining, and porcelain painting, &c.)-Madoc, range 4, lot 12, traces in the iron ore bed, in the form of uran achre.

CHROMIUM—(For glass staining, porcelain and oil painting, &c.)—Bolton, range 7, lot 26, a 12 inch bed of thromic fron. Augmentation of Ham, range 2, lot

21, a 14 inch bed of chromic iron. COBALT - (For gbass staining, and percelvin painting, &c.)-Lake Superior, Prince's location, (traces); Lake Haron, Wallace Mines, (traces.) Augmentation to La Noraye and Dautraye Seigniory, with nickel,

(traces.) (traces.)

MANGANESE, BOG—(For bleaching and decolorizing agents)—Bolton, range 12, lot 22; Stanstead, range 1, lot 9; Tring, near eastern boundary on road from Lambton to St. François Beauce; Aubert

on road from Lambton to St. François Beauce; Aubert Gallion Seigniory, near Pizer's River; St. Mary's Seigniory, 3d range, Frampton road; St. Anne Seignory. Iron Prittes—(For mainfacture of Copperas and Sulphar)—Clarendon, range 2, lot 7; Terrebonne Seigniory, a 4 feet vein; Augmentation to La Noraye and Dautraye Seigniory, a 10 feet vein; Garthhy, range—,

DOLOMITE, with 45 per cent. of CARBONATE OF MAG-NESIA—(For manufacture of Epsom Salts and the Magnesia of Commerce)—Exit of Lake Mazinaw; N. Sherbrooke, C. W.; Drummond; St. Armand; Dunham; Stution: Breme: Ely; Durham; Melbourne; King-sey; Shipton; Chester; Mahfax; Inverness: Leeds; St. Giles Seigniory; St. Mary's Seigniory; St. Joseph Seigniory.

Manysite, with 83 per cent. of Carbonate of Magnesia—(For the same purpose)—Su ton, range 7, lot 12; Bolton, range 9, lot 17.

#### STONE PAINTS.

BARYTES-Permanent White-Lake Superior, in a multitude of veius on the north shore from Pigeon River to Thunder Cape; Bathurst, range 6, lot 4; Mc-

Nab, mouth of Dochart.

IRON OCHRE-Yellow Ochre, Spanish Brown-Waltham. Paint Lake or Pond, near Harwood Pierce's Clearing, Black River; Mansfield, Grand Marais, opposite the most northern point of Calumet Island; Durham, range 4, lot 1.

TALCOSE SLATE-Othre Yellow-Stanstead, range 9, lot 13. French White-Stanstead, range 9, lot 13;

Leeds, range 13, lot 17.

SOAPSTONE-White-Sutton, range 7, lot 12; Potton, range 5, lot 2), very pure; Bolton, range 1, lot 17; range 2, lot 6; range 4, lot 4; range 11, lot 1; Mel-

bourne, range 2, lot 19; Ireland, range 3, lot 10; Vaudreuil Beauce Seigniory, range 3 on the Bras, pure; Broughton, range 4, lot 12; Elzevir, range 1, lot 27; range 2, lot 13, pure.

SERPENTINE—Greenish White—Eastern Townships,

in places too numerous to be particularized. (For the

range see Marble )
FERRUGINOUS CLAY-Light Red-Nassagaweya, Mc-

Kann's Mill; Nottawasaga, Mad River.

MATERIALS APPLICABLE TO THE ARTS.

LITHOGRAPHIC STONE .- Marmora, range 4, lot 8; Rama, on St. John's Lake, south of the Junction, and on Lake Conchiching; there are probably many exposures between Rama and Marmora, the distance being

### MATERIALS APPLICABLE TO JEWELLRY AND ORNAMENTAL PURPOSES.

AGATES.—Lake Superior—St. Ignace and neighbouring Islands; Michipicoten Island. JASPER .- Ascot, near Sherbrooke, in a bed ; Gaspé,

in pebbles. LABRADORITE .- Drummond, range 3, lot I; Bathurst,

range 9, lot 19.

Inge 8, 10t 18.
SUNSTONE.—Batherst, range 6, lot 3.
H/ACINTHS.—Grenville, range 5, lot 10.
AMETHYSTS.—Lake Superior, Spar Island, and sun-

dry places along the neighbouring coast.
RIBBONED CHERT (For Cameos)—Lake Superior— Thunder Bay.

JET .- Montreal.

RUBY SAPPHIRE Burgess, range 9, lot 2 (in minute grains.)

## MATERIALS FOR GLASS MAKING.

WHITE QUARTZ SANDSTONE .- Lake Huron-on the north shore, and the Islands near, in great abundance. Cayuga, lots 45 and 46, Town line, north of Talbot road; Dunn; Vaudreuil Seigniory. Isle Perrot Seig-

niory; Beauharnois Seigniory.
Pitchstone, Basalt and Allied Rocks - (For Black Glass.)—Lake Superior—North shore and Islands; Michipicoten Island, and East coast. Lake Huron—in the trap dykes of the North shore, and neighbouring Islands. Rigand mountain; Montreal mountain; Montarville mountain.

## REFRACTORY MATERIALS.

SOAPSTONE—Elzevir-range 1, lot 27; range 2, lot 13; Potton, range 5, lot 20; Vaudreuil, Beauce Seigniory, range 3 on the Bras; Broughton, range 4, lot 12. Assestus-Potton, range 5, lot 20.

SANDSTONE - Lake Huron, Island of Campment d'Ours, west side; St Maurice Forges.

PLUMBAGO-Grenville, range 5, Jot 10, 2 veins,

#### MANURES.

PROSPHATE OF LIME-Ottawa, near the division line between Westmeath and Ross, above the head of Moore's Slide; Calumet Skide; Burgess, range 8, lot 4: Hull, range -, lot -, neur Blasdek's mill; Bay St. Paul; Murray Bay.

GYPSUM-Dumfries, range 1, lot 27; Village plot of Paris; Brantford, range 1, lot 15; range 2, lot 16; range 3, lot 17; Oneida, lot 57, and the block next below on the Grand River; Seneca, lots 17 and 18, on the Grand

River, and the Town 10t of Indiana; Cayuga, range 3, lots 19, 2, 21, 22, 23.

Shell Mark—North Gwillimsbury, cast point of Cook's Bay; Calumet Island, in a small lake 2 miles south-east from Campment des Plaines : Calumet Island, I mile north-west of Desjardin's clearing, opposite Moore's slide, and in several small lakes Jower down the island; Clarendon, range 1, lot 23; Mink Lake, west of Bromley; McNab, White Lake; Nepean, on Spark's land, near Bytown; Gloucester, Hon. Mr. McKay's land, near Bytown; Argenteuil, range 1, lot 3: East Hawkesbury, range 7, lot 11; Vaudreuil Seigniory, rear of Cavaguol Point: St. Besoit, Grand Brulé, on Chenier's farm: Grande Cote, between St. Therese Ferry and St. Eustache, on McAllister's farm; opposite St. Rose, on the road to St. Therese, en Henrich's farm; St. Armand West, lots 156 and 157; Stanstead, range 11, lot 5 or 6; St. Hyacinthe Seignory

junction of Granby and St. Pie roads; Montreal, St. Joseph.; New Carlisle, in 4 or 5 small lakes, 1 or 2 miles from the village.

## GRINDING AND POLISHING MATERIALS.

MILL STONES-The localities of granitic and syenitic boulders strewed about the country, and used for mill stones, are too numerous and too accidental to be stated; these boulders are derived chiefly from the granitic or gneissoid rocks, which range on the north side of the Ottawa and St. Lawrence, from Lake Superior to Labrador. Independent of them various rocks in situ are and may be used for the purpose, such as— Silicious Conglomerate—Vaudreuil Seigniory, Cascades Stations congrumes and Detroit; Ham, range II, lot 10; Port Daniel, at L'Ance a la Veille. Granulus and Corneaus Quartz Rock—This rock accompanies the serpentine of the Eastern Townships, (for the range of which see Marble,) and occurs in too many places to be enumerated; a good sample has been obtained by the Hon. Mr. Knowlon from Bolton, range 6. Granite
—Stanstead; Barnston; Barford; Hereford; Ditton;
Marston; Strafford; Weedon; Vaudreuil Beauce Seigniory, near the band of serpentine. (The Yaudreui) Beauce stone is highly esteemed.) Pseudo-Granile (without Quartz grains)—St. Thérèse, Belæil, Rougemont, Yamaska, Shefford, and Brome Mountains.

Gaindstones—A sandstone designated as the grey band which lies at the summit of the red strata of the Medina sandstones, and which reaches from Queenston by St. Catherines, and round the extremity of Lake by St. Catherines, and round the extremity of Lake Ontario by Hamilton, to Esquesing, and thence to Nottawasaga, has been used in some of the northern townships for grindstones. Some parts of the Potsdam sandstone have been used for the purpose, as in Allumettes, at the Allumettes Falls; and in Fitzzoy, at Shirteff's mills. Some parts of the Gaspé sandstone, in Gaspé Ray, would visid tripdetes bettlets. in Gaspe Bay, would yield grindstones, but though these might prove the best of the Canadian stoner, none of them would equal, those of New Brunswick and Nova Scotia, or those of Newcastle, in England.

WHETSTONES AND HONES—Madoc, range 5, lot 4; Marmora, range 6, lot 22; Lake Mazinaw, rear of Palmerston; Fitzroy, Whetstone Point, Lake Chaudiere: Potton, range 11, on Magog Lake; Stanstead, from Whetstone Island, in Magog Lake, by range 5, lot 19 and 20, and range 7, lot 26, to range 9, lot 28; thence through Hatley, to range 9, lot 3, on Massawippi Lake; Stantead, range 9, lot 4; Bolton, range 14, lut 5; Shipton, range 14, lut 19, and range 5, lot 16; Marston, on Megantic Lake. Megantic Lake.

CANADIAN TRIPOLI, a silicious infusorial deposit-Augmentation to La Noraye und Dautraye Seigniory.

## MATERIALS FOR PAVING, TILING, &c.

ROOFING SLATES-Kingsey, range 1, lot 4; Halifax range 1, lot 14; Frampton, on the land of Mr. Quigley

FLAGG STONES-Toronto, Rivers Credit, Little Mimico, and Etobicoke; Etobicoke, River Humber; York, East Branch of River Don; Lake Temiscamang, 7 miles below the Galère; Bagot, at Calaboga rapids; Horton and Clarendon, at the Chenaux; Sutton range, 2, lot 19: Potton, range 10, lot 2-, at Potton Ferry; Stanstead, cast side of Memphremagog Lake, for some miles above the Outlet; Inverness, range 2, lot 5; Port Daniel, L'Ance à la Vielle.

#### BUILDING MATERIALS.

Granite of superior quality, white, and cleavable.— Stanstead, ranges 4, 5, 6, 7, lots 1, 2, 3, 4, 5, 6; range 9, lot 4, to range 14, lot 11; Barnston, range 9, lot 1; ranges 10 and 11, lots 7 to 15; Barford, ranges 1 and 2, lots 5 to 9; Hereford, ranges 4 and 5, lots 10 and 20; Marston, 18 miles from upper end of Megantic Lake ; Great Megantic Mountain, occupying an area of 12 square miles, about the united corners of Marsden, Hampden, and Ditton; Little Megantic Mountain, 6 Hampien, and Ditton; Little Megantic Mountain, 6 square miles in Winslow, about 1½ miles south-west from line between Aylmer and Gayhurst; Weedon, 1 mile south-east of Lake Louisa; Winslow, 3 miles long, about 5 miles south-east of Lake Aylmer; Strafford, 1 mile, and 3 miles up Felton River; also 6 miles from foot of Lake St. Francis; Lambton, 6 miles from foot of Lake St. Francis.

PSEUDO-GRANITE, without quartz grains, white, cleav-able—St. Thésèe, Belevil, Rougement, Yamaska, Shef-ford, and Brome Mountains. SANDSTONE, yellowish white—Niagara, at Queenston;

Barton, at Hamikon; Flamborough West; Nelson; Barton, at Hamidon; Framborough West; Ncison; Nassagaweya; Esquesing, range 5, lot 17; range 6, lot —; Mono; Nottawasaga; Cayuga, range —, lots 45 and 40; Rigaud Seigniory, Rivière à la Graise; Vaudreuil Seignory, Pointe Cavagnol; Isle Perrot; St. Eustache; Terrebonne Seigniory; Beauharnois Seigniora, Pointe Cavagnol; Beauharnois Seigniora, Poi

niory; St. Maurice Forges; Allumettes; Fitzroy.
Calgareous Sandstone—Ridean Canal; Bytownvarious parts of Ottawa, north side from Bytown, to various parts of Ottawa, north side from Bytown, to Papineau Island; various places from Grenville to Point Fortune; Brockville; Murray Bay, at Les Ecorchats, and White Cape, and the lots of J. B. du Berger and T. Chapreon; Lauzon Seigniory, at St. Nicholas; Cap Rouge, near Quebec.

Limserone—Mahdhou; Manitoulin Islands, along the south side: St. Joseph Island; Coast of Lake Iluron, from Cape Hurd to Rivière au Sable (north); various parts from Cabot's Head to Sydenham, in Owen Sound; and from Sydenham, by Eunipassia to Notawagan;

and from Sydenham, by Euphrasia to Nottawasaga; thence by Mono to Esquesing, and by Nelson to Ancaster; Thorold; Matchedash Bay; Orillia; Rama; caster; Indfoid; Matchedash Day; Offina; Kalna; Mara and various parts to Marmora; Madoc; Belleville; Kingston; McNah; Bytown; and various parts to Plantagenet and Hawkesbury; Cornwall; Isle Bizard; Beauharnois Island, Caughnawaga; Montral Isle Jesus; Terrebonne; Phillipsburgh; St. Dominical Control of the Control of th Iste Jesus; Terresonite; Funitysoniga; St. Dominique; Grondines; Deschamhault; Beauport; Bay St. Paul; and Murray Bay; Upton; Acton; Wickham; Stanstead; Hatley; Dudswell; Temisconata Lake; Gaspé; Port Daniel; Richmond; Auticosti Island.

LIME- Common-In the various localities above enmerated for limestone. Magnesian—In the localities indicated for dolomite. Hydrauhic—Point Douglas, Lake Huror; Caynga, half a mile and 34 miles helow the Village, and the Grand River; Thoold; Kingston; Nepean, near Bytown; Argenteuil?

#### MATERIALS FOR BRICKS, TILES AND POT-TERY.

CLAY-For Red Bricks-This is so widely spread in the valleys of the St. Lawrence, Ottawa, Richelieu, &c., that the localities are too numerous to be mentioned. For White Bricks—York, range 2 from the Bay, lots 19 and 20; Peterborough. For Tiles and common Poltery—All the same localities.

#### MATERIALS FOR ORNAMENTAL ARCHITEC-TURE.

MARBLE-White-Dudswell; exit of Lake Mazinaw, rear of Palmerston (a dolomite.) Black-Cornwall; Phillipsburgh. Brown-Packenham, at Dickson's Phillipsburgh. Phillipsburgh. Brown—Fackennam, at Dicksburs mill. Grey and Mottled—McNah; Phillipsburgh; St. Dominique; Montreal. Variegated, white and green —Grenville. Verd Antique—Stukely. Serpentine—In —Grenville. Verd Anlique—Stukely. Serpentine—in many parts suitable for ornamental purposes, in a range of 135 miles, running through Potton, Bolton, Stukely, Orford, Broupton, Melbourne, Shipton, Tingwick, Wotton, Ham and its Augmentation, Wolfestown, Garthby, Ireland, Coleraine, Adstoch, Tring, Vaudreuil Beauce to Cranbourne; and in another range of 19 miles, running through Leeds.

## COMBUSTIBLE MATERIALS.

PEAT-Wainfleet; Humberstone; Westmeath; Beckwith; Goulburn; Nepean; Gloucester; Cumberland; Clarence; Plantagenet; Alfred; Caledonia; L'Orignal; Osnabruck; Finch; Winchester; Roxburgh; Longueull Seignory; St. Ilyacinthe Seignory, at St. Dominique; Ste. Marie de Monnoir Seignory; Rivière du Loup Seignory; Rivière Ouelle Seignory; Matan and McNider, between Rivière Branché and Riviere Matan.

Petroleum, Naptha, &c-Mosa, range 1, lot 29, and several spots farther down on the River Thames; River St. John, Gaspé, at the mouth, and 6 miles up on Silver Brook.

ASPHALT-Enniskillen, range 6 or 7, lot 9.

## SUNDRY OTHER MATERIALS.

Moulding Sand-Augusta, 3 miles above Prescott;

Montreal; L'Acadie; Stanstead. Fuller's Earth—Nassagaweya, at McKann's mill, Sixteen-mile Creek.

## MILITARY.

COMMANDER OF THE FORCES-Lieut. General Win. Rowan, C. B, Head Quarters, Montreal.

Major Taibot, 43d Foot, Military Secretary; Captain Wetherall, Rifle Brigade, A.D.C.; Capt. Sir J. Alexander, Brevet Major, 14th Foot, A.D.C.; Captain Kirkland, 20th Foot, Extra A.D.C.

GENERAL OFFICERS-Major General Hon. C. Gore, C. B., Commanding C. W.; Lieutenant Gore, 71st

Foot, A.D.C., Kingston. COLONELS ON THE STAFF—Colonel Dynely, C. B., Commanding Royal Artillery, Montreal; Col. Vava-sieur, Commanding Royal Engineers, do.; Captain Saudham, R. A., Major of Brigade, do.

## ADJUTANT GENERAL'S DEPARTMENT.

Lieutenant Col. D'Urban, Acting Deputy Adjutant General, Montreal; Lieut. Col. Young, K.H., Il. Pay, Assist. Adjt. General, Kingston; Lieut. Col. Pritchard, Assist. Adjt. General, Kingston; Lieut. Col. Pritomat, Half Pay, do. Moutreal; Captain Griffin, unattached, D. A. A. G., do.; Captain Claremont, Can. Rifles, do., do.; Ensign McDonall, Town Major, do.; Capt. Knight, unattached, Town Major, Quebec; Brevet Major Bourchier, Half Pay, Town Major, Kingston; Quarter Master Smedley, H. P., Fort Adjutant, 1slc aux Noix.

## QUARTER MASTER GENERAL'S DEPARTM'T.

Lieut. Col. D'Urban, Deputy Quarter Master General, Montreal; Major de Rottenburg, H. P., Assistant Quar. Mast. General, Kingston: Captain E. of Errol, Rifle Brigade, D. A. Q. M. G., Montreal; Capt. Ingall, unattached, do., Quebec.

## COMMISSARIAT DEPARTMENT.

Commissary General—(Not yet appointed). Deputy Com. Gen., F. W. A. C. Major, Montreal.

Assistant Commissary Generals.—T. Rae, F. T. Coxworthy, Quebec; T. E. Trew, Niagara; W. E. Mends, Montreal; F. B. Fielde, Prescott; H. F. Oriel, Kingston; J. McFarlan, William Henry; J. Skyrme, St. John's; W. Stanton, Toronto; W. R. A. Lamont, Bytom; W. H. Daltymple, Quebec; Leonce Routh, Montreal; H. B. Morse, London.

Deputy Assistant Commissaries General .- J. S. Davenport, Montreal; T. McCann, Amherstburg; D. R. Lee, Penetanguishene; J. K. Goold, Toronto; P. N. Telfer, W. H. B. Usher, Quebec; F. S. Parker, Kingston.

Treasury Clerks.—J. B. Gallwcy, T. F. Moore, St. Johns; G. A. Mathew, Bytown; C. E. Probyn, Montreal; D. C. Napper, Montreal; A. Neave, Toronto; A. T. West, Kingston; W. M. Rogers, Montreal; P. P. Harris, Montreal; F. S. Macgregor, London; W. T. McKinstry, Niagara; J. S. C. Sutherland, Quebec; M. B. Irvine, Montreal.

#### ARMY MEDICAL STAFF.

James French, M.D., Inspector General of Hospitals, Montreal; Alexander Melvin, Staff Surgeon, 1st class, Kingston; Wm. Bell, M. D., do., Quebec; Frederick Roberts, do., 2nd class, Quebec; J. G. Wood, M.D., do., do., Kingston; D. C. Delmage, M.D., 2nd class, Toronto; Thomas Blatherwick, Assistant Surgeon, Quebec; V. A. Brown, do., Amhersthurg; J. T. Telfer, Surgeon, 2nd class, Montreal; Wm. Barrett, M.B., Assist, Surg. Montreal; W. Simpson, M. B., M. B., Assist. Surg. Montreal; W. Simpson, M. B., do., Penetanguishene; P. S. Laine, do., Bytown; T. D. Lightbody, M. D., do., St. Helens; W.Rutherford, M. D., do., Chambly.

## ORDNANCE DEPARTMENT.

RESPECTIVE OFFICERS-Montreal-Colonel Dyncly, C.B., Commanding R. A.; Col. Vavasœur, Commanding Royal Engineers; J. Sutton Elliott, Esq., Ordnance Storckeeper; W. H. Blencarne, Esq., Dep. Ord. Store-Storckeeper; W. H. Blencarne, Esq., Dep. Ord. Store-keeper. Quebec—Lieut. Col. Higgins, R. A.; Lieut. Col. Ord, R. E.; W. A. Ilolwell, Esq., Ord. Store-keeper. Kingston—Lieut. Col. Palmer, Com. R. A.; C.W.; Lieut. Col. Streatfield, Com. R. E.; J.A. Harvey, Esq., Ord. Storckeeper. Bytown—P. Mosell, Ord. Storckeeper. Cterks—Kingston—John Dunford, W. Macintosh, G. Dupuy, H. J. Rogers. Quebec—A. F. Thomas, D. Grant, T. Trigge. Montreal—E. Fayrer, J. Greig, E. Wilgress, G. Wilgress, J. Stevens Penn. Bytown—Thomas McDonald, James Duff.

## BARRACK DEPARTMENT.

Masters-W. H. Gray, Montreal and St. Helens; Major J. B. Eliot, Chambly; T. Stephens, W. Henry; — Butcher, St. Johns; F Raynes, Kingston; T. Luard, Prescott; H. Cornwall, Toronto; T. Wii-son, London; W. Duff, Amberstburg; D. Hogg, Penetanguishene.

#### ROYAL ENGINEER DEPARTMENT.

Head Quarters Office Montreal.— Military Branch—Col. Vavasœur, Commanding Royal Engineers in Canada; Capt. B. S. Steheling, Asst. Com. ditto; Lieut. I. A. Murray, Acting Adt. R. Engineers. Cisil Branch—MoBean, Clerk of Works, P. Hanlon, do.; — Feunel, Foreman of Works, Mr. Shaw, Clerk. Kinsston—Military Branch—Lieut. Col. Streatfield, Capt. C. McCausland, Lieut. J. Y. Moggridge, G. F. Dawson, C. H. Seadley.

Capt. C. McCanisiand, Lieut. J. Y. Moggridge, G. F. Dawson, C. H. Seadley.

Civil Branch—T. Rowe, Clerk of Works, S. Shaw, do., J. B. Harper, do.; J. Oakes, do.; C. J. Clarke, do.; J. Grist, Foreman of Works. A. Kempt, do. TORONYO—Military Branch—Capt. Sampson Freeth, Liganian M. M. M.

Lieut, W. H. Noble.

Civil Branch—J. Bennett, Clerk of Works, P. Mahoney Foreman of Works.

London,—Lieut. B. A. Wilkinson, Royal Engineers Byrown—Military Branch.—Captain C. E. Ford, Lieut. F. W. King, Lieut. W. L. Morrison, Lieut. S. B. Farrell.

Civil Branch .- Nelson Walker, Surveyor and Draftsman; C. A. Lancasier, do, do.; C. S. T. Harvey, Clerk of Works; J. FitzGibbon, Foreman of Works; — Cockburne, do.; W. Clegg, Clerk; G. H. Peake, do. Cartillon—Lieut, R. D. Kerr.

## REGIMENTAL.

ROYAL ARTILLERY. — Lieut.-Col. T. G. Higgins, Quebec; Lieut.-Col. R. Palmer, Kingston; Capt. Shakespear, London.

ROYAL ENGINSERS .- Lient .- Col. Ord, Quebec; Lieut .-

Col. Streaffeld, Kingston; Capt. Freeth, Toronto.
19th Foot, Lieut.-Col. Hay, Quebec; 20th Foot,
Lieut.-Col. Horn, Montreal; 23rd Foot, Lieut.-Col. Crutchley, London; 71st Foot, Lieut.-Col. Sir II.
Dalrymple, Toronto; 2nd Batt. Rifle Brigade, Lieut.Col. Legister Col. Lieut.-Col. Sir II. Col. Lawrence, Kingston.

ROYAL CANADIAN RIPLE REGIMENT.—Lieut. Colonel Muter, Commanding, Niagara. This Regiment furnities detachments at Amherstburg, Penetanguishene, Prescott, Brockville, Cotean du Lac, Bytown, Isle aux Noix, Phillipsburgh, Lacole, St. Johns, Chambly, and

## ABSTRACT OF ACTS.

## Municipal Corporations Act amended.

Act 13 & 14 Vic., cap. 64, amends 12 Vic. cap. 81. All the municipal elections in Upper Canada (except those in police villages) are appointed by law to take place on the first Mouday in January in each year, for the election in-

Townships, of five councillors for each; Incorporated Villages, of five councillors for each : Towns, three councillors for each ward.

Cities, two aldermen and two councillors for each waid.

In Police Villages, the elections are appointed to take place on the second Monday in January for the election of three police trustees.

The amended Act empowers the municipal council of any county, at any time before the 31st of December, 1850, to dissolve all or any of the unions of townships, formed or to be formed under the former act, and to form such other unions of the townships within the county as they may think most convenient for the accommodation of the people. In forming such unions, they may attach together any two or more townships

lying within the same county, but not when they shall be within different counties of any union of counties. The townships to be thus united, shall have together not less than 100 freeholders and householders on the collector's roll. The New Actamends the 16th clause of the former Act, to the following: "That whenever any township so attached or united to another shall have within it one hundred resident freeholders and householders on the collector's roll, such township shall, for the year next but one following the making up such roll, and thenceforth, be incorporated by itself, and such township and that to which it shall have been so united, shall thenceforth, to all intents and purposes whatsoever, be held and considered as

separate townships."
The provisions contained in the 208th section of the former Act, as amended by this Act, shall be and continue in force till the 31st December, as follows :-

(Sec. 208.) "That no provision in the foregoing enactments of this Act which requires that any person be possessed of any property qualification, or be assessed for any particular amount, in order to his having a right to vote, or to be elected at any election to be held under the authority of this act, shall have any force or effect, unless or until some act be passed by the parliament of this province in the present or some future session thereof, to provide for the regulation of assessments, and the levying and collecting of local taxes in Upper Canada, and to repeal the general provisions of the acts heretofore in force for that purpose, but all such persons as have heretofore had the right to vote or to be elected at the annual elections of parish and township officers, for the several townships in Upper Canada, shall have the right of voting and being elected for the township and village councillors to be elected under this act, and such persons as have heretofore had a right to vote or be elected at the municipal elections of any city, town or village heretofore incorporated, or having a board of police established by law for the same, shall have the right of voting and being elected for the city, town or village, aldermen and councillors to be ejected under this act for such city, town or village respectively; and the persons entitled to vote or be elected at the municipal elections of every town and village not incorporated as aforesaid, before the passing of this act, shall be the resident male inhabitants, being either householders or freeholders of such town or village, of the age of twe ty-one years or upwards, being subjects of her Majesty by birth or naturalization, and who shall have resided in such town or village for six calendar months pext previous to the holding of the said election, and who shall have been rated on the assessment roll of the said town or village as house-holders or freeholders for the year previous to such election. Provided always, nevertheless, firstly, that the value of the property by the provisions of this sec-tion, required as the qualification of a township councillor, shall be one hundred instead of three hundred pounds, as heretofore required for District Councillors; and provided also, secondly, that in the case of all township councillors, it shall be a sufficient qualification, if in lieu of such one hundred pounds of real property, they shall be seized or possessed of real and personal property, which shall, together, amount to two hundred pounds; and provided also, thirdly, that in the case of all such towns and villages as are lastly above mentioned, every person to be elected a councillor for any such town or village, shall be seized and possessed to his own use in fee, of lands and tenen ents within the county or union of counties in which such town or village shall be situate, or within some one or other of the counties or unions of counties, next adjoining such first mentioned county or union of counties, of the real value of one hundred pounds currency, over and above all charges and incumbrances, due and payable upon or out of the same; and provided also, fourthly, that in the cities and towns in which, at the passing of this Act, a provision exists for the registering of votes, the same shill continue and be in force until repealed altered or amended by a by-law of the corporation of such city or town; provided also, fifthly, that whether any such new Act for regulating assessments in Upper Canada, shall or shall not be passed prior to this Act coming into force, the persons hereinbefore in this section described as entitted to elect and be elected under this Act, until such new assessment have shall have been passed as aforesaid, shall be those entitled to

relect and be elected respectively; and provided also, sixthly, that my town, the Act of Incorporation of which had been disallowed, or had expired before the first of January, in the year of our Lord one thousand eight hundred and fifty, shall be taken and held to be an incorporated town within this section."

The member of council having the highest assessment, to have a casting vote, in case of an equality in choosing a presiding officer. Reeves and deputy reeves to shew their return, before taking their seats in the county council; the deputy to produce copy of township roll.

SCHEDULE D., omitted in the former Act, is supplied in this one, as follows:—

#### SCHEDULE D.

Towns with municipalities only, or without any municipal organization :-

PIRST DIVISION.

1. Amherstburgh. 2. Chatham.

4. Perth. 5. Suncoe. 6. Woodstock.

3. Guelph. 1. Barrie.

SECOND DIVISION. 3. Queenston. 4. Sandwich.

2. L'Orignal. The explanations and objects of this schedule, are

The explanations and orgetts of this scienciale, are contained in the 202nd to the 202th clauses, inclusive of the former Act.—Vide Municipal Manual.

The present Act expressly legalizes such things as were done under the former Act, the legality of which may have been in any way doubted, except those cases respecting which proceedings at law had actually been instituted before the passing of this Act, and which were then still pending before the proper tribunal.

The schedules, defining the limits of the following towns, or the wards comprised in them, are either amended or remodelled, viz. — Belleville, Cobourg, Picton, Port Hope, Prescott and St. Catharines.

Contested elections are to be decided by the judges of the superior courts of common law, on a writ

of summons in the nature of a quo warranto.
Sec. 28. As many assessors and collectors to be anpointed for the township, as may be prescribed by the assessment law. The assessment law, sec. 14, leaves it discretionary with the councils to appoint one or more assessors or collectors.

Sec. 117. Wherever there shall be a police magistrate for any town or city, the power of granting licenses to innkeepers, and the keeping of ale and beer houses within such town or city, or the liberties thereof, under such by laws as may be made for that purpose by the municipal corporations thereof, shall be vested in and belong to such police magistrate; and whenever there shall be no police magistrate for any such town or city, such power, under such by-laws as aforesaid, shall be vested in and belong to the mayor of such town or city.

By sec. 7 of the new Act, the powers and duties, by the 30th and 31st sections of the Land Surveyors Act, 12 Vic. cap. 35, conferred and imposed on the county conneils, are transferred to township councils.

Sec. 10 empowers county councils to establish a lock up house in any town, incorporated village or police village within their respective counties. It may be used for commitment, inter alia, by magistrates acting under the summary panishment Act.

Sec. 11, et seq., relates to provisional conneils and their powers; authorizes them to borrow money for

county purposes, under the same restrictions as municipal councils, and declares that they always possessed the power. &c.

#### New System of Assessment,

In the several Townships, Villages, Towns and Cities, in Upper Cunala, established by the Act 13 and 11 Vic. cap. 67.

Sec.1. For all purposes for which local and direct taxes are or shall be levied by authority of law, unless the same shall be otherwise specially provided for by law, all LAND and all such personal, property as is hereafter defined in Upper Canada, shall be liable to taxa-tion, subject to the exemptions hereinafter specified; and the occupant of any land belonging to Her Majesty, shall be liable to taxation for it, but the land shall not be chargeable for the tax.

SEC. 2 The term "LAND" shall include the land itself,

all buildings, &c. erected upon it, all trees and underwood, mines, minerals, quarries, and fossils, except mines belonging to Her Majesty; and the terms "REAL ESTATE" and "REAL PROPARTY" shall have the same

meaning as "land."

Sec. 3. The terms "Personal estate" and "Per-SONAL PROPERTY," shall include only such goods, chattels, and other property, as are enumerated in the Schedule A, annexed, viz.:—

#### SCHEDULE A.

Personal Property liable to Taxation under this Act

" All horses of three years old and upwards.

"All near carriages of all descriptions, and also all

carriages kept for hire.

"The average stock of goods on hand, of every merchant, trader or dealer, manufacturer, tradesman or mechanic, such average stock to be considered to be the mean between the highest and the lowest amount of goods on hand, at any time during the year.

"The amount of all stock or shares in steamers, schooners, or other water craft employed in the conveyance of freight or passengers, and owned within

the municipality.

The term "PROPERTY" shall include both real and

personal property, as alove defined.

No person deriving INCOME from any trade, SEC. 4. calling, office, or profession, exceeding £30 per annum, shall be assessed for a less sum, as the amount of his not taxable personal property, than the amount derived from such income during the year theu last past, which shall be held to be his net taxable personal property, unless he has other, to an equal or greater amount. Sec. 5. Exempts from Taxation Public Property, Colleges, Schools, Churches, Hospitals, &c. Sec. 6. All taxes shall be levied upon the whole taxable real and personal property of the locality, in proportion to the assessed value thereof, and not upon any one or more assessed value thereof, and not upon any one or more kinds or species of property in particular. Sec. 7. All lands shall be assessed in the township, village, or ward* in which they lie, and in the name of the owner, if known, and if he resides and has a legal domicile, when the assessment shall be made, within the municipality, and if such lands be occupied by such owner or wholly unoccupied; but if the owner be not resident or be unknown, and the land be occupied, it shall be assessed in the name of land be occupied, it shall be assessed in the name of the occupant; and occupied land owned by a party residing or having a legal domicile in the municipality where it is situate, but occupied by another party, may be assessed in the name of the owner or the occupant, and the taxes recovered from either, or from any future owner or occupant, saving his recourse against any other party; and if any land be owned or occupied by more than one party, then any one or more of them may be deemed the owner or awners, occupant or occupants, and shall be liable accordingly, saving his or their recourse against the others; and any occupant may deduct from his rent any taxes he may have paid, if the same could also have been recovered from the if the same could also have been recovered from the owner, unless there be a special agreement between them to the contrary. Sec. 8. Unoccurred LANDS, not known to be owned by any party, resident or having a domicile in the municipality where they are situate, or belonging to any party, whose residence or domicile, upon diligent inquiry by the assessor of the municipality, shall not be found therein, shall be denominated "LANDS OF NON-RESI-DENTS," and assessed as specially provided by the Act. DENTS," and assessed as specially provided by the Act-Sec. 9. Every party shall be assessed in the Town-ship, Village or Ward, where he actually resides when the assessment is made, for all taxable personal property, situate therein owned by him, including all taxable personal property in his possession or under his sole controll as Trustee, Guardian, Executor or Administrator; and in no case shall property so held be assessed against any other party, and if it be owned or possessed by or under the controll of more than one party, each shall be assessed for his share, or if they hold in a representative character then each shall be assessed for an equal portion. Sec. 19, The TAX-ABLE YEAR shall correspond with the natural year, commencing 1st January and ending 31st December.

Sac. 11. The sums which shall be required by law, or by any by-law of any Township or County, for any lawful purpose, shall and may be taxed, rated and raised, upon estimate of the amount so required, for each year in which such tax is to be levied; but in each year in which such tax is to be leviled; but in Cities and Incorporated Towns or Villages, the taxes shall be imposed by by-laws, declaring the yearly rate in the pound, to be leviled on the value of all taxable property, and the yearly value of taxable PERSONAL PROPERTY shall be six per cent. on the assessed actual value thereof. Sec 12. Relates to the disposal of the surplus or supplying the deficit, in the amount raise! Sec. 13. The yearly value of REAL PROPERTY in Ciries or Incorporated Towns or Villages shall be the real RACK-RENT or full YEARLY VALUE thereof, to be ascertained by the Assessors, for each separate teneof land be attached to any house or building forming a separate tenement, the overplus shall be held to be vacant ground, the full actual value whereof shall be estimated by the Assessors, and the YEARLY INTEREST on such value, at six per cent, shall be deemed its yearly value. Sec. 14. Councils in their discretion may appoint one or more Assessors and Collectors. SEC. 15. may divide the Municipality into Assessment districts.

Sec. 16. Between the 1st February and 1st April, in each year, the Assessors shall proceed to ascertain by diligent inquiry, the names of all the taxal le inhabthe taxable property therein, and its extent, amount and value. Sec. 17. Relates to the form of the Assessment Roll. Sec. 18. It shall be the dutyof each PARTY AS-SE-SABLE in any locality, if required by the Assessor, to deliver to him a STATEMENT IN WRITING, signed by such party (or if he be absent, by his Agent,) containing all the particulars respecting the PROPERTY OF INCOME, assessable against him, which are required in the assessment roll; and such statement shall be declared to by such party or his Age. t, before the Assessor, in the following form:

"1, A, B., do solemnly declare, that the foregoing statement contains a full and true account of all taxable property and income, assessable against me, (or against Derry and income, assessante against the (or against ob. in the Township, Village or Ward of and that the amount or value (or yearly value) therein assigned to the same, are the full and true amount and value (or yearly value) thereof, to the best of my knowledge and belief; (and if the declaration he made by an Agent, add, And that I have the means of knowing, and do know the extent and value of the property assessable against

the said -

Any wilfully false statement in any such declaration shall be a misdemeanor, punishable as perjury; and if any such assessable party shall fail to deliver such statement and declaration to the Assessor, when so required, he shall thereby forfeit to the Municipal Corporation of the locality the sum of £5 currency. Provided that no such statement shall bind the Assessor, further than he shall from his personal knowledge, believe it to be correct, nor shall it excuse him from making due inquiry, whereby to ascertain whether it is or is not Sec. 19 Relates to persons assessed in a reprecorrect sentative character, as Trustee, Guardian, &c., and directs that such assessments shall be kept distinct from the individual assessments of the parties.

SEC. 20. The LANDS Of NON-RESIDENTS shall be designated in the Assessment Roll, separate from the other assessments, and headed "Non-residents" Land Assessments." Sec.21. All real and personal property liable to taxation, shall be estimated by the Assessors at its FULL VALUE, for FULL YEARLY VALUE as the case may he), as they would appraise the same in payment of a just debt due from a solvent debtor. Sec. 22. Every MALE INUABITANT of any City, incorporated Town or VIL-LAGE, of the age of 21 or upwards, and not over 60, not otherwise assessed, and not now exempted by law from performing STATUTE LABOUR, shall instead of abour, be taxed lbs. yearly, failing payment, to be levied by distress and imprisonment. INHABITANT of any Township, between the ages aforesaid, and not otherwise assessed, shall be hable to two Statute Labour on the roads and highways, in such Township; and every party assessed upon the Assessment Roll of any Township, shall, if the property of such party be assessed-

At not more than £50, be liable to 2 days labour At more than £50, but not more than £100.3 "

COMMUTES the STATUTE LABOUR against NON-RESIDENTS for 2s. 6d. currency for each day's labor, to be collected with their other taxes. Sec, 24. Assessors to complete their Rolls, by the time to be appointed by the Municipality. Sec. 25. And immediately after to leave for EVERY PARTY named thereon, and resident or domiciled in the Municipality, a NOTICE of the actual or yearly VALUE at which his real property. and of the sum at which his taxalle personal property shall have been assessed by them. Sec. 26. Assessors to certify their rolls. Sec 27. And to deliver them to the clerk of the Manteipality, Sec. 28 to 30. Allows parties deeming themselves aggrieved by the valuation of the assessors, to APPEAL within six days after the assessor's notice shall have been left with them. Non-residents may appeal within six days after the roll shall have been left with the clerk. The complaint to be tried by a court of five members of the Council. Sec. 31. In every case in which any sum is to be levied for COUNTY PURPOSES, the municipal council of the county shall, by by-law, direct what portion of such sum shall be levied in each township, or incorporated town or village in such county. Secrits 32. The clerk of the city, town, vilage or township, to make out the collector's roll. Sec. 33. The Collector to call at least once on each party taxed, or at the place of his usual residence or domicile, if within the municipality, and demand payment of the taxes. Taxes upon lands of NON-RESIDENTS, may be paid to the COUNTY TREA-SURER, with five per cent. commission adde I. SEC. 31. TAXES NOT PAID within fourteen days after having been Taxes not pain within fourteen days diet in mig sea demanded by the collector, shall be levied by thin, by distress and sale of goods and chattels. No claim of property, lien or privilege to prevent the sale. Sec. 35. Collector shall give six days' notice of sale. Surplus, if any, after paying taxes and costs, to be re-turned to the party. SEC. 37. If a party removes from his locality without having paid his taxes, the collector may levy and collect the tax and costs by distress and sale of his goods and chartels, in any township, village, town or city, which for judicial-purposes shall be within the same county, and to which the party shall have removed. Sec. 38. Collector may receive taxes on undivided portions of lands. Sec. 39. The COMMISSIONER OF CROWN LANDS, Within thirty days after 1st January yearly, shall transmit to each County TREASURER a list of all the lands granted or leased during the preceding year; and the treasurer shall furnish each township clerk in their respective counties with a list of all the lands in their several townships, that have been granted or leased during the said term. SEC. 40. Collector to receive taxes on lands of non-residents if tendered to him within the time of his collection. SEC. 41. Collectors to return their rolls, and pay over the moneys yearly to the treasurer or chamberlain of their respective nunicipalities, by the 14th December, or such other day as the County Council shall appoint. SEC. 42. Collectors to render accounts on oath of unpaid taxes. County treasurer or city chamberlain to sell the lands. Sec. 43. Clerks to furnish local treasurers or chamberlains with copy of collector's so far as it relates to lands of non-residents. Sec. 41. Treasurer to enter taxes in a book. SEC 45. As to taxes not paid to collectors, treasurer to send, within a month, circulars to the parties by post, de-manding payment: where the parties are not known, list to be published in the Canada Gazette. The TREASURERS of the several counties, shall, on or before 1st January, 1851, make out and submit to the Municipal Council of the County, a true list of the lands in their counties respectively, or in any cities or

liberties, lying within the limits or on the borders of such county on which any taxes shall then REMAIN DNPAID, stating the number of acres in each lot, or part of lot, describing the same as hereinbefore prescribed with regard to such lands, the number of years for which it is in arrear for taxes, and the amount of taxes due on each lot or part of lot respectively, both for taxes chargeable under the Wild Land Assessment for assessments lawfully imposed under Law, and by-laws of the Manicipal Councils, together with the names of the owners respectively, as far as such treasurers may be enabled to ascertain the same; and the said arrears shall be certified to the clerk of the proper locality by the county clerk, and shall be added to the Assessment Roll for 1851, and collected in like manner, and the proper proportions of the moneys so collected shall be accounted for and paid over to the treasurers of the several municipalities for the purposes for which they were originally imposed. Sec. 47. In all cases where any township or townships, or part or parts thereof, shall have been detached from any district or county, for the formation of any new district or county, since the passing of the Wild Land Assessment Law, the treasurers of each of such districts or counties respectively, shall, on or before 1st January, 1851, meet together at some convenient place, to be agreed on between them, and make up a correct list of the arrears of taxes due on the lands in such townships. or parts of townships respectively, up to the periods at which such lands became parts of the said new districts or counties, and it shall be the duty of the clerk of the county in which the township then actually lies, to include the amount of such arrears of taxes due in the township in his list of arrears of taxes due on such lands respectively for the year 1851; and it shall be the duty of the treasurer of the county to pay over to the treasurer of the county or district from which such townships or parts of townships were respectively detached, that portion of the said arrears accrued while the township was part of such district or county, which is by law applicable for county purposes, reserving for the use of his own county that portion only of such arrears which is applicable for the roads and bridges in the said townships respectively, the payments to be made on or before 1st January, SEC. 43. COUNTY TREASURER OF CITY CHAMBERLAIN, within 30 days after collector makes his return, to issue a WARRANT, under his hand and seal, directed to the sheriff of the county, or high bailiff of the city, to levy on the lands of non-residents for taxes due and costs. SEC. 49. Sheriff or high-bailiff to execute warrant within the then current year. Sec. 50 to 52. To advertise sale Sec. 53. If taxes not paid, land to be sold on the day named. Sec. 51. Sheriff or high-bailiff to give certificate of purchase to the purchaser, SEC. 55. Holders of certificates to pay subsequent taxes. SEC. 56. Three years allowed original owner to redeem the land from holder of certificate, by paying principal and costs, and interest at the rate of 10 per cent. SEC. 57. If not redeemed, sheriff or high-bailiff to convey the land absolutely to pur-chaser. Sec. 58. Right of purchaser to protect the property hefore the conveyance is made to him. SEC. 59. COUNTY TREASURER to pay over to local treasurers the amount of TAXES OF NON-RESIDENTS collected, and belonging to them respectively. Sec. 60. Treasurers and chamberlains to give security, Sec. 61. Penalty of £25, on assessor refus-ing or neglecting to perform his duty. Sec. 62. Assessor or collector making an unjust or fraudulent assessment or collection, to be guilty of a misdemeanor, and on conviction, liable to a fine of £25, and imprisonment till paid, or imprisonment for six months, or both. Sec. 63. Summary mode of enforcing payment from a collector in default, Sec. 64. Duty of sheriff or high-bailiff in such case. Sec. 65. Proceedings against sheriff or high-hailiff for neglecting his duty. Sec. 66, Penalty for same. Sec. 67, Interpretation clause. Sec. 68, Commencement of Act, 1st January, 1851.

#### New School Law.

13 & 14 Vic. cap. 9—The annual meetings for the election of school trustees, shall be held on the 2nd Wednesday in January in each year, commencing at 10 o'clock, a.m. In all school sections in which there were three trustees in office when this Act came is force, viz.—24th July 1850 (except in cities, towns and incorporated villages), one trustee shall be elected at each annual meeting, in place of the one who shalt have been three

years in office. A trustee, if willing, may be re-elected. No trustee shall be re-elected, except by his own conoffice. At every annual school section meeting in any TOWNSHIP, on the second Wednesday in January, it shall be the duty of the freeholders and householders present, or a majority of them—(1.) To elect a chairpresent, or a majority of them—(1.) To elect a chairman and secretary. (2.) To receive and decide upon the report of the trustees. (3.) To elect one or more persons as trustees. (4.) To decide upon the manner in which the salary of the teacher or teachers, and all the expenses connected with the operations of the school or schools shall be provided When a NEW SCHOOL SECTION shall be formed by he township council, the town clerk shall communicate to the person appointed to call the first meeting for the election of trustees, the description and number of the section; and such person shall, within twenty days thereafter, prepare a notice in writing describing the section, and appointing a time and place for the first meeting. Copies of the notice to be posted in at least three public places in the section, at least six days before the time of holding the meeting. The order of peroceeding at the meeting to be the same as above described. Three trustees shall be then chosen for the new section, who shall continue in office as follows :the last person elected, until the next annual school meeting in the section, on the second Wednesday in January following, and until his successor is elected; the second person elected, one year, and the first person elected, two years from such annual school meeting, and until their successors are elected respectively. trustee refusing to serve shall forfeit 25s. A trustee not having refused to accept, who shall at any time after-wards refuse or neglect to perform his duties, shall forfeit £5. A trustee may resign, with the written con-sent of his colleagues and of the local superintendent. In case of there being no annual or other school section meeting held, for the want of due notice, the trustees or others whose duty it was to give the notice, shall forfeit 25s. each for their neglect. Any two freeholders or householders in the section are authorised, within twenty days after the meeting should have been held. to call a meeting for the performance of the requisite duties, by giving six days' notice, to be posted in at least 3 public places in the section. In CITIES AND TOWNS, two school trustees are to be elected in each ward by a majority of the taxable inhabitants therein; one of them (to be determined by lot, at the first trustee meeting after their election) shall retire from office the second Wednesday of January following such election; and the second shall continue in office a year longer, and until his successor is appointed. The persons thus elected in the several wards to form one board of trustees for such city or town. The first election of trustees in cities and towns took place on the first Tuesday in September 1850. The annual election shall take place on the second Wednesday in January, when one fit and proper person shall be elected in each ward (in place of the retiring trustee), who shall continue in office two In INCORPORATED VILIAGES, on the second vears Wednesday in January, 1851, a meeting of the taxable inhabitants, to be called by the Reeve posting notices in at least six different places, at least six days previously, shall be held, which shall be organised and conducted as above specified for meetings in cities and towns, and at it six fit and proper persons from among the resident freeholders or householders shall be elected school trustees for such incorporated village; the persons thus chosen shall be divided by lot into three classes of two each, to be numbered one, two and three; the first shall hold office one year, the second three; the first shall had been some year, and antil their successors are elected. There shall be a like school meeting annually in each such incorporated village, on the second Wednesday in January, at which two trustees shall be chosen (in the place of the two retiring), who shall continue in office two years, and until their successors are elected. Township superintendents are done away with, and the county councils are empowered to appoint annually a LOCAL SUPERINTENDENT for the whole county, or for any one or more townships in it, as they shall judge expedient. No local superintendent to have the oversight of more than 100 schools. In cities and towns, the local superintendent shall be appointed by the board of school trustees. The board of

trustees for the county grammar school, and the local superintendent or superintendents of schools in each county, to constitute a BOARD OF PUBLIC INSTRUCTION for the county. Where there is more than one grammar school in a county, the county council may divide the county into as many circuits as there are grammar schools, the trustees of each grammar school, and the local superintendent or superintendents in each circuit to form a board of public instruction for it. members, including a superintendent, to constitute a quorum for examining and giving certificates of qualification to common school teachers, but not less than five members to constitute a quorum for other business. Local superintendents to visit each school within their jurisdiction at least once a quarter. All clergymen, judges, members of the legislature, magistrates, members of county councils and aldermen shall be SCHOOL VISITORS. The act contains voluminous details, which it is entirely beyond the limits and design of a work of this description to attempt to end ody in it: they refer to the election and duties of school trustees; common school teachers and their duties; duties of township councils; councils and trustees in cities, towns and incorporated villages and their duties; duties of county municipal councils; constitution and duties of the superintendents of public instruction; duties of local superintendents of schools; school visitors and their duties; duties of the chief superintendent of schools; constitution and duties of the council of public instruction; and lastly, miscellaneous provisions. For these the Act itself must be consulted.

Branding Flour.
(Act 13 and 11 Vic., Cap. 20)
All Flour hranded, or marked, shall be equal in quantity to flour inspected at the City of New York, and bearing the like brand or mark of quality. The different qualities shall be designated as follows, viz.: Very superior quality, by the words "Extra Superfine." Second quality, do do "Superfine."

Second quality, do " Superfine No. 2." Third quality, do " Fine. Fourth quality, ob do " Fine Middlings."
" Middlings." Fifth quality, do do Sixth quality do do " Pollards.

Seventh quality, do do "Pollards."

Quality called "Farine Entiere," by the letters "E.N.T." by which latter description of flour, shall be understood the whole produce of the wheat, when ground.

excepting the coarse bran and pollards.

Branded "Ryc Flour," "Indian Meal," and "Oatbranden "Agerion", Indian meat, and Carmeal," to have the name of the flour branded on the blist, and the quality to be designated as follows:—

Very Superior, by the word, "First."

Next Inferior, do do "Second."

do " Second."
do " Third."
do " Unbrandable." Next Inferior, do Lowest quality, tlo

When the grain from which flour or meal, of any description, is manufactured, has been previously kiln dried, the same shall be branded, either at length or by the word and letter " Kiln D." on each bbl.

# HUGH SCOBIE.

Bookseller and Stationer, Printer, Bookbinder, Lithographer, Copperplate and Wood Engraver, &c.,

ADELAIDE BUILDINGS, 16, KING STREET EAST,

TORONTO, UPPER CANADA.

CRATEFUL for the encouragement and support which have been beretofore extended to him, in the various departments of his business, begs leave respectfully to solicit a continuance of public confidence and favour. With the growing extent of his business, he is better enabled to meet the public wants; and to make

favour. With the growing extent of his business, he is better enabled to meet the public wants; and to make corresponding reductions in prices.

His Stock of BOOKS and STATIONERY is at all times varied and extensive, being regularly replenished with fresh supplies, obtained in the best markets, and on the most favourable terms. Dooks, &c., obtained from England, New York, &c., to the special order of parties, when desired.

In the PRINTING DEPARTMENT, care is taken to add regularly to his stock the best and newest descriptions of Type; and he is at all times prepared to execute orders for Plain and Ornamental Printing, in all their branches, with neatness and expedition, and on the most reasonable terms.

The BOOKBINDING DEPARTMENT is equally well attended to; and every description of Plain and Fancy Binding executed to order, in the very best and most substantial sple. Attached to the Bindery is a superior RULING MACHINE, by which Books and other blank work are executed to any pattern, on the shortest notice, and on the most reasonable terms.

The LITHOGRAPHIC DEPARTMENT is particularly worthy the attention of all requiring this description of work. Maps, Plans, Charts, Diagrams, Landscapes, Portraits, Circulars, Bank Cheques, Notes, &c., can be executed on the shortest notice, at a price far below that of Engraving on Copper or Steel, and in many instances not perceptibly inferior in execution.

executed on the shortest notice, at a price far below that of engagaring of copies of section in execution.

COPPER-PLATE and WOOD ENGRAVING executed to order, and printed either from the Plates or Wood Cuts, or (by being transferred) from the Stone, at the option of parties.

Orders in every department of the business, will be at all times promptly attended to; and it will, moreover, be the constant aim of the Subscriber, to merit a continuance of the very extensive and daily increasing support with which he has been honoured, by the due observance of promptitude and economy in all his transactions.

HUGH SCOBIE.

# ADVICE GRATIS!

# DR. F. A. CADWELL,

# OCULIST AND AURIST.

Member of the College of Physicians and Surgeons of Canada and the United States.

OPERATOR ON THE EYE & EAR.

For Deafness, Blindness, and all Defects of Sight and Hearing.

The EYE and EAR are useful and complicated organs, and the numerous diseases to which they are subject, and the proper knowledge necessary to overcome them, is not to be obtained without great labour and experience.

Dr. C. has for many years past devoted his whole attention to this class of diseases, has been extensively and successfully employed in nearly every City in the Province, restoring the Sight and Hearing of a great number of individuals.

It is well to know that

## ALL DISEASES OF THE EYE AND EAR ARE CURABLE,

at some period of time, and are only rendered otherwise by neglect, and improper treatment. Hundreds of cases may be found in the Province, of persons who are partially or wholly BLIND or DEAF, and who will probably always remain in that state for the want of proper advice; it is equally certain that with proper treatment, seven tenths of those cases could be restored to comfortable sight and hearing; and as a thorough knowledge of these delicate and important organs is not at the disposal of every one, I have determined to

# GIVE ADVICE GRATIS

to all who may wish to know my opinion as to whether their disease is one which may or may not be cured. No excuse need therefore be made in future for allowing curable cases to remain unrelieved by treatment.

The charges will always be moderate when treatment is recommended; and where patients remain under direct treatment, subject to my directions, without being relieved.

No charge will be made for either Medicine or Attendance.

All Communications, if post-paid, will be promptly answered, and a card of reference will be forwarded, if requested.

## ARTIFICIAL EYE

INSERTED WITHOUT PAIN, & MADE TO MOVE, & MATCH THE SOUND EYE PERFECTLY.

Squinting or Cross-Eye cured in less than one minute,

By a very simple and easy operation, with guaranteed success.

## THE CANADA LIFE ASSIT R COMPAN

INCORPORATED BY ACT OF PARLIAMENT.

HUGH C. BAKER, Esq., President; JOHN YOUNG, Esq., Vice-President. Bankers-THE BANK OF MONTREAL.

THE Business of this Company includes Assurances upon Single Lives, either with or without Profits: Assurances upon Joint Lives and Survivorships; Endowment Assurances, to secure sums to parties on ments for Children, payable on their attaining a given age; Immediate, Deferred, and Survivorship Annulities; and every other legitimate transaction contingent on the duration of Life.

The originators of this Company had long seen that, although Canadians were to a very great extent indebted to British Companies for the successful introduction among them of the advantages of Life Assurance, there were nevertheless important objections against the monopoly by those Companies of the Life business in the Were nevertheless important objections against the monopoly by those Companies of the Life business in the Province. One was, that an enormous revenue was yearly transmitted to Great Britain for the purposes of Life Assurance, to the detriment of the already impoverished resources of Canada; and the other, that the advantages which Life Assurance secured through these Companies were secured at too high a cost—an evil to be attributed to their expensive management, and the low rate of interest which they made on their investments. There were other objections, too, of minor importance: such as the delay attendant on the settlement of claims, and the frequent practice of making no allowance for premiums paid, when parties, from inability to continue them allowed their redisings to large. to continue them, allowed their policies to lapse.

To do away with these evils, this Company was formed: and to show how well it has succeeded-while its stability is unquestionable—it offers, in consequence of the smallness of its expenditure, and the lucrative rates at which its funds have been invested lower rates of assurance and more liberal terms, than have ever been offered in Canada; its income is now nearly equal to two-thirds of what was calculated to have been annually sent out of the country for Life Assurance premiums. It offers every facility to enable a speedy adjustment of claims, and it makes an equitable allowance for payments on lapsed policies.

As regards the REDUCED SCALE FOR LIFE WITH PROFITS, the Directors have found that their As regards the REDUCED SCALE FOR LIFE WITH PROFITS, the Directors have found that their anticipations regarding the extent of profits, or rather the excess of premium, have been well grounded; they have been enabled to return 25 per cent. of the premiums received after paying all expenses, and reserving not only the full amount requisite to cover increased risk, but in addition thereto, the full sum which should have been lost by death; and they therefore feel that the time has arrived to warrant a moderate reduction in the "Scale with Profits" (rather less than 10 per cent.), admitting the assured to an immediate participation in the peculiar advantages of the Company, by a diminished payment. The scale has been entirely revised, and a comparison will show that while as a whole it is materially below the rates of other Companies, it is yet more favourable to the assurers at younger ages, this being the evident result of even a small advance in the rate of Interest at which the funds of a Company can be invested.

The following are specimens of the rates to assure £100 at death :

WITH PROFITS-(New Rates.)	WITHOUT PROFITS.
	Age. £ s. d. Age. £ s. d.
	15 1 6 5 40 2 14 8
20 1 12 8 45 3 11 8	20
25 1 17 10 50 4 5 2	25 1 14 7 50 3 17 11
30 2 4 6 55 5 7 8	30
35 2 11 4 60 6 17 6	35 2 6 4 60 6 9 11

The following table is given as showing in the fairest way the superior advantages which the Canada offers; (as great advantages will be apparent if the non-participating rates are similarly compared).

Sum of the Premiums to assure £100 at the several ages from 15 to 60 inclusive, with participation:

	T	s. a.
Canada (New)	147	7 0
Colonial	154	2 2
American Co's, generally	156	5 6
United Kingdom	156	7 10
Church of England	157	2 5
British Commercial	159	9 8
Eagle and Protector	160 1	11 4
National Loan Fund	161	4 0
Britannia (from 16 to 60 inclusive)	162 1	1 6

Premiums payable either in one sum, or annually, semi-annually, or quarterly, for life, or for a limited

The lives of Females assured, according to age last birth-day.

All Policies payable within three months after proof of death is lodged to the satisfaction of the Board. Travelling and residence limits very liberal.

Medical Fee for examination paid by the Company.

No extra charge made for sea risk to or from Europe in first class sailing or steam vessels.

Prospectuses, Forms of Peroscal, and all particulars relating to Assurance, may be obtained at the Head Office, or any of the Company's Agencies.

THOS. M. SIMONS.

Secretary.

# TO ADVERTISERS.

CANADIAN ALMAN

DRESENTS unrivalled advantages to Advertisers. There were \$0,000 COPIES printed of the of ... ALMANAC FOR 1850, and in the course of a few months the whole were sold—the demand still to continuing throughout the year, without the means of supplying it. This has induced the publisher to enlarge To delition, and he has accordingly printed 35,000 COPIES of the ALMANAC FOR 1851. From stability tount of orders already received, it is obvious that the edition for 1851 will meet with as general and at which sale as did that for 1850. No other periodical in British North America enjoys so large a circulation as offered anadian Almanac, and it is therefore the best medium for advertising in the Province. An edition of sent out copies, spread over the whole country, in the houses and places of husiness of the inhabitants, and of claimed for daily reference during the year, must come frequently under the notice of at least 150,000 persons.

As rates of Advertising in the Almanac, taking into account the large circulation, are less in proportion than anti- ordinary rates for advertising in Newspapers. They are the following:—

For a whole page. £10 0 0 | For a quarter page. £2 10 0 |
For a half page 5 0 0 | For an eighth of a page 1 5 0

It is probable that the edition of the Almanac for 1852, will exceed by several thousand copies that for 1851, Parties wishing to advertise in it, are requested to send in their advertisements to the Publisher on or before the 1st of October next. All letters must be post-paid.

HUGH SCOBIE. Publisher.

Toronto, November, 1850.

# COBIE'S MUNICIPAL MANUAL, FOR UPPER CANADA.

CONTAINING the Municipal Corporations Act, General Road Act, and the various other Acts of the Legislature, which confer powers or impose duties on the Municipalities, was published in May last, for the convenience and guidance of Councils and the public at large; but, since then, changes have been effected by the Legislature, which render a second publication necessary. The subscriber has therefore arranged to publish, without delay, a

SUPPLEMENT TO THE MUNICIPAL MANUAL,

Containing the amendments to the Municipal Corporations Act, the new Assessment Act, &c. The Supplement will be uniform in size with the Manual, so that both may be bound together. The Municipal Manual and Supplement, ought to be in the possession of every one who wishes to be conversant with the Municipal laws of the Province, and the mode of carrying them beneficially and legally into execution.

HUGH SCOBIE. Publisher.

Toronto, November, 1950.

# The British Colonist,

A Bi-weekly Newspaper, published at Toronto, Upper Canada, by Hugh Scobie.

ON TUESDAY AND FRIDAY MORNINGS,

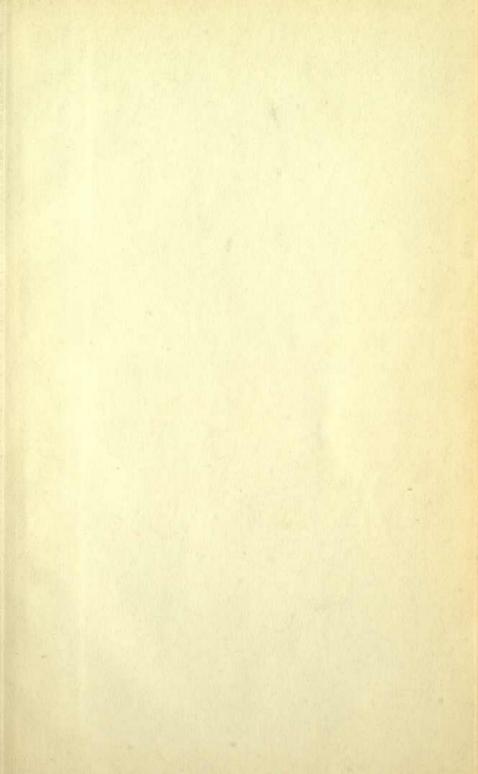

AND TRANSMITTED BY THE EARLIEST MAILS OR OTHER CONVEYANCE.

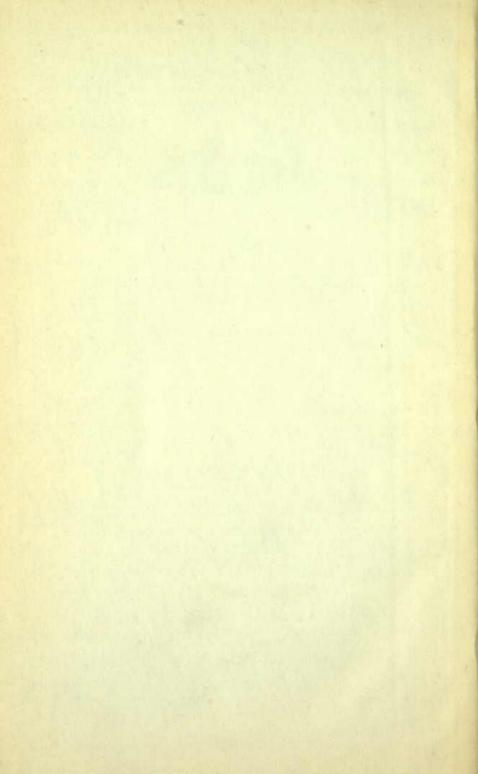

TERMS: -£15s., Currency, per annum, less the Postage to Country Subscribers. Advertisements, 4d. per line

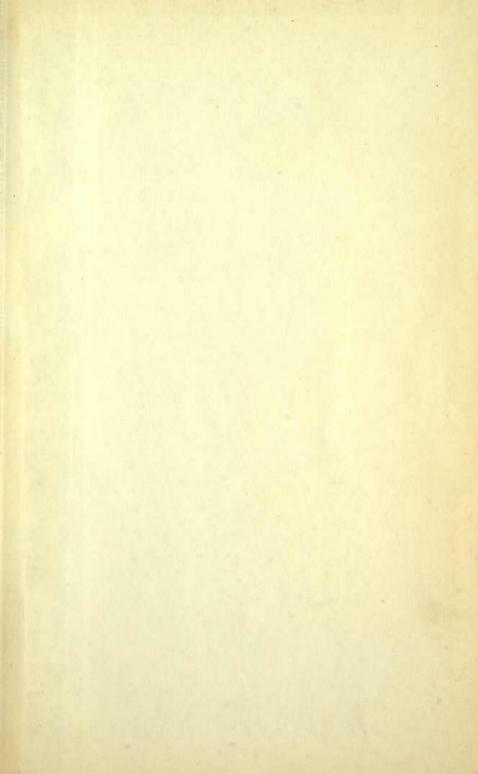

he first insertion, and Id. per line for each repetition.

THE BRITISH COLLAIST has enjoyed the confidence of the Canadian Public for the past thirteen years, and so exertions will be spared to render it worthy of a continuance of the very liberal support which has been heretofore exended to it. It will always contain the latest news by Telegraph, by Express, and by the Mails; and the greatest care will continue to be bestowed upon it, so as to render it in every respect an acceptable Family and Business Newspaper, in its Literary, Commercial, and Political arrangements.

HUGH SCOBIE, Proprietor.
